**Our Mission** To be the best global standard one stop solution for all construction related needs and ancillary services in the communities we serve.

**Our Vision** To be the ideal choice of customers in our chosen markets, offering reliability, speed, agility, diversity and service in the construction sector.

**Our values** Execution, Customer centric, Safety, Integrity, honest, efficiency, Quality.

**Our Products** Civil and mechanical engineering, building construction and renovations, water and sewer reticulation, electricals, roads, dams, solar system aggregates fumigation, and building materials.

JM Sky-Construction is a Mozambique registered company which started as a family business in early 2011. JM Sky Construction has deep experience in the sector of civil works (concrete works block and mortar plumbing, fabrication, electrical works including solar systems, building construction, fumigation, boreholes, sewer and water reticulation systems including drainages, maintenance, consultancy and engineering services, having undertaken projects for diverse clients in different places. The immense growth led to the formal registration of a private enterprise in 2024. Clientele base ranges from the State, NGOs, private companies, parastatals and various service industries.

Over the years the skills and management base of the company has grown and developed, it is comprised of a vibrant, competent, experienced, qualified and committed team of staff and managers. At Sky construction we strive to give a single source solution to all construction related needs in a health and safe environment for both the client and staff, hence our team is grounded in global standard health and safety ethics. Professional management, quality work, ability to meet deadlines, synergy and proactive approach to tasks have ensured customer satisfaction thus continuously increasing clientele base.

Speed, agility, diversity and service is the life blood of J.M Sky Construction hence the company always endeavors for continuous improvement and is highly adaptive to changes and needs of the communities in which it serves. The most experienced and qualified resources are deployed to service our clients.

**Our Strategy:** We are committed to continuous improvement, applying the best expertise in execution of projects and maintaining a highly selective risk management process for every new project and venture. JM Sky Construction upholds highest level of safety, quality and cost effectiveness, to ensure value for service to clients. Speed, agility diversity, peak performance, persistence, balance and total commitment are the key drivers of the success story of JM Sky Construction. JM Sky Construction will continue to grow to become the single solution for all Construction related needs.

## Responsibilities of the contractor

- To finalize the work in proper matter and should follow IOM Bill of quantity shared with this call for proposal and drawings.
- To supply all needed materials, equipment, manpower, and mobilize and demobilize all required resources, and to demolish any temporary constructed works in the location, that also includes but not limited to first aid kits, fire extinguisher, safety, and security guards for the materials at the site, and any other security measures and items. Also, the constructor is responsible for returning the site back to its original situation prior the project, this includes removing the rubbles and any remain materials including the digging remains.
- The contractor should be responsible in the location of the project for the safety and security of its staff, equipment, and materials, in line with the Mozambiquan working law.
- The contractor is responsible to hire workers from the site for the whole period of the project and sharing all needed information with IOM.
- The contractor has to ensure that his own staff working in the field are working in line with the Mozambiquan labor law, including the wage of payment, insurance and any other liability that the Mozambiquan labor law enforce in these cases.

## Corrupt, Fraudulent and Coercive Practices

We understand and agree that IOM requires that all IOM Staff, contractors, manufacturers, suppliers, or distributors, observe the highest stand of ethics during the procurement and execution of all contracts. IOM shall reject any proposal put forward by contractors, or where applicable terminate their contract, if it is determined that they have engaged in corrupt, fraudulent, collusive, or coercive practices. In pursuance of this policy, IOM defines for purposes of this paragraph the terms set forth below as follows:

- ✓ Corrupt practice means the offering, giving, receiving or soliciting, directly or indirectly, of anything of value to influence the action of the Procuring/Contracting Entity in the procurement process or in contract execution.
- ✓ Fraudulent practice is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, the Procuring/Contracting Entity in the procurement process or the execution of a contract, to obtain a financial gain or other benefit to avoid an obligation.
- ✓ Collusive practice is an undisclosed arrangement between two or more contractors designed to artificially alter the results of the tender procedure to obtain a financial gain or other benefit.
- ✓ Coercive practice is impairing or harming, or threatening to impair or harm, directly or indirectly, any participant in the tender process to influence improperly its activities in a procurement process or affect the execution of a contract.

## Annex H: Hygiene and Safety in the Workplace

1. The Bidder acknowledges that it is familiar with the legislation in force in Mozambique, especially with respect to hygiene and safety requirements in the workplace.

2. The Bidder agrees to comply with the following requirements and proceedings, if the contract is awarded:

a) The Bidder will be responsible for:

- Identifying possible dangerous conditions, dangers and risks.
- Eliminating potentially dangerous conditions and actions.
- Ensuring a safe working environment.
- Inspection and registration of work incidents and submission of a monthly report to IOM.

b) The Bidder shall inform his employees on any risks and dangers associated to their work.

Furthermore, it shall offer information on any precautions necessary to avoid bodily harm to employees and third parties, as well as to prevent damages to property, machinery and equipment.

c) The Bidder is responsible for its employees or subcontractors under his control and shall comply with all legal and moral obligations in order to eliminate unsafe conditions and prevent detrimental acts.

d) The Bidder shall ensure that all employees have proper clothing for the Operation at their disposal and are duly identified.

e) The Bidder commits to comply with all legislation in force.

21 July 2025
