Trigger Warnings

While very few of my books have triggers, there are some that elude to things that might warrant a warning.

- *Code Name: Ranger* in the K19 Shadow Operations Team One series includes the mention of the main character being raped. There is no rape written in the book, it is only stated that she was.
- The main character in *Code Name: Typhon* in the K19 Allied Intelligence Team Two series is held captive and tortured. There are no detailed or graphic descriptions of either.
- In *Roaring Fork Rockstar* in the Roaring Fork Ranch series the main character's daughter has cancer. She goes into remission and goes on to live a full and happy life. However, there are some descriptions of the procedures and treatments involved.
