

Ministry Update:

May 2024

We finally have our tickets! After seeking the Lord's direction, we are starting our way back to the islands on May 21st. Thank the Lord, He has given us 75% of our desired support level. We are stepping out on faith knowing the He will supply all that we need. We are very excited! Busy, but excited.

Thank the Lord we were able to find a company to ship our vehicle in a 20ft container back to the islands. With our van, we are loading some of our personal stuff and items that we'll use in the ministry like Bibles, songbooks, Sunday School materials and tracks. We are still in need of purchasing some power tools and sound system equipment.

Our first stop will be in the Philippines. We will be spending several weeks there to visit a couple of churches, do medical checkups and spend time with my wife's family. We are especially looking forward to spending time with my mother in-law, not only because this is the first time she will be meeting some of her grandchildren, also the opportunity to talk to her about the Lord. After my father in law's sudden passing in January, she's been more open to talking about spiritual matters and has been asking questions. We are hoping to witness to her more while we are there. Please pray for her salvation. The medical and dental facilities in the Philippines is more advanced than what we have in Palau, so we are hoping to get checkups for everyone while we are there.

We have truly enjoyed our time herein the States. It was such a blessing to make new friends and to meet the people who have been faithfully supporting our ministries through their prayers and sacrificial giving. Please pray for our safe travels back to the field.

Carrying the Light to the islands,
Andrew McClure and Family
