SKILLS

As a Google UX Design Professional Certificate graduate, I possess a comprehensive skill set in UX design, proficient in utilizing industry-standard tools such as Figma and Adobe XD. My expertise lies in design thinking methodologies, enabling me to conduct user research, create wireframes and prototypes, and implement iterative design processes. Complemented by strong soft skills, including effective communication and critical thinking, I am well-equipped to contribute to collaborative and user-centric design projects.

EDUCATION

Google UX Design Professional Certificate

August 2023 - November 2023

Completed seven hands-on courses developed by Google, equipped with the skills to lead the entire design process.
