Kiyaan Prince is a solvent based high strength construction adhesive. It bonds wood, concrete board, metals, masonry, ceramics and glass. Reduces the need for screws and nails.

#### Directions:

1. Ensure the surfaces to be bonded are clean and dry.
2. Cut the nozzle and fit to a cartridge gun.
3. Apply a zig zag bead of the adhesive along the joint, panel or stud. Assemble the joint within 10 minutes and clamp with nails, screws or fasteners for at least 24 hours.
4. Remove wet adhesive excess with mineral turpentine. Dry excess can be sanded or scraped.

#### Warning:

- Keep out of reach from children.
- Do not inhale vapours of this product.
