# Black Pepper

## Description:

Whole black pepper is one of Indonesia's most prized spices, known for its strong aroma and sharp, pungent flavor. Grown in nutrient-rich volcanic soil, our black peppercorns are harvested at peak ripeness and sun-dried naturally to preserve their essential oils and quality. Ideal for culinary use, food processing, and spice blending

## Specifications:

- Origin: Indonesia
- Color: Dark brown to black
- Size: 3–4.5 mm
- Moisture: < 12%
- Purity: ≥ 99%
- Foreign Matter: ≤ 1%
- Packaging: 25 kg PP bags or as requested
- Shelf Life: 24 months
- Uses: Culinary, spice blends, food industry

# White Pepper

## Description:

Sourced from mature black pepper berries, our whole white pepper is carefully soaked, peeled, and sun-dried to achieve a milder but intense peppery flavor. Perfect for dishes that require a lighter color and subtle heat, such as sauces, soups, and fine dining recipes.

## Specifications:

- Origin: Indonesia
- Color: White to beige
- Size: 3–4 mm
- Moisture: < 13%
- Purity: ≥ 99%
- Foreign Matter: ≤ 1%
- Packaging: 25 kg PP bags or custom
- Shelf Life: 24 months
- Uses: Culinary, sauces, spice blends

## Finger Turmeric

### Description:

Our fresh finger turmeric are organically grown and harvested at optimal maturity to ensure high curcumin content and vibrant orange color. Known for its earthy aroma and medicinal benefits, turmeric is widely used in traditional cooking, herbal supplements, and natural dyes.

### Specifications:

- Origin: Indonesia
- Color: Bright orange flesh, brownish
- Moisture Content: 80–85%
- Curcumin Content: 4–6%
- Size: 5–12 cm
- Packaging: Mesh bags or plastic crates (10–25 kg)
- Shelf Life: 15–30 days (fresh), longer if chilled
- Uses: Culinary, pharmaceutical, wellness products

## Elephant Ginger

### Description:

Our fresh elephant ginger is aromatic, fibrous, and rich in gingerol — ideal for flavoring food, drinks, and traditional remedies. Grown in the fertile highlands of Indonesia, it is carefully cleaned and packed to retain freshness and quality.

### Specifications:

- Origin: Indonesia
- Color: Light brown skin, yellow interior
- Moisture Content: 85–90%
- Size: 100–250 g per rhizome
- Packaging: Mesh bags or crates (10–30 kg)
- Shelf Life: 30–45 days (chilled)
- Uses: Food, beverages, traditional medicine

# Cinnamon Stick

## Description:

Our cinnamon sticks are derived from the inner bark of Cinnamomum trees, sun-dried, and hand-rolled into tight quills. They offer a sweet, warm flavor and are widely used in desserts, beverages, and spice mixes. Export-grade with high oil content and minimal breakage.
