

# Quick Start Guide - Grandstream GXP2135

## Phone View

The main screen will display the extension name, number and the current time.

## Call View

If your phone has one or more calls active, they will be displayed on the screen.

To move between active calls, press the line key that is associated with the call. If there are multiple calls, pressing a line key will automatically place the previous call on hold.

## Incoming Call Display

## Placing Calls

To place a call, either:

1. Pick up the handset, enter the phone number, and press the **Send**  button or **Dial** soft key
2. Press the speaker  button, enter the phone number, and press the **Send**  button or **Dial** soft key
3. Activate the headset by pressing the **Headset**  toggle button to on, press the call control button on the headset, enter the phone number, and press the **Send**  button or **Dial** soft key
4. Press an available line key, enter the phone number, and press the **Send**  button or **Dial** soft key

## Redial

1. Take the phone off-hook, press the **Send**  button, scroll to the number you wish to dial, and press the **Dial** soft key
2. To redial the last number called, press the **.. (more)** soft key followed by the **Redial** soft key

## Answering Calls

To answer a call, either pick up the handset receiver, press the **Speakerphone**  button, press the **Headset**  button, or press the **Answer** soft key.

## Ending Calls

To end a call, hang up the handset, press the **Speaker**  button, press the call control button on the headset, or press the **End Call** soft key.

To end a call that was placed on hold, press the line key for the caller that is on hold, followed by the **End Call** soft key.
