The Iberchip workshop provides an annual forum to academic and industrial researchers from Iberoamerican countries in which to exchange experiences, share knowledge, and establish relations to foster the development of activities related to the field of microelectronics. Special emphasis is put in the improvement of education and training, and in the promotion of joint cooperative projects.

**Topics of Interest:**
- Analog and Digital Circuits
- Mixed-Mode Circuits
- Biomedical Electronics
- Communication/RF Circuits
- Wireless Sensor Networks
- Nanoelectronics
- Electronic Design Automation
- VLSI Systems and Applications
- FPGA Design and Applications
- Circuit Testing
- Fault Tolerant Circuits
- Electronics, systems and circuits for space and nuclear applications
- Other topics related to Microelectronics

**Works in Spanish, Portuguese and English can be submitted to Iberchip 2024**

**General Chairs:**
Dr. Matías Miguez – UCU, Uruguay.
Dr. Pablo Pérez-Nicolí – Udelar, Uruguay.

**Program Chairs:**
Dr. Rafaella Fiorelli – IMSE-CNM, España
Dr. Fabian Olivera – CEFET/RJ, Brazil

**Important dates:**
- Paper Submission: October 15, 2023
- Notification of acceptance: November 20, 2023
- Camera ready: November 30, 2023

Works in Spanish, Portuguese and English can be submitted to Iberchip 2024
