

# Dr. Sater Boutique Clinic

## SERVICE LINES OVERVIEW

Personalized | Futuristic | Boutique Care for the Whole Human | Integrated with HAS Consulting | Powered by NOVORÊX

## ACCESSIBILITY

Starting at \$299 | Delivered virtually & in-home

# Pathfinder Line – Your Strategic Entry Entry Point

Your Strategic Entry Point. Because great care starts with the right map.

## The Pathfinder Visit

A 15-90 minute virtual or in-home session with Dr. Sater, offering an integrative overview and care navigation.

## Development of your Personal Health Narrative

including lifestyle, labs, belief system, and host factors

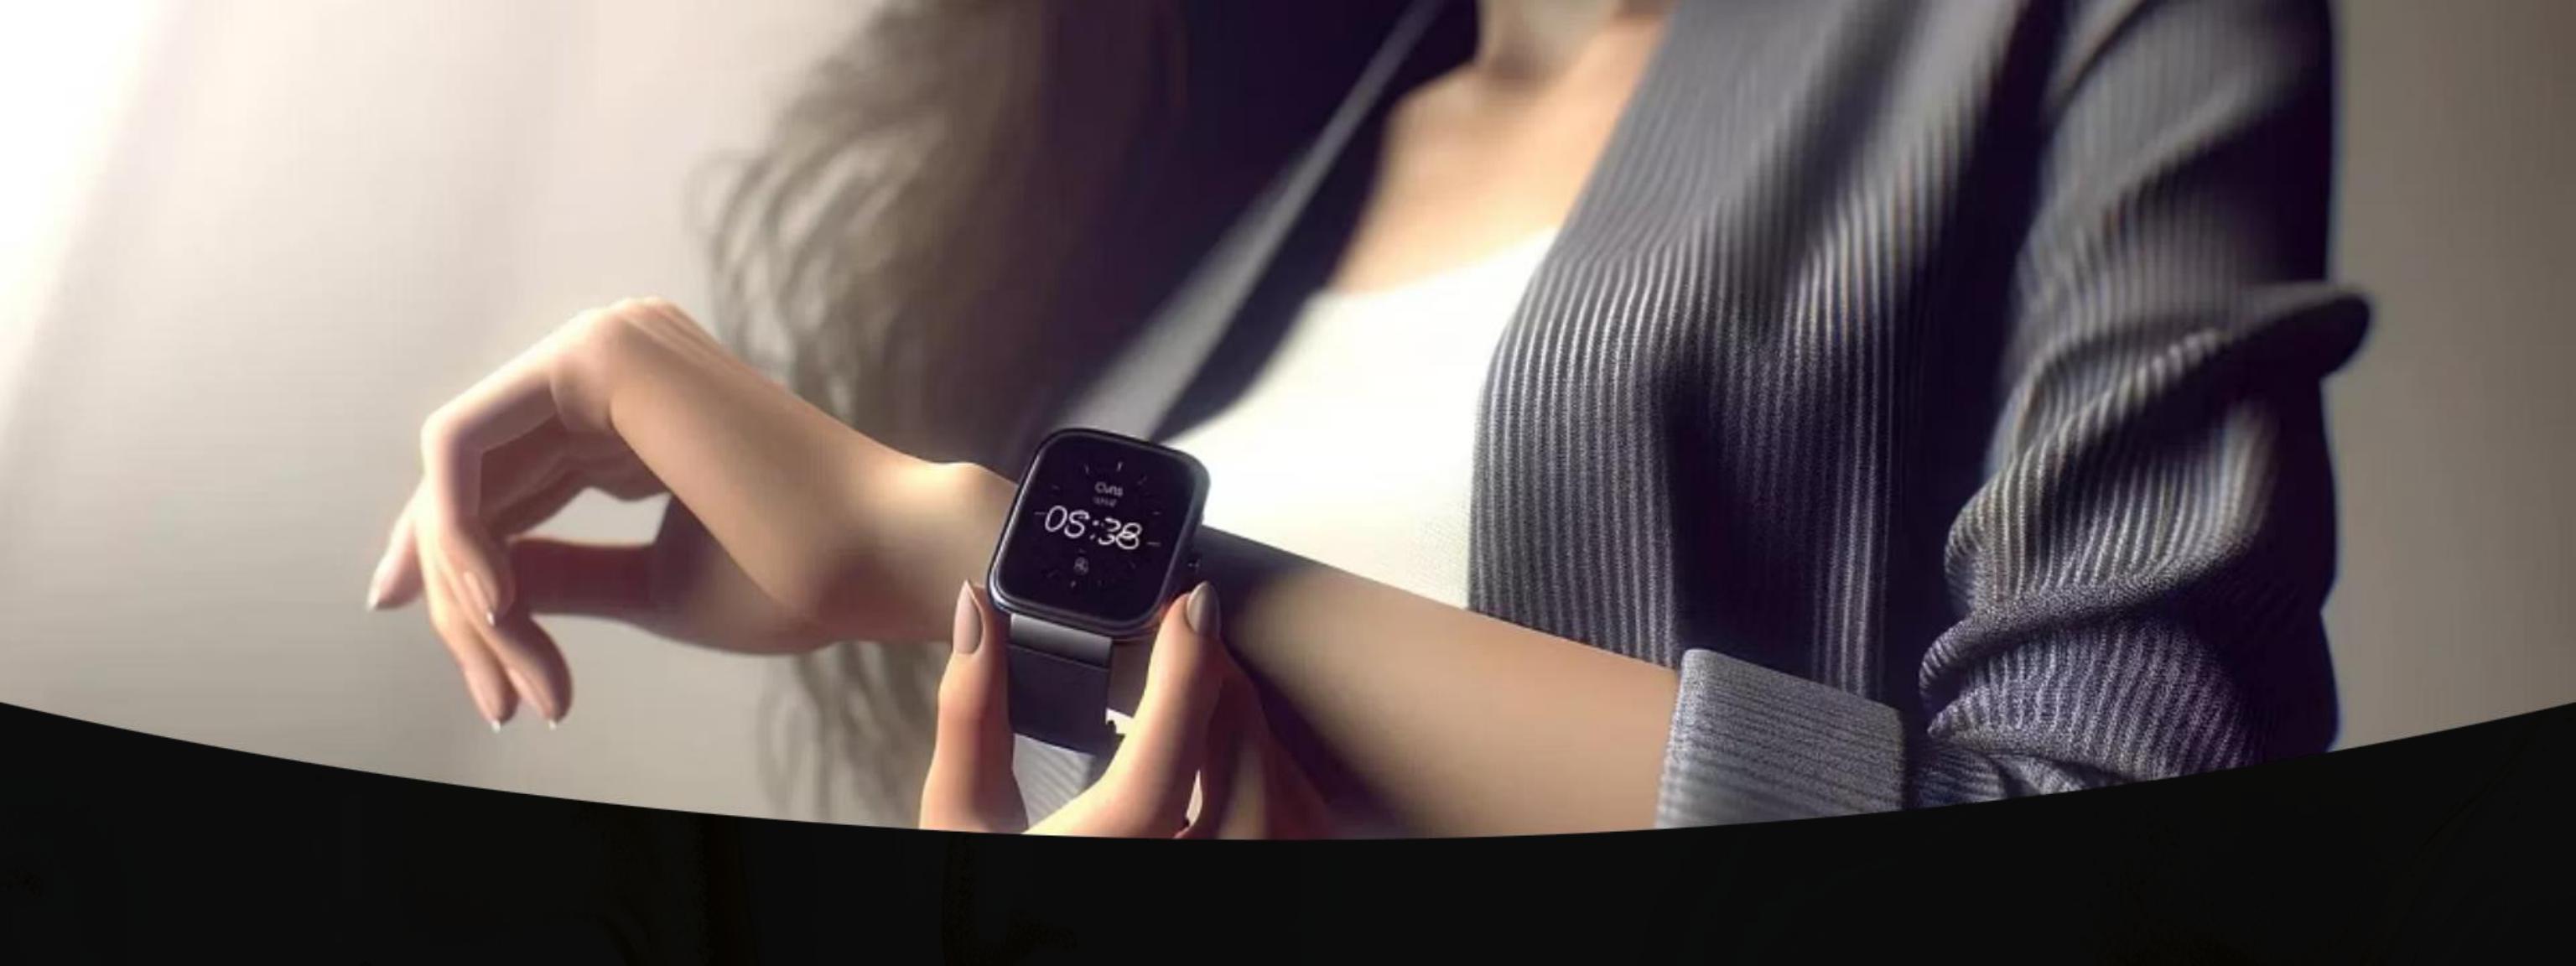

## Delivered with 7R goals and a full Navigational Plan

# ★ Your Pathfinder Advantage – – The 7Rs

A human + AI model of guided medical navigation for next-level patient experience.

1. Rapid access to care  
→ Same-day booking. We remove the wait—and the worry.
2. Rapid time to treatment  
→ Personalized treatment plans within 24–72 hours.
3. Rational assessments  
→ Whole-person evaluation backed by labs, data, belief science & host factors.
4. Rigorous plans  
→ Evidence-based, personalized pathways updated in real-time.
5. Righteous guidance  
→ We advocate with clarity, ethics, and integrity through shared decision-making.
6. Resources for healing  
→ Emotional, clinical, nutritional, and energy support tailored to patient's inner map.
7. Readiness to help anytime  
→ 24/7 care navigator + urgent consults + coordinated support.

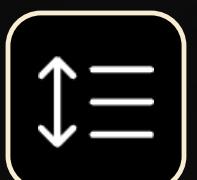

# Prevention & Longevity Line – Optimize Before Onset

## SEROLOGY

# Hematology Line – Balance the Blood, Build the Body

We don't just detect. We defend and design.

Diagnostics, monitoring, and treatment for:

- Anemia
- Vitamin & iron deficiencies
- Leukopenia, thrombocytopenia
- Polycythemia vera & myeloproliferative disorders
- Leukemia, Lymphoma, Myeloma

