ABOUT NESHAMA GROUP

Founded in 2023, NESHAMA GROUP was born from the vision of its CEO — a specialist in geopolitics, anti-terrorism, and engineering — with the goal of creating a company capable of delivering strategic, reliable and intelligent defense supply solutions across the globe.

We are not just suppliers. We are strategic partners who understand the battlefield beyond products — we understand the mission. Our strength lies in deep knowledge of defense systems, geopolitical dynamics, and operational environments. With team members who come from military backgrounds and years of field experience, we bridge the gap between what is needed and what must be delivered.

NESHAMA GROUP operates in Europe, the Middle East, Asia, and Africa. Our team is deployed across continents to ensure we remain connected to real-time developments and on-the-ground realities.

We currently work with several government agencies and private defense firms, providing tailored support for long-term procurement projects as well as urgent, mission-critical spot deliveries.

Our business is built on trust, discretion, and operational excellence. We value long-term relationships and are committed to supporting our clients with flexibility, speed, and the highest standards of professionalism.

“In an uncertain world, we are the certainty behind your mission.”

NESHAMA GROUP

Core Areas of Expertise

2.1. Fuel & Energy Supply

We supply refined fuels and aviation-grade energy products such as **Jet A1, diesel, and gasoline**, fully compliant with military and commercial standards.

Thanks to direct partnerships with refineries and certified logistics channels, we ensure **secure, traceable, and rapid delivery**, whether for long-term missions or urgent tactical needs.

2.2. Tactical & Defense Technologies

We offer advanced solutions including:

- **Kamikaze, FPV, and loitering drones**
- **Long-range surveillance UAVs with AI recognition**
- **Electronic warfare systems (RCIED jamming, radar-based drone interceptors)**
- **Secure communications, battlefield software, and cyber defense tools**
- All systems are **field-tested and mission-ready**, backed by experts with real defense and military backgrounds.

2.3. Armored Vehicles

We provide a complete range of armored vehicles for both combat and non-combat zones, including:

- **MRAPs and tactical 4x4s**
- **Armored SUVs for VIP and urban security missions**
- All platforms are customizable to meet **specific protection levels, terrain, and operational roles**.

2.4. Ammunition & Weapons Systems

We supply certified **ammunition and tactical weapons** for government-authorized entities only.

All products comply with international regulations and are sourced directly from vetted manufacturers.

For confidentiality reasons, these solutions are shared only upon request under NDA.

Core Areas of Expertise

2.5. Aircraft Spare Parts (Commercial & Military)

We deliver OEM and certified spare parts for both **commercial and military platforms**, including **Airbus, Boeing, Embraer, and others**.

Our global logistics network supports **AOG situations, planned maintenance, and modernization projects** with *agility and precision*.

Disclaimer: This presentation does not display our full product range. Firepower-related items and certain defense capabilities are shared only upon verified request and under NDA. We prioritize information security and responsible access.

Logistics & Global Reach

At **NESHAMA GROUP**, we operate with a decentralized team **distributed across Europe, the Middle East, Asia, and Africa**, allowing us to stay connected to real-time developments on the ground.

Our global logistics network ensures **compliance with international export regulations**, and enables us to manage **both strategic procurement programs and urgent, high-priority shipments**.

We work with certified freight partners, military-grade shipping protocols, and export control specialists to guarantee **secure, traceable, and on-time delivery**, even in conflict zones or restricted regions.

Strategic Partnerships & Clients

We are proud to collaborate with:

- **Government agencies and Defense Ministries**
- **Aerospace and aviation companies**
- **Private defense contractors and integrators**
- **OEM manufacturers and specialized suppliers**

Thanks to these strategic relationships, we ensure direct access to cutting-edge technology, favorable terms, and priority allocations during critical missions.

Key Projects & Case Studies

While much of our work remains classified, our experience includes:

- Supplying urgent **military-grade fuel and spare parts** to conflict zones under pressure
- Delivering **surveillance and FPV drone systems** to support tactical border operations
- Supporting a **fleet upgrade for a national air force** through phased spare part delivery and technical documentation
- Implementing **jamming systems** for convoy protection in high-risk environments

Each project reflects our ability to **adapt to complex missions** with speed, discretion, and precision.

Why Choose NESHAMA GROUP

Choosing the right partner in the defense and aviation supply chain is not just about products — it's about trust, operational awareness, and strategic alignment. At NESHAMA GROUP, we deliver more than just equipment. We deliver confidence, discretion, and mission-critical support.

Direct Manufacturer Access

We eliminate intermediaries, working directly with certified producers to ensure better pricing, faster delivery, and full product traceability.

Military Insight & Field Experience

Our team includes professionals with military and tactical backgrounds, bringing real-world understanding to every project.

Global Presence

With personnel across Europe, the Middle East, Asia, and Africa, we maintain operational awareness and ensure fast, localized support.

Trusted Confidentiality

Sensitive product lines are disclosed only under NDA. We protect our information—and our clients'—with the highest standards.

Agility & Reliability

From urgent spot deliveries to long-term frameworks, we respond quickly, efficiently, and with full commitment to your success.

“We don’t just deliver. We protect and secure your mission.”
