evolution series

For more than 20 years, Pivotech has produced a range of shower enclosures that have set the standard for craftsmanship and value for money. Bathroom design is a fashion business and our design team continue to expand our range of products, meeting the ever-changing needs of our customers and ensuring that Pivotech products are both fashionable and functional. Using the highest quality materials, our systems continue to be an investment in quality and style. Evolution shower enclosures are designed with the versatility to adapt to numerous applications and configurations, combined with the ease of installation and quality of components that our customers rely on. Elegance without compromise – designed simplicity.

evolution - 90°

The Evolution series features a semi-frameless door for a stylish, spacious feel. The new extrusion profile gives the classic design a contemporary look and makes the enclosure even easier to clean.

evolution - 45°

45° enclosure allows more flexible use of available space. This configuration allows the placement of vanity and toilet on either side of the screen without compromising the door opening.

evolution - 90° with panel

The addition of an infill panel allows the Evolution to be enlarged to suit even the largest bathroom, while keeping the door at a convenient size. The semi-frameless door and panel maintain the airy, spacious feel.

con gurations

features

magnetic closing catch

Positive-close magnetic catch ensures the door closes perfectly in line, every time.

pivot patch fitting

Elegant and unobtrusive door pivots are colour matched to co-ordinate with the frame. Stainless steel hinge pins are designed to give a lifetime of trouble-free use.

optional stylish handles

Optional handles offer an even more elegant look to enhance any enclosure. D handle or finger pull available.

uniquely shaped profile

The integrated Evolution profile directs water back into the shower area for ease of cleaning in a modern slimline frame.

GOOD
DESIGN

The "GOOD DESIGN AWARD" certifies that this product has been assessed by an independent panel of experts against over 60 criteria related to:

- Performance • Value
- Appearance • Durability
- Safety • Ease of use • Construction
- Technology • Environmental Effects

And has been judged to be internationally competitive

STANDARDS AUSTRALIA ✓

Proudly
Australian made
and exported

Integrity™ 9421 represents a Good Design Award winning product, featuring a low profile twin tiered sill design.

Integrated Fixed Panel

Fixed panels (where required) are glazed directly into the outer frame, minimizing the potential for residue accumulation.

Patented Pivot Mechanism

Utilising a stainless steel pivot pin, the Integrity™ 9421 Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper quiet and trouble free operation.

The 'lowering' effect of the design automatically reduces the gap between door and sill upon door closure, which further assists with elimination of external splashing and improved water resistance.

Advanced Sill Design

Contoured fully enclosed twin-tiered sill design directs water run-off into shower base. Gasket sealing system ensures maximum water resistance. Low profile design is foot-friendly, unobtrusive and reduces external splashing for a cleaner, drier and safer bathroom.

Award Winning Design

Award winning component and integrated design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Patented Pivot Blocks
- Dress Trims
- PVC Coated Magnetic Door Seal
- Anti-bacterial colour matched glazing vinyl

The Good Design award reflects the latest in modern design, aesthetics and technology.

Magnetic Door Seal

Colour co-ordinated, PVC coated magnetic door seal provides positive, cushioned door closure, facilitating rattle free operation and enhancing water resistance.

Low Maintenance

Smooth contoured profiles minimise soap and residue accumulation and the need for cleaning.

Exceptional Value

Integrity™ 9421 provides the opportunity to indulge your imagination and create the absolute premium bathroom design at a surprisingly affordable price.

Water Resistance

4mm spacing between door bottom and sill significantly improves water resistance and reduces splashing. Integrated spray flap feature is also available, further enhancing splash resistance.

Continuous Full Length Handle

A full-length continuous double handle door stile with magnetic closure is safe and user friendly, providing a splash resistant positive close, pivot door operation.

Momentum

semi-frameless slider

Engineered for life

Don't let Momentum's good looks fool you, it's strong and practical. Designed for the rigours of daily use, Momentum's features allow for effortless cleaning and its hardware is engineered for durability.

- the bottom guides can be disengaged to clean between the door and fixed elements
- rollers under the sill minimise friction, providing smooth operation of the door
- extremely resistant to water escaping as the door sits below the sill
- specially designed stop blocks prevent the door from opening or closing while in use
- soft moulded stops prevent the door from slamming open or shut

Designed for style

- ideal for large openings between walls
- the slimline, semi-frameless design conceals the mechanism and components
- available in Bright Silver, Matt Natural, Pearl White and Black to blend in with modern bathroom design
- wide choice of handle style options
- accessories are finished in Bright Chrome and Black which blend in with modern bathroom décor
- easiest sliding shower to install
- corner entry options available for smaller shower enclosures in confined areas
- return panel can be semi-frameless or framed to suit the application
- slimline frame for mounting over a bath or hob
- roller carriages allow for 10mm adjustment to take up over/undersized glass
- versatile two part corner stake allows for mitre cutting or square cutting

Access a cleaner shower

At Pivottech, we understand the biggest challenge of a bathroom is keeping it clean. Our shower screens incorporate features to help.

Momentum's unique spring loaded carriages under the sill allow the door to be tilted for greater access and easier cleaning.
