PAGE 18-19

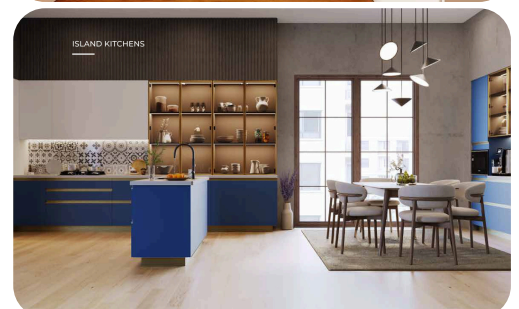

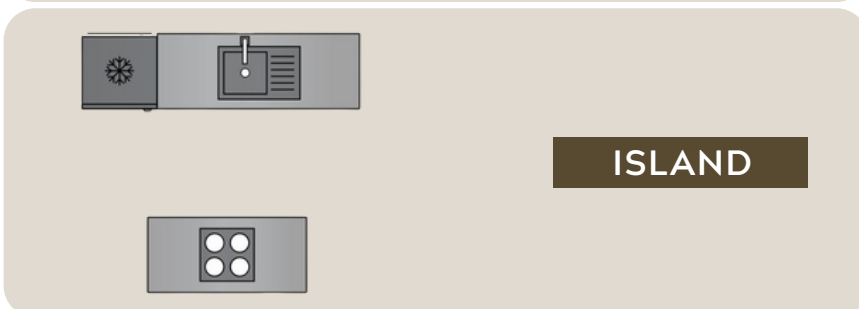

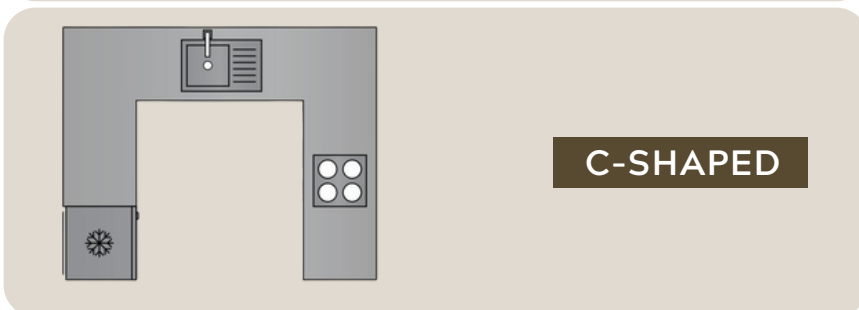

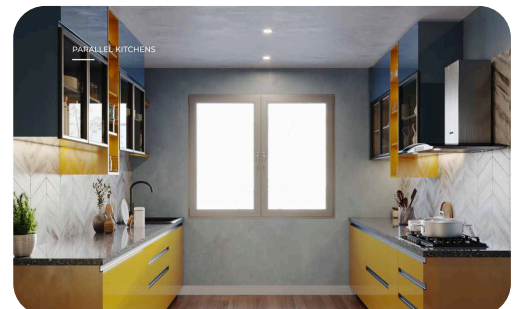

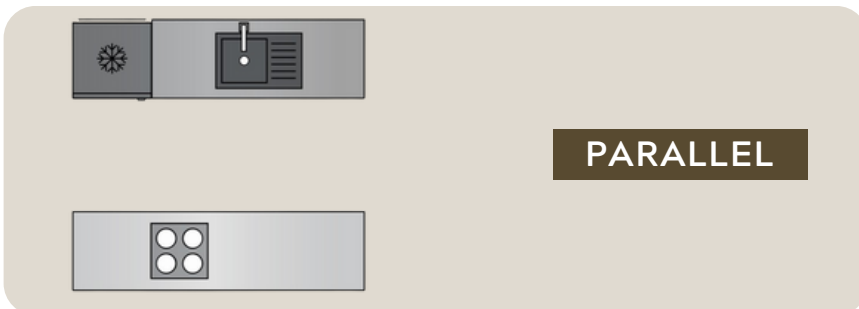

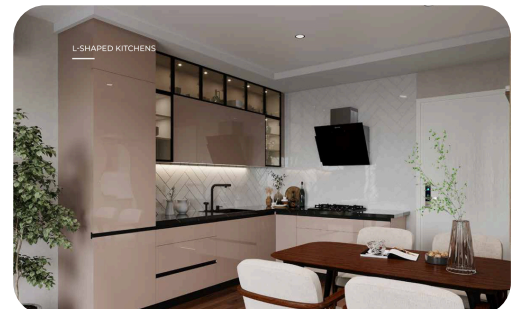

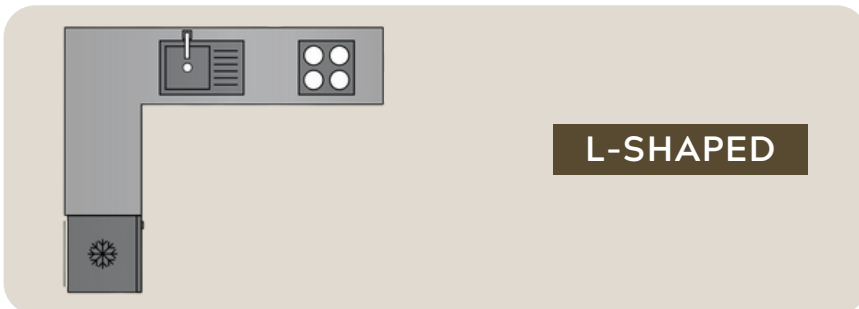

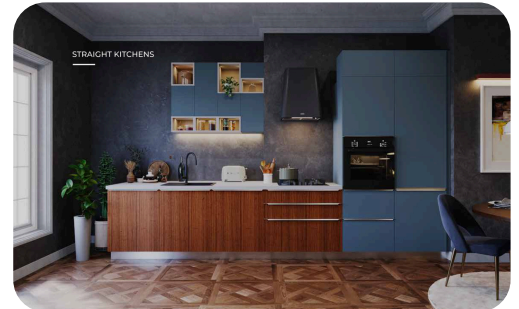

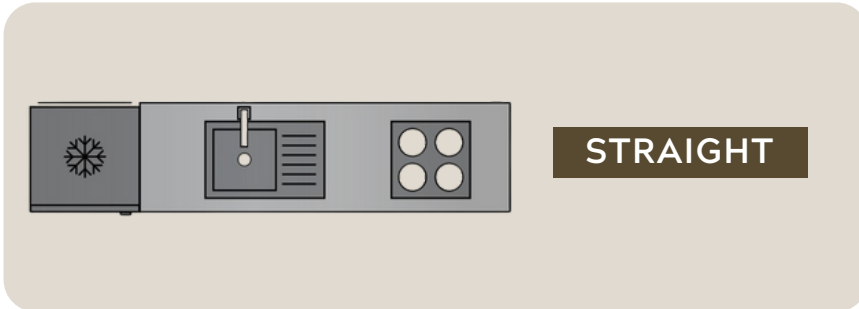

## OTHER PRODUCTS

At ModularGhar, we specialize in creating custom TV units, pooja rooms, elegant mouldings, and all your interior design needs to transform your space into a masterpiece.

# MODULAR KITCHENS

Modular kitchens are a contemporary approach to kitchen design that emphasizes flexibility and customization. Unlike traditional kitchens, which are built on-site and have fixed layouts, modular kitchens consist of pre-made cabinet modules that can be easily assembled and customized to fit any space. These modules come in a variety of sizes, shapes, and finishes, allowing homeowners to mix and match components to create their ideal kitchen setup.

# TYPES OF KITCHENS

# TYPES OF FINISHES

- LAMINATE/UV FINISH
- ACRYLIC FINISH
- DUCO FINISH

FEATURES	Laminate	Acrylic	Duco
Appearance	Matte/Glossy, Textured	High-gloss, smooth	Smooth, matte/satin
Durability	Good	Excellent	Moderate
Maintenance	Easy	Moderate (smudges)	Easy
Cost	Low	Medium to High	High
Customization	Limited	Good	Excellent
Best For	Budget-friendly kitchens	Modern, glossy kitchens	Custom & Classical designs

