12 Red Flags

- ☐ Guaranteed returns or “no risk”.
- ☐ Fake airdrops asking to connect and sign unknown transactions.
- ☐ Unsolicited “urgent support” DMs or emails.
- ☐ Celebrity imposters or look alike accounts.
- ☐ Copycat sites/domains with minor misspellings.
- ☐ Too good to be true presales or mystery tokens.
- ☐ “Verification” pages asking for seed phrase/private key.
- ☐ QR code tricks or wallet draining approvals.
- ☐ Requests for remote access (AnyDesk/TeamViewer).
- ☐ “Send 1, get 2 back” giveaways. Fake “recovery tools” that promise to unlock wallets.
- ☐ Pressure & secrecy: “act now,” “don’t tell anyone.”

Phishing 101 — 4-Step Check

- ☐ Sender: exact domain/handle (letterforletter)?
- ☐ URL: hover/long press preview; any odd spellings?
- ☐ Format: poor grammar, odd layout, unusual urgency?
- ☐ Who benefits if I rush? If not me, close it.

Decision Rules (Use These)

- ☐ Wait 24 hours before large transfers or signing unknown transactions.
- ☐ Get a second opinion from a trusted friend or official help center.
- ☐ Use bookmarks. Never click “support” links in DMs.
