

## VISION

- To ignite a global musical movement where every learner — regardless of background — discovers their inner strength through music.
- To nurture not just performers, but creative thinkers and composers who shape their unique voice.
- To build access bridges, bringing high-quality music education to those who may otherwise be left behind.

## MISSION

- To empower students of all ages with joyful, world-class instruction across multiple instruments.
- To instill discipline, creativity, and confidence through structured yet inspiring learning.
- To foster lifelong growth — musically, emotionally, and personally — in every student.

## GOALS

- Provide expert training in guitar, piano, violin, ukulele, keyboard, and more.
- Create real performance opportunities that help students develop stage presence and self-expression.
- Expand reach to under-served learners and communities, making quality music education truly inclusive.

ONLINE CLASSES  
ARE AVAILABLE**

**ONE-ON-ONE AND  
GROUP CLASSES  
ARE AVAILABLE**

## STUDENT TESTIMONIALS

**DR. KOMPALLY MADHURI**

Parent of Student

Three stars music school sir has great talent and happy that my son is a part of this school learning piano. Thank you three stars.

**ARZOO BAPNA**

Student

Violin is said to be one of the toughest instruments. But Sugandar sir makes it absolutely fun and easy for people like me to learn (even online!). I went to learn the violin from him. And despite not knowing the abc's of western music, he was patient and kind enough to teach me everything from scratch. He taught me a lot of intricate things that I had never even heard of before. I thoroughly enjoyed every session and would recommend others to try it too. Don't think twice, just book your session.
