Driving true **sustainability** from blueprint to power culture,
harmonizing personal comfort with global **well-being**."

ABOUT FGC

WHO WE ARE

We are a specialized green energy consulting and product integration firm anchored by a powerhouse team of founding industry veterans and backed by a deep network of specialized experts.

By merging advanced technology, deep industrial modernization strategy, and 30+ years of cumulative practical solar and infrastructure deployment, we bridge the gap between traditional operations and the sustainable future.

Our unique leadership synergy allows us to look at your energy needs holistically. We don't just supply premier green energy products, we design the technological governance, optimize legacy factory ecosystems, and engineer precise infrastructure across industrial, commercial, and residential sectors.

WHY CHOOSE FGC?

30+ Years
Combined
Experience

Industrial,
Commercial &
Residential
Expertise

End-to-End
Green Energy
Solutions

Vendor Evaluation
& Technical
Governance

Sustainable
Infrastructure
Development

OUR SERVICES

Comprehensive solutions for a cleaner, smarter and more efficient tomorrow.

GREEN EXPORT SERVICES

Global sourcing and export solutions for green energy products.

MANUFACTURING FEASIBILITY STUDIES

Feasibility studies for green networks requirements and equipment.

VENDOR EVALUATION AND SELECTION

Guiding technology, MEP, and power projects through full RFP/RFQ lifecycles with rigorous technical and commercial evaluation.

GREEN TRANSPORTATION PLATFORM SERVICES

Guiding phased green transportation transitions—optimizing CAPEX, operational costs, and environmental impact.

PROJECT MANAGEMENT

End-to-end project planning, execution and performance oversight.

ENERGY MANAGEMENT SOLUTIONS

Consulting customers on energy management solutions to guarantee maximum power efficiency and zero waste.

SOLAR ENERGY SOLUTIONS

Complete solar solutions for industrial, commercial and agricultural applications.

TRAINING AND CAPACITY BUILDING

Delivering specialized power, manufacturing, and business growth training—from technical engineering to startup sales and customer management.

SUSTAINABILITY & ESG ADVISORY

ESG strategies, compliance and environmental impact management.

LET'S BUILD A SUSTAINABLE FUTURE TOGETHER

Driving true sustainability from
blueprint to power culture,
harmonizing personal comfort
with global well-being.
