CCTV SURVEILLANCE SYSTEM

At INFRATECH, we draw upon the collective expertise of other complementary areas of our business to provide a one-stop shop for our customer's security requirements. Our solutions are designed and delivered through the most efficient and cost-effective combination of CCTV, Remote Surveillance with ADMCC Approval as per client requirements.

ACCESS CONTROL SYSTEM

INFRATECH provide total solutions for security applications, access control solutions, smart card solutions, time & attendance solutions. Access control enables you to control who has access to your Premises. Locks and keys also allow you to secure your building, but when keys are lost or stolen, the inconvenience and expense of changing locks and re-issuing keys can be considerable. Keys may also be copied, creating even more security risks. Our development teams are focused on designing systems that are fit for their purpose, containing the important features that are necessary for well-run organizations. Our commitment has resulted in our products winning a reputation for reliability and ease of use.

GATE BARRIERS SYSTEM

INFRATECH provide simplest, most reliable solutions for handling passages or spaces in public areas, company access and wherever the flow of vehicles and access and transit permissions needs to be controlled.

- ## SMART MEETING ROOM SOLUTIONS

  Smart meeting room solution helps companies to effortlessly set up a meeting environment on a local or remote basis with maximized efficiency, interaction, and team collaboration. It seamlessly integrates interactive display, collaboration software, wireless sharing, sound-enhancing devices, and user-friendly presentation tools, letting you start your meeting in just a second.

- ## SMA TV SYSTEM

  SMATV stands for Satellite Master Antenna Television, and refers to a system that uses multiple satellite and broadcast signals to create a single integrated cable signal for distribution to a cabling network.

  INFRATECH install various satellite dish and TV antennae to receive programming from satellite providers and local broadcast networks. These antennae feed into several racks of electronic equipment which tunes in the channels you choose for your cable line up, and combines them into a single cable signal.
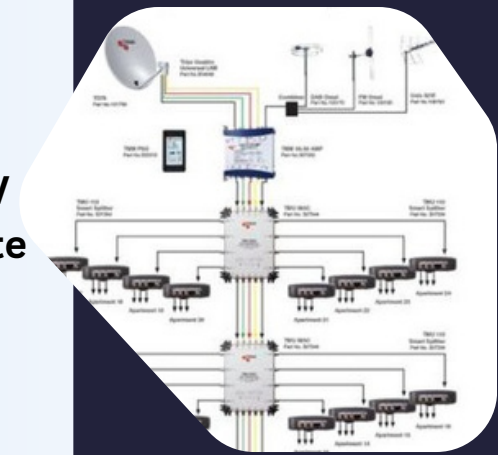

- ## STRUCTURED CABLING SYSTEM

  One of the most significant benefits of a structured cabling system is the high bandwidth, which makes it a reliable infrastructure for supporting business growth. In today's competitive business world, having adaptable IT that is scalable and can respond quickly to industry changes is vital. In order to retain existing customers and continuously acquire new ones, you need a data centre that supports quick and easy development of new services. With structured cabling, your network infrastructure won't become outdated and will support all emerging applications as your business grows.

ANNUAL MAINTENANCE CONTRACT

INFRATECH NETWORKS L.L.C is a company that offers IT support AMC (Annual Maintenance Contract) , specializing in IT Infrastructure solutions for various businesses in UAE. We're a team of passionate, experienced people who love what we do.

Our goal is to develop long-term relationships with the companies we work with, and that starts by listening closely to your needs and working closely together to develop an quality IT support services that works for you. Our business model is built on solid relationships with our clients; we believe every client deserves an attentive and personalized approach to their needs.

Whether through our IT maintenance contract or by providing you with the high standard equipment and solution, we're dedicated to ensuring that your systems run smoothly and efficiently. We do this because we know how significant your IT is to your business. There are few things more frustrating than having an issue with your technology—and even fewer things more important to get right! So whether it's a problem with your network or computers, or if you need help with security or disaster recovery plans, INFRATECH NETWORKS has covered you. We're based in Abu Dhabi, but our team works remotely throughout the UAE and beyond. Our goal is simple; to provide reliable, responsive service to businesses across the region while always looking for new ways to best improve our services to meet our clients' needs. We help companies to manage their assets, identify and reduce risk, reduce costs, and improve service.