# LAMINATE FINISH

Laminate kitchens are a budget-friendly option, offering a wide range of colors, patterns, and textures. They are durable, easy to maintain, and resistant to stains and moisture. Ideal for those seeking affordability and variety without a premium finish.

# ACRYLIC FINISH

Acrylic kitchens feature a high-gloss, smooth, and reflective finish, offering a modern and sleek look. They are highly durable, resistant to moisture and UV rays. Ideal for contemporary kitchens, they are mid-range in cost and require regular cleaning to maintain their glossy appearance.

# DUCO FINISH

Duco kitchens offer a seamless, smooth, and customizable finish, available in a wide range of colors with matte or satin options. They provide an elegant & premium look. Ideal for those seeking a high-end, custom-designed kitchen with a sophisticated or classical appeal.

# KITCHEN ACCESSORIES

Accessories like pantry units, corner units, cutlery organizers, etc. are essential for maximizing kitchen efficiency and storage. They help keep the space organized, reduce clutter, and make cooking and meal prep more convenient. By utilizing every inch of your kitchen, these accessories enhance functionality and create a more enjoyable cooking experience.

# VERTICAL UNITS (PANTRY)

A very practical addition to modular kitchens

Provides you better storage than traditional cabinets or shelves

Ideal for storing dry goods, canned goods, snacks, baking supplies, etc.