In-home blood draws, monitoring kits, and nurse visits

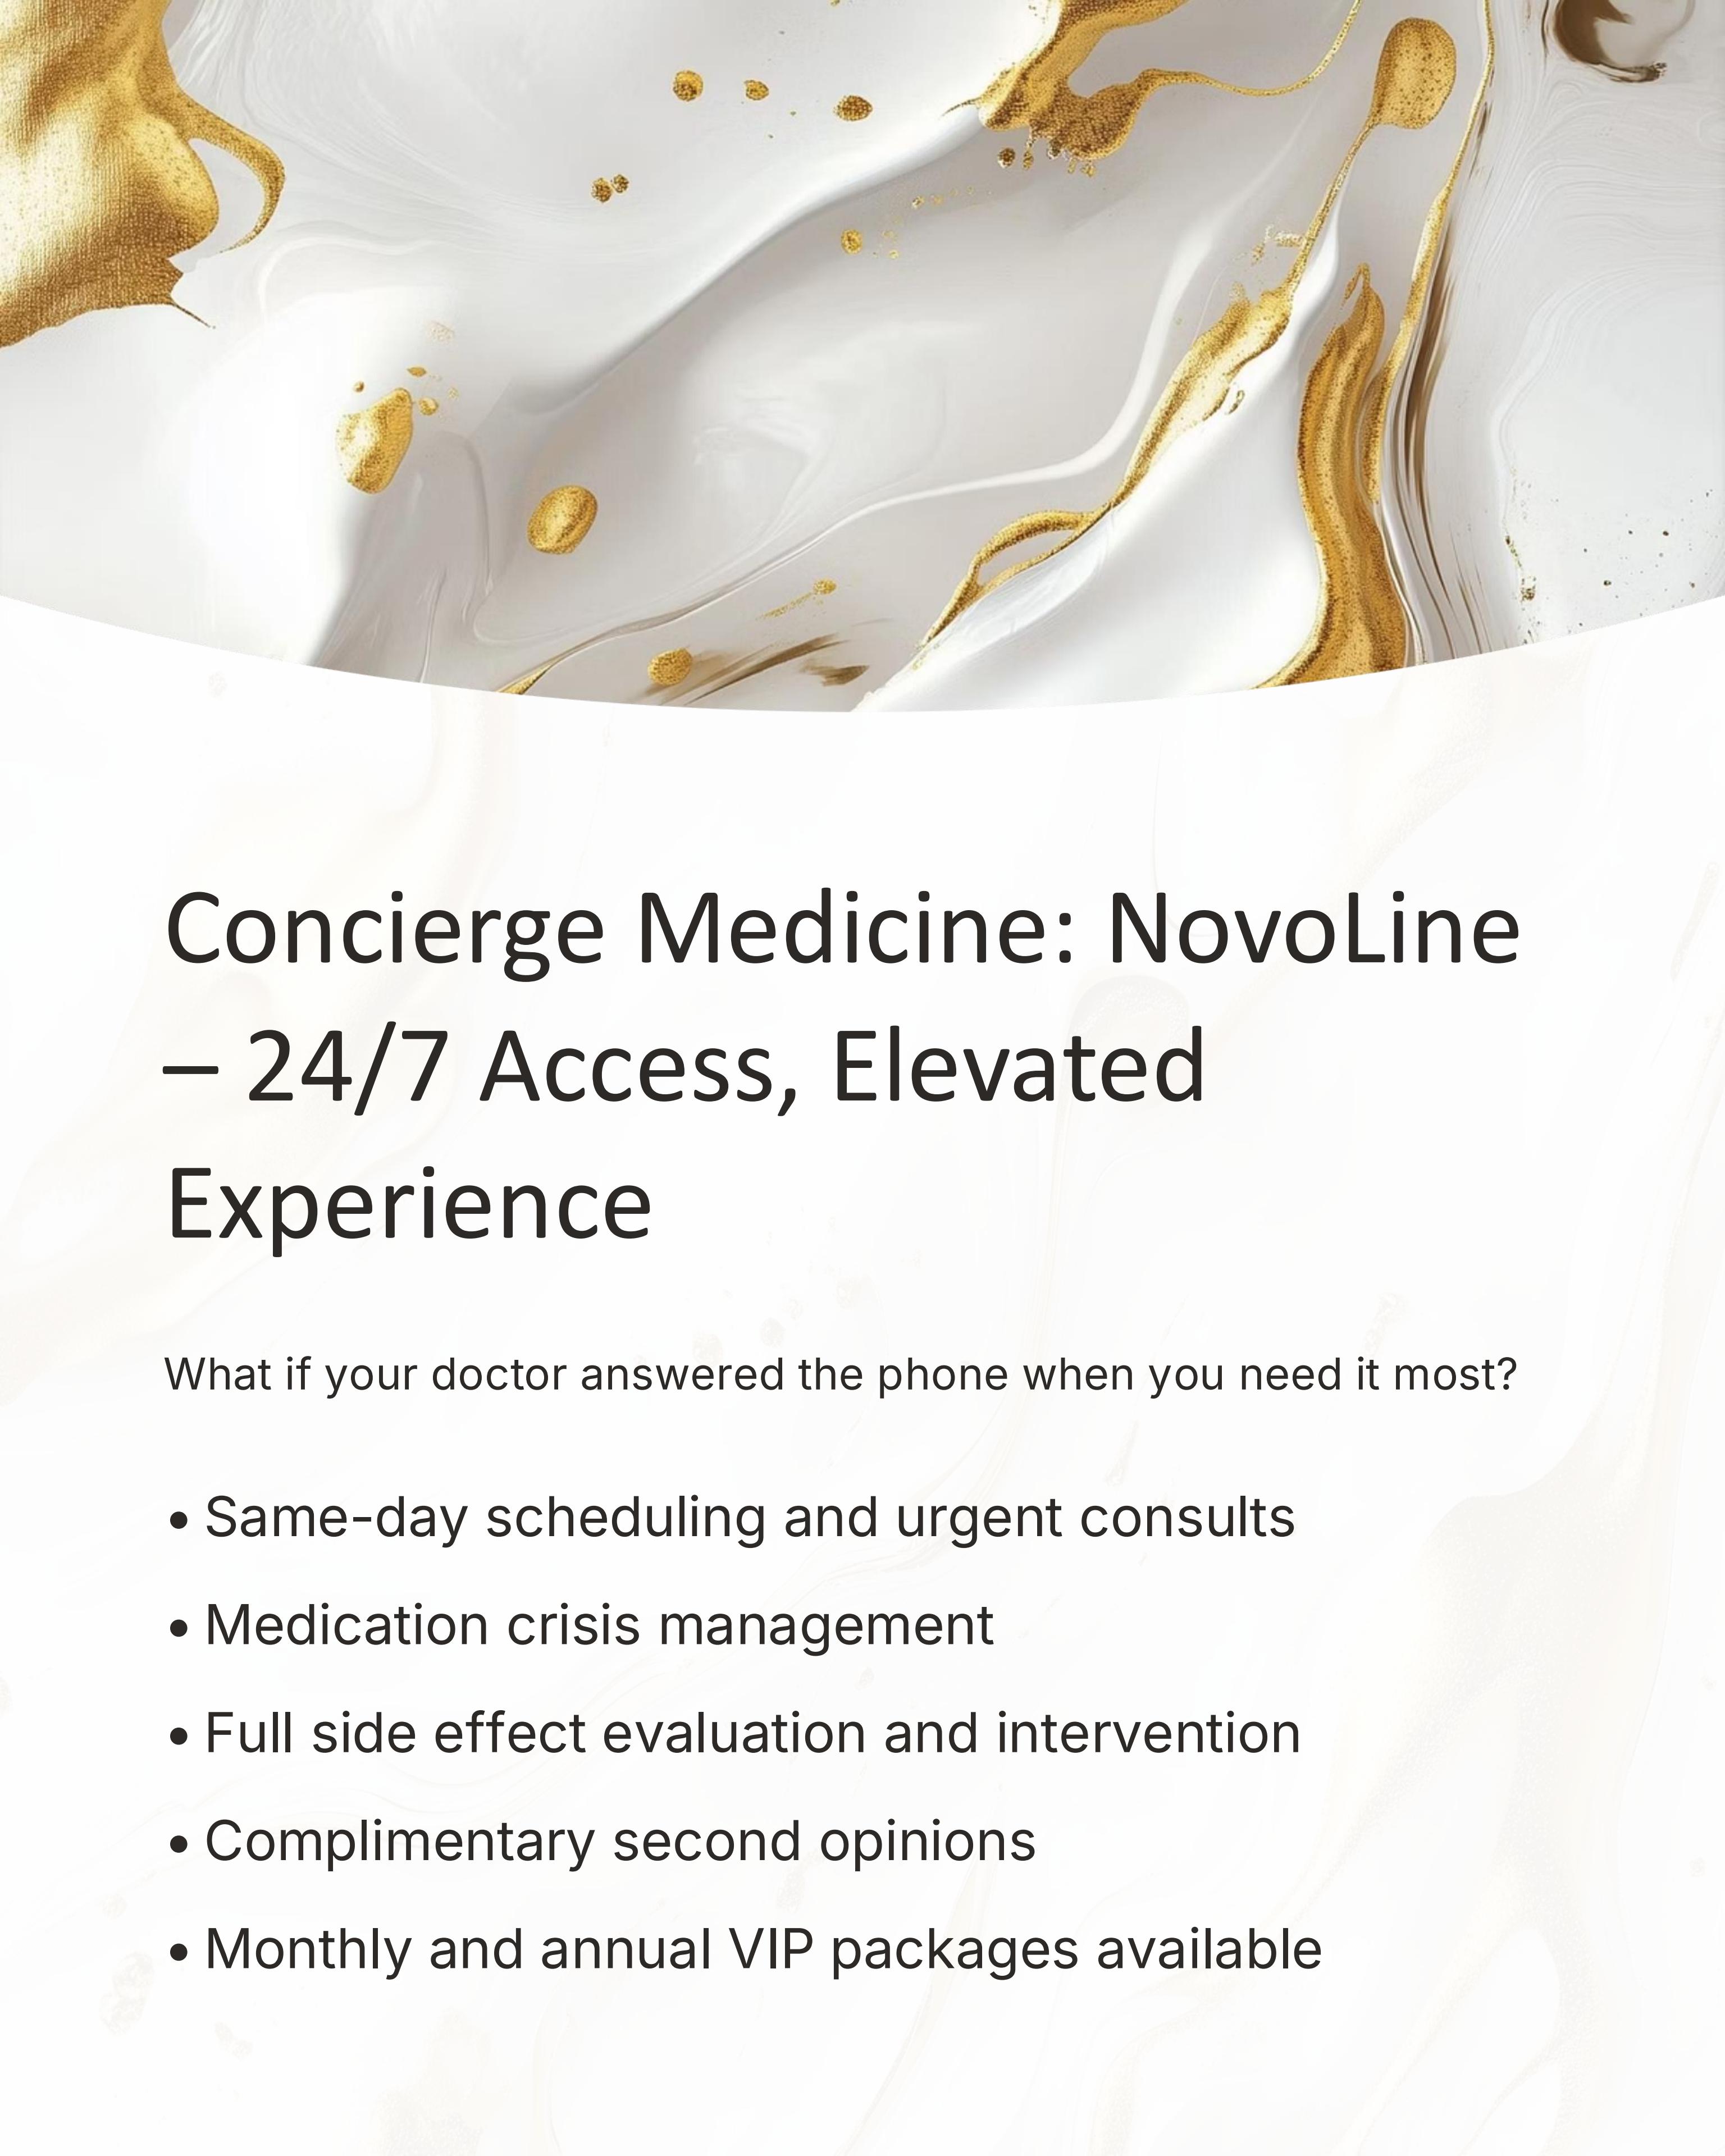

# Oncology Line – Precision Treatment from Home

Where cutting-edge meets comfort.

Diagnostics, monitoring, and treatment:

- Solid tumors (breast, lung, GI, GU, GYN, melanoma, and rare tumors)
- Oral & injectable therapies (including subcutaneous immunotherapy)
- Virtual visits, nurse-administered injections at home
- Future-ready infusion plans
- Regular case review with top-tier oncology experts

# Concierge Medicine: NovoLine – 24/7 Access, Elevated Experience

What if your doctor answered the phone when you need it most?

- Same-day scheduling and urgent consults
- Medication crisis management
