# FDI Express-OOTB Implementation

FDi Express  
1 Module

**\$30,000**

**6 weeks**

- Activate and Provision Oracle FDI instance(s)
- Create and associate users and groups (IDCS)
- Configure security rules
- Validate Cloud ERP/SCM/HCM/CX parameters for FDI KPI's
- Configure Oracle FDI and data pipeline
- Load FDI; validate KPI's, metrics, reports with Fusion Cloud applications data
- Execute production go-live of FDI
- Training and Knowledge Transition

FDi Express  
2 Modules

**\$35,000**

**8 weeks**

- Activate and Provision Oracle FDI instance(s)
- Create and associate users and groups (IDCS)
- Configure security rules
- Validate Cloud ERP/SCM/HCM/CX parameters for FDI KPI's
- Configure Oracle FDI and data pipeline
- Load FDI; validate KPI's, metrics, reports with Fusion Cloud applications data
- Execute production go-live of FDI
- Training and Knowledge Transition

FDi Express  
3-4 Modules

**\$50,000**

**10-12 weeks**

- Activate and Provision Oracle FDI instance(s)
- Create and associate users and groups (IDCS)
- Configure security rules
- Validate Cloud ERP/SCM/HCM/CX parameters for FDI KPI's
- Configure Oracle FDI and data pipeline
- Load FDI; validate KPI's, metrics, reports with Fusion Cloud applications data
- Execute production go-live of FDI
- Training and Knowledge Transition

# FDI FlexStart

FDI Express+Additional Scope

Custom  
Reports

**\$10,000+**

2 Weeks+

- Develop 10 Reports(S-2, M-5, C-2) using OOTB data examples include but are not limited to Balance Sheet, P&L, etc
- Aligns FDI to support the most complex reports of the organization; extends FDI and increases user adoption
- Additional Reports will have extra costing

Additional  
DFF

**\$35,000+**

2 Weeks +

- Descriptive Flexfields (DFF's) defined in Cloud Fusion Apps often have reporting value; enables more targeted and customized reporting for the organization
- Additional DFF's will have extra costing

Additional  
Sources **\$50,000+**

8 Weeks+

- Ongoing integration of an external data source of your choosing on a stand alone basis
- Integrate Source Data with Existing Data Model
- Additional Sources will have extra costing

Historical  
EBS Data **\$80,000+**

12 Weeks+

- Great for trend reporting across Fusion data in FDI and historical EBS data
- Load historical data from EBS - combine with Fusion Data in FDI

# The FDI Edge We Bring

## Oracle FDI-Certified Experts

Our associates are seasoned professionals specialized in Oracle Fusion Data Intelligence with deep technical and functional expertise.

## Cross-Domain Implementation Experience

Proven track record delivering FDI solutions across Finance, Supply Chain, HCM, and CX in industries like healthcare, manufacturing, retail, and public sector.

## Accelerator-Driven Delivery

Proprietary tools and templates speed up implementation and reduce risk—available via Oracle Cloud Marketplace.

## End-to-End Ownership

From advisory and implementation to ongoing managed services, we offer a single partner for your complete FDI lifecycle.

## Customization Without Complexity

Flexible data models, personalized KPIs, and integration with custom or third-party systems—without compromising upgrade paths.

## AI-Augmented Insight Delivery

Embedded natural language processing, anomaly detection, and predictive analytics for smarter, faster decision-making.

## Proactive Support Culture

SLA-bound managed services with monitoring, optimization, and continuous improvement—backed by monthly health reports and roadmap alignment.

# The FDI Edge We Bring

01

Oracle FDI-Certified Experts

- Our associates are seasoned professionals specialized in Oracle Fusion Data Intelligence with deep technical and functional expertise.

02

Cross-Domain Implementation Experience

- Proven track record delivering FDI solutions across Finance, Supply Chain, HCM, and CX in industries like healthcare, manufacturing, retail, and public sector.

03

Accelerator-Driven Delivery

- Proprietary tools and templates speed up implementation and reduce risk—available via Oracle Cloud Marketplace.

04

End-to-End Ownership

- From advisory and implementation to ongoing managed services, we offer a single partner for your complete FDI lifecycle.

05

AI Advisory Built In

- We don't just implement—our team proactively identifies high-value AI use cases within your Oracle Fusion ecosystem (e.g., predictive attrition, cost anomaly detection, forecasting automation) and helps operationalize them.

06

Proactive Support Culture

- SLA-bound managed services with monitoring, optimization, and continuous improvement—backed by monthly health reports and roadmap alignment.
