

# Blind Boy

**Disclaimer:** Blind Boy is a meme coin created purely for entertainment and community engagement. It has no intrinsic value, no underlying utility, and no expectation of profit. This project is driven by vibes, and internet culture – not financial fundamentals. Participation in this token is entirely at your own risk.

**TICKER: \$BLINDBOY**

**Blind Boy:** The only meme coin born from a single, undeniable truth: Nobody knows what the hell is going on in crypto. Traders pretend to be prophets. Analysts draw squiggly lines and call it science. Influencers act like they've seen the future. But beneath the noise, every trader, investor, and degen is just guessing. Blind boy embraces the chaos. We reject the illusion of control, the TA, the charts, the recycled advice. The market runs on vibes, not logic. So, we say stop pretending, close your eyes, trust your gut, and join the blind.

**WE ARE ALL BLIND BOYS; THIS IS OUR COIN!!**

### **Roadmap:**

1. Launch strategy is key for creating a strong foundation. We are committed to quickly burning the LP, updating the dexscreener, and updating/fast tracking the dextools. On top of these updates, boost will be activated to help with initial volume in the first 24hrs. From there, teams across the globe will be highly engaging with the communities on all social platforms.
2. Our first goal for followers on X and Telegram will be 500 on each platform. We have been strongly focused on consistent engagement, giving back to the community, and participation from followers/members helping spread the word.
3. We plan on taking all the steps to confirm approval to Coingecko and CoinmarketCap. Along with working our way up the rank in exchanges will help gain exposure to the project. This will also encourage holders to become long-term believers in the project.
4. With the team having experience in graphic design, merchandise will be considered to promote the project. With having connections to printing establishments, we will be able to deploy a campaign that offers easy ordering and shipping for anyone wanting to promote the project.