- Full side effect evaluation and intervention
- Complimentary second opinions
- Monthly and annual VIP packages available

# Novorêx Healing Line – Emotional & & Belief-Aligned Healing

Where emotional safety meets cellular strategy. Powered by the 5E Framework.

Personalized Healing Plans:

- Support Groups by cancer type, stage, and phase, including survivorship and grief
- Habit Challenges: e.g. Smoking Cessation
- Burnout and Performance Decline

LBM Mapping: Limiting Beliefs Map Assessment

Energy alignment, somatic orientation, faith-informed frameworks

# Survivorship Line – Live Beyond Survival

Redefine your health after the hardest part ends.

- Hormone therapy counseling (e.g., tamoxifen, letrozole)
- Neurocognitive support & fatigue recovery
- Intimacy, body image, and psychological safety
- Functional medicine support for repair and integration

# Clinical Trial Navigation Line – Line – Bridge to Tomorrow

You deserve access to every option.

- Personalized biomarker-based trial matching
- Review of eligibility criteria and consent support
- Connection to academic and pharma-sponsored studies
- Survivorship-focused experimental pathways

# Expert Match & Review Line – Line – Multidisciplinary Wisdom On-Demand

Your case deserves more than one mind.

- Full case review with leading hematology-oncology experts
- Multidisciplinary tumor boards on demand
- Academic center referrals + transfer prep
- Diagnostic reinterpretation and imaging re-reads

# Home Care Line – Clinic in in Your Comfort Zone

No need to travel to receive excellence.

- Phlebotomy, injections, nursing support at home
- Medication teaching and pharmacy integration
- Physical therapy, home aids, nutrition coaching
- Telemonitoring setup and ongoing patient tech education

# Research & Development Line Line – Lead With Us

Innovating how we heal, together.

- Contribution to personalized medicine, cancer evolution, QoL and emotional intelligence studies
- Real-world patient data analytics
- Collaborations with biotech, AI health tools, and wearables
- Trial design consulting via HAS Consulting
