

Below are short bios for the candidates for SCEMDWCA Board of Directors.

**Don Littlefield**

I have been a licensed master plumber for over 40 years. During this period, I have owned my own plumbing businesses in both Texas and New Mexico. Since purchasing my property in Sky Country Estates in 2019, I have been involved with and assisted in the repair and maintenance of the water system in Sky Country Estates. Currently my wife Virginia and I are in the process of building our new home in Sky Country Estates on Polaris Point and will be permanent residents once the construction is complete this fall. I am running for the Board because I believe my plumbing experience will help the Board with both the operation and improvement of the water system in Sky Country Estates. Should the membership elect me, I look forward to serving on the Board to help improve the water system for the benefit of everyone in Sky Country Estates. Thank you.

**Ed Koch**

I have been volunteering to oversee the daily operation of the water system in Sky Country Estates since 2015 and have been the President of Sky Country Estates Mutual Domestic Water Consumers Association (SCEMDWCA) since its incorporation in 2022. My wife Stefanie and I have been full time residents of Sky Country Estates since July 2014. My decision to run again for the Board of Directors is to continue the work the Board is doing to protect and improve the water system in Sky Country Estates for the benefit of all property owners. Thank you.
