

Premium Baking & Food-Grade Paper Solutions

High-Performance, Heat-Resistant, and Eco-Certified Solutions

- Core Performance Features

- **Superior Non-Stick Surface:** Double-sided silicone coating ensures effortless food release and minimises waste, even with high-sugar or high-fat products.
- **High-Thermal Stability:** Engineered to withstand consistent temperatures up to **220°C (428°F)**, making it ideal for professional ovens, microwaves, and air fryers.
- **Safety & Compliances:** 100% PFAS-free and BPA-free. Fully compliant with international standards for direct food contact and consumer safety.
- **Eco-Conscious Excellence:** Sustainably sourced substrates available in FSC-certified options, supporting responsible forestry and circular economy goals.

- Technical Specifications

- **Product Formats:**
 - **Commercial & Retail Rolls:** Bulk rolls with integrated cutting edges
 - A. *Standard Lengths:* 3m, 5m, 8m, 50m, and 75m.
 - B. *Standard Widths:* 38cm, 45cm, and 58cm.
 - **Jumbo Rolls (Industrial):** Designed for high-volume converters and manufacturers.
 - *Example Specs:* 420mm width x 7500m length.
 - **Pre-Cut Sheets:** Precision-cut for standard baking trays
 - *Standard Sizes:* 38*42cm, 60*40cm,
 - **Air fryer paper:** in Round, Square and Rectangle shapes in different sizes.
 - *Round:* 16 cm, 18cm, 20cm and 23cm
 - *Square:* 16 cm, 18cm, 20cm and 23cm
 - *Rectangle:* 21*14cm, 21*17cm
 - **Cooking Liners:** Available with or without perforation for optimised steam and heat circulation.

- **Customisation:** Bespoke widths, lengths, and shapes are available upon request.
- **Materials**
 - **Color Profiles:** Natural Unbleached Brown (Kraft) and Classic Bleached White
 - **Silicone coated paper:** Professional-grade silicone coating (Available in single or double-sided) and **Grease proof paper**
 - **Grams:** Standard professional range from **32gsm to 45gsm**, fully customisable based on durability needs.
- **Functional Characteristics:**
 - **Grease & Moisture Resistance:** High-density paper substrate prevents oil and liquid soak-through, featuring **KIT 3 to KIT 10** oil-repellency ratings.
 - **Versatile Application:** Optimised for baking, steaming, roasting, and cold-storage separation.
- **Customisation & Branding:**
 - **Printing:** High-definition branding or safety instructions printed using food-grade, heat-resistant inks.
 - **Packaging:** Fully customisable boxes, sleeves, or outer cartons for wholesale or retail distribution.