Pantry Unit (Closed)

Pantry Unit (Open)

Pantry Pull-Out (Open)

# CORNER UNITS

Clever storage solution for easy access to hard-to-reach items and underutilized spaces

Ideal for storing pots & pans, and small appliances

# CUTLERY ORGANIZERS

Keep your silverware organized and easily accessible

Enhance the overall aesthetics

Easy to remove and clean

# BOTTLE \ SPICE PULL OUTS

Can save time and reduce the risk of spills

Better utilization of small spaces

Easy and efficient organization of your spices next to cooking space

# UNDER-THE-SINK WASTEBIN AND DETERGENT HOLDER

A pull-out drawer designed to hold a waste bin and cleaning agents

Smart storage solution to utilize the space beneath the sink keeping it organized and concealed

# WICKER BASKET

Allows food items kept inside to breathe

Ideal for storing breads, potatoes, onions and much more

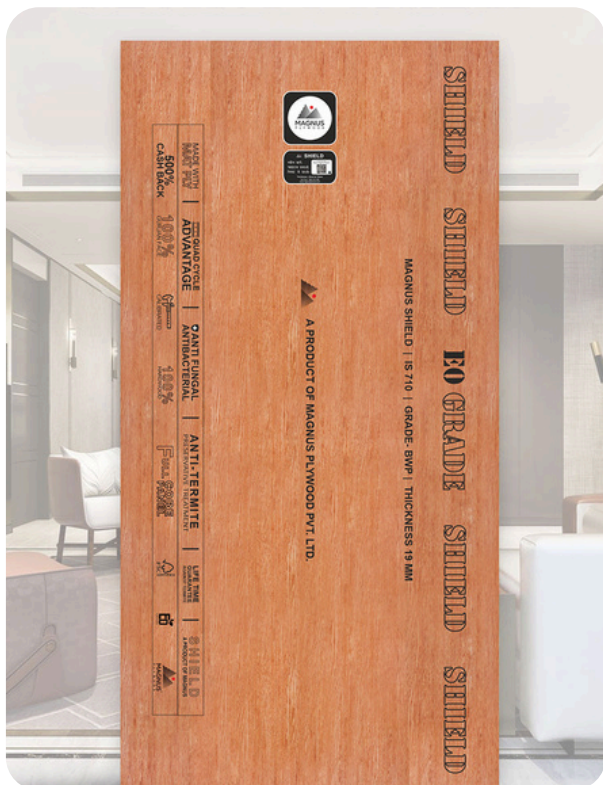

# GLASS SHUTTERS

# HANDLE PROFILES

# MATERIALS THAT WE USE

## 710 GRADE TERMITE PROOF PLYWOOD

We use 710 Grade Termite Proof Plywood in our products, ensuring unmatched durability, moisture resistance, and long-term protection against pests.

Perfect for a stylish, low-maintenance, and worry-free kitchen that lasts for years. Choose quality, choose reliability, choose a kitchen built to stand the test of time!

## STAINLESS STEEL 3D HINGES

Our products use stainless steel soft-close hinges, ensuring smooth, silent operation and long-lasting durability. Say goodbye to slamming doors and hello to a sleek, modern kitchen designed for everyday ease and elegance. Built to withstand daily wear and tear, these hinges are crafted for a lifetime of reliable performance.

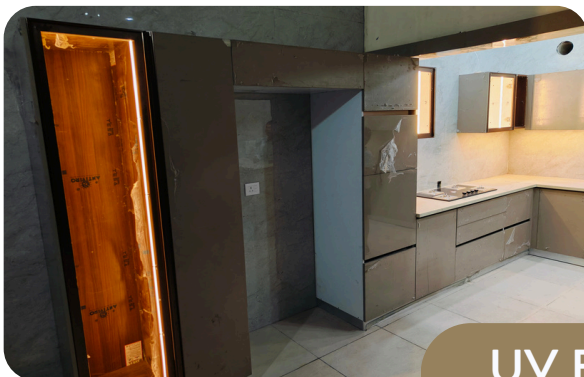

# CARPENTER KITCHENS OR MODULAR KITCHENS?

Parameter	Carpenter's Kitchen	Modular Kitchen
Planning	Lacks the know-how of space management & planning due to the absence of design consultancy.	Space and storage planning is done by professional designers with proper study of users' needs.
Design	Limited design options depending on the carpenter's designing skills.	innumerable component options and combinations possible can be made in various designs and materials.
Finish	Hand-made, and thus lacks precision, finish, and quality.	World-class looks, top-of-the-line quality, and precise finishing due to hi-tech machine work.
Durability	Due to use of traditional joinery methods and glue, all depends on skill and quality with workmanship.	Using the latest fitting and connectors make sure all components remain functional and connected.
Budget	Initially may sound cheaper but over time need more money on maintenance.	One-time investment may be on a little higher side but mostly proved as value worth spent.
Time	Due to work on-site by hand from cutting, pasting, and joining, it takes lots of time to produce.	Using automated pressing, cutting & processing machines, it takes very little time to produce.
Service	Depend on the relationship and availability of the carpenter,	Always backed by the brand and its service team.
Replacement & Warranty	It's very difficult to remove any faulty component and replace it and There is no warranty involved from carpenter side,	All components can be easily removed at any point in time for easy replacement and Most of the brands provide a warranty from 5-10 years.
