

# **The Issue Central to the War**

lyrics by:  
Brooke Typaldos

## **Verse 1:**

Satan in heaven told the angels  
They did not need a law  
That they could trust in their own judgment instead of God  
The serpent in Eden convinced Eve she would not die  
That she could usurp God's authority, be herself divine  
The dragon lies in subtle ways in Revelation  
Working through the Little Horn  
Which boasts power to change God's Ten Commandments  
(Billions keep his counterfeit form)  
Emperor Constantine in 321 A.D. signed into law homage to  
The Venerable Day of the Sun

## **Chorus:**

This is the issue central to the War:  
Satan endeavors to alter God's Law forevermore!  
He wants the worship that is due to God Alone  
Introduced a spurious Sabbath  
In his efforts to seize God's throne!

## **Verse 2:**

The Ten Commandments are the transcript of God's character  
The Foundation of His throne  
And it was this Law Christ lived out  
When He died on Calvary  
No jot or no tittle can ever be removed  
He will sanctify His children these Laws to keep  
The Seventh-day Sabbath is the Memorial of Creation  
The true Sign that we are under God's sovereign authority  
And in Earth's last days it will be the final test to divide the entire world

Whether to take God's Seal or receive the Mark of the Beast!

Chorus:

The Law of God is the issue central to the War!  
Jesus by His death and life magnified God's Law forevermore!  
He wants the worship that is due to Him alone  
We must keep His Seventh-day Sabbath  
To show allegiance to the One who's on the throne!

Chorus

The Law of God is the issue central to the war!  
Jesus by His death and life magnified God's law forevermore!  
He wants the worship that is due to Him alone  
We must keep His Seventh-day Sabbath  
To show allegiance to the One who's on the throne!  
We must keep His Seventh-day Sabbath  
To show allegiance to the One who's on the throne!
