

# SELLING WHAT ISN'T THEIRS

Mercenary impulses, coupled with individual opinions of God, have conspired to create no less than 1,338 separate copyrighted versions of the Bible. All these copyright holders are selling something that isn't theirs.

The whole central narrative of the family drama at the heart of the Bible is about the same subject—selling and benefiting from what isn't theirs.

Bear with us. This does have meaning for our current economic and political situation.

Abraham and Sarah don't believe God's promise, so they get impatient and try a Do-It-Yourself answer. Abraham's first born son is *Ishmael*, not *Isaac*. The birthright should have gone to Ishmael. Isaac benefits from something that isn't lawfully his. He inherits and enjoys the birthright of this rejected elder half-brother.

Next, Isaac is defrauded of his birthright in turn. His youngest son, Jacob the Liar, cheats his older brother, Esau, out of the birthright reserved for him. The birthright should have gone to Esau, but instead, Jacob inherits and benefits from something that isn't lawfully his. This time it comes about via impersonating Esau.

Late in the day, Jesus comes, of the lineage of David, the first born son, and again, he is cheated out of his inheritance. He is black-balled as a friend of Sinners and Necromancer who brings people back from the dead. The Romans and Sanhedrin split the spoils and continue to benefit from what isn't theirs.

This is "the" story of the Bible, all the way through: lawful inheritors are being kicked out because of prejudice, because of impersonation and lies, because of lies and misrepresentations.

The Dead Baby Scam in which a dead organ, the placenta, is used to steal the live baby's identity and inheritance is just a variation on this theme. The placenta's purported private "estate" is conveniently used as the replacement inheritor, and the self-appointed "Trustees" benefit from controlling the estate and disposing of its assets to their cronies.

This is a blatant Substitution Fraud Scheme.

This happens while the actual rightful lawful inheritor, the living baby, is left adrift with nothing and nowhere to call his or her own.

The Corporate Franchise Scam is just a variation on the same theme of defrauding the rightful heir in another jurisdiction of the law. The franchise is substituted for the living person—with an impersonation twist.

The first franchise, a British Territorial commercial corporation franchise operating under the baby's Given Name is the "Person" substituted for the actual heir. This creates a *public* estate for the fake Trustees to manage and benefit from—instead of the rightful heir, who has already been defrauded out of his *private* estate, and is now impersonated as a *foreign Public Person*, subject to foreign statutory law, and presumed dead, and declared legally dead—to create a public estate for the Perps to manage "for" him.

**This is both a Substitution Fraud and an Impersonation Fraud.**

**The Second Franchise Scam is another variation, based on the initial Corporate Franchise Scam. They create ANOTHER corporate franchise, this time, a Municipal Corporation, still using the baby's Given Name. This is a public municipal trust, set up as a Roman Inferior Trust Cestui Que Vie, plus "derivatives." Again, the actual heir is impersonated as a corporation franchise. Again, the rightful heir is defrauded and False Trustees benefit.**

**Another *Substitution* Fraud, plus an *Impersonation* Fraud.**

**All with the same result: the rightful Heir is disinherited and all that would naturally be his (or hers) is taken and managed for the benefit of others.**

**This is not just a primary theme of the Bible, this is the same story we've been living in, with all of us playing the part of Ishmael, Esau, and Jesus—the defrauded, impersonated victims of self-interested Liars.**

**They are still doing the same thing today, and, case in point, they are proposing to sell millions of acres of purported "public land" to pay their private corporate debts, which is not their public land at all. It's our public land. It belongs to the States of the Union and the people of this country.**

**They continue to pretend and "presume" that we didn't claim and enroll the Western States, and those States created during the Civil War under the Northwest Ordinance, but we did. As of October 1st, 2025, all the states that entered "Territorial Statehood" were redeemed and enrolled as States of the Union by roll call vote of the State Assemblies.**

**Here's another example of their "presumption" which has to be addressed in the strongest terms possible:**

**<https://rumble.com/v6vcwql-bill-gates-quietly-seizes-total-control-of-u.s.-water-supply.html>**

**The surface water and aquifers of this country belong to the States and people and are under our control. Period. Yet, there the corporate charlatans are, again, trying to sell what isn't theirs, and control what doesn't belong to them.**

**This is not the first time that Mr. Gates has been caught trying to do unlawful, illegal, and immoral things with his money; he needs to be arrested and re-educated about reality and his money needs to be confiscated as an Enemy of the States.**

**There's no "federal land" nor any "federal water" for these Con Men to sell. It doesn't belong to them or their corporations—and it never did.**

**The soil belongs to the living people, and the land belongs to their Lawful Persons, and all other representations are false, just as a placenta has no "estate" and corporate franchises named after living people without full disclosure are fraudulent, null and void.**

**The usurping foreign corporations have operated under conditions of secrecy, fraud, and deceit ever since the Mercenary Conflict mischaracterized as "the American Civil War." We, the living people, as Lawful Persons, acting together, have claimed back our estates in full and have populated our lawful government.**

Although our government has been misunderstood as a "Republic"—which it never was—and also misrepresented as a "Democracy," which it equally never was, we remain instead a "republican form of government"—a clan and community based government which has sometimes been described as "government around the kitchen table."

This is the same kind of government that guided the Roman Republic, but which was replaced by the Military dictatorship of Julius Caesar.

We've had these crazy Romans and their British thugs in here, trying to recreate the Roman Empire using American people and American resources to do it. At the same time, we've had the crazy Zionists trying to rip us off, too, and attempting a Do-It-Yourself Armageddon in the Middle East—at our literal expense.

We are not at all interested in being the New Roman Empire operating as a military dictatorship. We want the world to recall the Roman Republic instead, and the honest, practical republican government underlying it and giving rise to it.

The same clan-based form of government is what we established in this country, with the clan-and-community based republican government supporting a lawful Republic.

The only "New Republic" that we, the actual asset owners, want to see is an American Republic. Not another Roman Republic transplanted here. Not another British Territorial Flim-Flam rip off. And certainly not a new version of the corrupt, gluttonous, violent, Roman Empire.

We aren't interested in playing out any Do-It-Yourself "Final Days" scenarios in the Middle East, either. The CIA and MI6 can just take Project Blue Beam and all the other theatrics and find a shelf. We aren't doing any Hollywood replays of the Bible Narrative.

We are literally, the Children of God, the Creator. We are sovereign beings with the ability to envision and think and create. The ability to imagine new worlds and new technologies is our birthright and we claim it, here and now. Learning how to use our creative powers for good purposes instead of evil ones, has been a long process, but we have learned.

As the new octave of creation comes, we are ready to be part of it.
