Chairman, Jai Bharath Group Institutions
Perumbavoor, Ernakulam

INVITATION

It gives me great pleasure to announce that HRH Princess Reema Bandar Al-Saud's amazing "CAT WALK" program will now include participation from the All India Association of Sports for All (AIASFA) and MAGICS NGO. Starting in 2021, the nonprofit organization Catmosphere will leverage the conservation struggles faced by big cats and their tales to inspire people to take action. It soon grew to include 9 million participants worldwide and 136 nations on six continents. It is set to be announced by the UN that February 10, 2024, will be the inaugural International Day of the Arabian Leopard!

Raising awareness of the Critically Endangered Arabian Leopard is one of the major priorities for Catmosphere, a nonprofit organization with close ties to Saudi Arabia and the Middle East. This will be an appeal for help to improve the situation for other Big Cats worldwide who are threatened in a similar way, as well as for the stunning but critically endangered subspecies.

Every year, the world participates in Catwalk, an outdoor walk that highlights the challenges faced by the seven Big Cats in their battle for conservation and raises awareness of interrelated welfare. You can do it whichever best suits you, and people of all ages, genders, nationalities, and ability levels can do it.

Regardless of whether they are individuals, social groups, or official organizations from throughout the world, we gladly invite everyone to slip on their sneakers and join us for a walk at Catwalk 2024! The parent group, TAFISA, announced that it would be honoured to commemorate this remarkable accomplishment and its part in this wonderful project. Thus, we respectfully ask that everyone associated with the sports world, participate in the Catwalk at Jai Bharath College in Perumbavoor, Kerala, South India, on February 10, 2024, starting at 9:00 AM.

With warm regards,

Dr. Praveen G Pai, Chairman

MAGICS NGO and Organising Secretary, AKSAM-2024

Program
