I am truly grateful for everything you do for me from sound advices to life changing decisions. I feel blessed to have a Financial Advisor like you who is willing to go miles for his service. No amount of words will be enough to tell how grateful I am for the effort you have extended. May you continue to shed light and hope in the lives of many people through your advocacy of financial literacy. I know God will continue to use your hands (especially your podcast) to bring change in this world. All the best Sir David and God bless

Thank you so  
much sa tiwala  
#TrustedFinancialAdvisor

Thank you so much for this ❤ feedback

Before I worked with David, I had a problem with my account in Sunlife as I'm planning to withdraw portion of fund value back then and my original advisor is unresponsive.

Until, my friend told me that her advisor can assist me in my problem so she introduced me to David and he helped me to resolved my problem step by step from account settling to how I can successfully withdraw in fund value. Now, he's already my financial advisor because I believe that he can help me to learn on how to manage my finances.

TUE 9:45 PM

Hi Sir David!! Finally! haha I know it's already long overdue. 2019 pa to Sir! hahaha You're always thanking me for being patient BUT I should thank you for being patient-for patiently waiting for me. I'm actually still hesitant kasi I'm not that financially capable pa but you have this thing na through your words, mapapa-yes ka talaga hahaha and because it's for the fact din na I can use it in the future. You also made me realize how to manage my finances. Thank you for waiting and understanding kasi despite na I'm not financially capable, you still encouraged me and inclined my policy sa kung ano lang ang kaya ko. You really helped a lot regarding ny finances. Hoping to learn more from you as my financial advisor and as a friend on the side. hehe Thank you so much!

◀ You replied to participant

Having a good financial plan is important, but having a good financial planner is equally important. David is one of the very few professionals I know who embodies this.

Before meeting him, I was clueless on how to strategically scale my blog and consultancy services. Fortunately, he was generous to share so much of his knowledge and expertise that I can incorporate in my business - and he even exceeded my expectations! I would definitely recommend David to anyone wanting to achieve better financial outcomes. :)

After all these years, you continue to help us with our insurance. First, you introduced us the importance of having a life insurance. And you helped us choose the best insurance for our type of lifestyle, the market, and you also base it on our plans for our future. You always give us the best advice! I always look forward whenever you come to Cebu and discuss our plans especially now that we have 3 kids. As our business continues to grow, we will soon also get insurance for our children, and ofcourse, you will continue to be our agent. You never fail to remind us and you even make the payments in our behalf for our insurances and then send us our receipts promptly. You truly are the best David! And I will never stop referring you to family and friends. Cheers to the best financial advisor ever!

Thank you so much for the feedback

# Thank you God for using me as a channel of blessing!

Having conversation with David Angway was so incredible experience that I have and literally learning insights about life, insurance, financial literacy and to become a successful financial advisor as well. It's a really nice conversation especially and having a clear example on how can I build my system and to do the action right away. One thing I've realized while having a conversation with David Angway and about rebuilding my system was like, it's not like you have to wait for motivation to come and to do the action. You have to do the action right away and then the motivation will follow. Sure it's a new challenge or journey that I need to prioritize right now but like

mcdo

conversation with David Angway and about rebuilding my system was like, it's not like you have to wait for motivation to come and to do the action. You have to do the action right away and then the motivation will follow. Sure it's a new challenge or journey that I need to prioritize right now but like David Angway said you have to take baby steps and love the process, be patient, and be consistent of your actions towards improvement.
