

## Special Issue & Call for submission of research articles in “*Physics and Chemistry of the Earth*” in Elsevier Publications – CIMA 2025

The Special Issue on “Environmental Diagnosis and Management” primarily aims to publish the research outcome of articles presented in the “**6<sup>th</sup> International Conference of Environmental Network Researchers Group, IPN**” held during 12<sup>th</sup> to 15<sup>th</sup> November, 2025 in Hotel Krystal Grand, Los Cabos, México. The central theme of the conference is “**Only Planet**”. The main aspect is the destruction of planet in all manner which is seen as a social problem and it also affects the ecological system to absorb the disturbances, to maintain the basic structure its functions, the self-organization to absorb the stress as well as their adaptation to changing environment.

**Full title: “Environmental diagnosis and management”**  
**Short title: “Pathways Toward Conservation”**

**Topic includes but “Not Limited to”**

**Specific themes of the conference are:**

### **Theme 1 Planetary Pathways to a Habitable World – Environment, Biodiversity**

Conservation and use of natural resources; Biodiversity of terrestrial/aquatic environments: Forests, jungles, deserts, grasslands, evaluation, monitoring, conservation and management. Soil, sediment and water pollution (lagoons, rivers and coastal zone); Diagnosis, prevention/ remediation; Air pollution; Metals in fish and organisms; Microplastics, Bioremediation by different methods of biology; Bioremediation of hydrocarbon, pesticide and metal contamination; Waste water purification.

### **Theme 2: Climate: Past, Present & Future Prospects**

Biodiversity and climate change; Droughts and floods; Forest fires; Assisted human and animal migration; Coal and land management; Ocean acidification; Climate change and ecosystems; Landscape analysis; Importance of forest cover; Climatic cycle changes (rainfall and snowfall); Water and climate

### **Theme 3: Development: Energy, Resources, Technology & Artificial intelligence**

Methods to control nitrogen oxide (NO<sub>x</sub>) generation; Technologies for reduction of pollutants in air, water and soil; High efficiency combustion systems; Geospatial & information technologies; Energy efficiency of thermal systems; Clean energy production; Recovery of residual energy; New fuels and alternative sources of energy; Solar energy; Wind energy & efficiency; Wireless technology.

### **Theme 4: Contaminated Environment & Human Health**

CO<sub>2</sub> emissions in cities; Air pollution and its relationship with the atmosphere; Problems within home during the pandemic; Health effect on humans; Effects of social distancing; Effects on the educational system; Conflicts around the world related to the pandemic; Vaccines and uncertainty; Health and Side Effects of Vaccines; Challenges of future pandemics; Future environment; Future natural hazards; Future human health & environment.

## Official Language:

The official language of the Special Issue is English. **SUBMISSION OF MANUSCRIPT DOES NOT GURANTEE THE PUBLICATION OF THE ARTICLE IN THE SPECIAL ISSUE.**

The submission website for this journal is located at: <https://www.editorialmanager.com/jpce/default2.aspx>

**Submission of full manuscripts will be open from 11th November 2025 to 27th February 2026** and authors are requested to follow the Guideline to Authors in the official webpage. <https://www.sciencedirect.com/journal/physics-and-chemistry-of-the-earth-parts-a-b-c/publish/guide-for-authors>

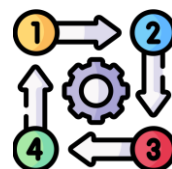

## EARLY SUBMISSIONS IS RECOMMENDED.

### Steps to follow for submission of article:

#### Submit your manuscript

Use this service to submit to *Physics and Chemistry of the Earth*

This is a new service for submitting manuscripts to *Physics and Chemistry of the Earth*. Our aim is to provide an easier submission experience for authors.

[Start a submission](#)

[Complete a transfer](#)

You have to register in the journal webpage using your user id (or create a new ID) and password, and follow the process for submission of your manuscript.

### SELECT THE SPECIAL ISSUE

- 1) **VSI: PATHWAYS TOWARDS CONSERVATION RESEARCH ARTICLE;**
- 2) **2) VSI: PATHWAYS TOWARDS CONSERVATION REVIEW ARTICLE; AS MENTIONED BELOW.**

#### Choose your article type

- ☐ Research Article
- ☐ Review Article
- ☐ SI:SofSen & Act Earth montg
- ☐ VSI: Geohazards in the Himalayan Region\_Research article
- ☐ VSI: Geohazards in the Himalayan Region\_Review article
- ☐ VSI: Water Resources and Quality Management\_Research Article
- ☐ VSI: Water Resources and Quality Management\_Review Article
- ☐ VSI: AIMEE\_Research Article
- ☐ VSI: AIMEE\_Review Article
- ☐ VSI: Linking SDG 11 & 13\_Research Article
- ☐ VSI: Linking SDG 11 & 13\_Review Article
- ☐ VSI: Microplastic Chronicles\_Research Paper
- ☐ VSI: Microplastic Chronicles\_Review Paper
- ☐ VSI: Pathways Toward Conservation\_Research Paper
- ☐ VSI: Pathways Toward Conservation\_Review Article

[Save and continue >](#)

Select any one of the following options **VSI: Pathways Toward Conservation – Research Paper** o **VSI: Pathways Toward Conservation – Review article**

**Editors:** 1) **Dr. Jonathan Muthuswamy Ponniah**, CIEMAD, IPN, México;  
2) **Dra. Laura Sánchez Velasco**, CICIMAR, IPN, La Paz, México;  
3) **Dr. Norma Patricia Muñoz Sevilla**, CIEMAD, IPN, México;  
4) **Dra. Sujitha Suresh Babu**, ESIA – IPN, Ticoman, México

If you have any doubts regarding your submission of full manuscripts, please. do send us an e-copy to: [congresocima@ipn.mx](mailto:congresocima@ipn.mx), [mpjonathan7@yahoo.com](mailto:mpjonathan7@yahoo.com) for any reference.
