#### PAVING OUR WAY FORWARD

# OUR VISION

Our vision is to be the largest player in the space globally for edible oil refining minerals by providing highest quality material and to get our name synonymous with refining minerals.

To supply highest quality bleaching earth to oil refineries worldwide.

Create and cultivate long-term relationship with our clients with market beating after sales service and timely quality supply.

Respond immediately to the changing needs of our clients.

To be completely open to customer's feedback loop regarding different parameters of our product and strive to achieve highest possible customer satisfaction.

### OUR MISSION

With more than two decades of experience in Bleaching Earth Industry, our management team boasts of working with numerous clients across the globe having varied oil refining needs.

Our continuous expansion of capacity is testimonial of the trust our clients have in us.

# INDUSTRY EXPERIENCE

We are one of the top manufacturers of bleaching earth chemicals in India.

Recognized in the market by the name of Bleach Master. With extreme focus on the quality of the product, along with a thorough understanding of the field, Umiya Resources have risen up in the field beyond a doubt.

### Our products have the following benefits

#### **Higher Bleachability**

Thus leading to lower requirement dosages and in-turn saving inventory costs.

#### Lower Oil Filtration time

Thus leading to efficient filtration with better outputs.

#### **Better Oil Retention**

Thus resulting in least oil loss in bleaching process and release of more oil per cycle.

#### Optimum moisture content

This helps in keeping the bleaching earth flow-able.

High Grade Activated Bleaching Earth Specification Sheet

Parameters	Results
Appearance	Free flow white powder without lumps
Moisture content	5% to 8%
Bulk Density (gm/cc)	0.55 gm/cc
PH value	3.0 to 4.5
Bleachability	> 70%
Bleaching efficiency against GV2	100%
Sieve test by 120 Mic	Passes

## BLEACH MASTER

### THE FRUIT OF OUR LABOUR & INNOVATION

Our cutting-edge manufacturing process involves mining, crushing, acid treatment, washing, filtering, drying, grinding and sizing to produce high quality bleaching earth. Extreme attention is given to details at each step of the manufacturing process.

Bleaching earth is used in the refining process of all kind of edible oils like soya bean oil, cotton seed oil, palm oil, sunflower oil, groundnut oil & rice bran oil. It also has application in refining of non-edible oils like castor oil, fish oil, lard oil, bio fuel. Apart from it is also used in refining of waxes, paraffins & lubricants.
