

## AESUB TARGET NET

### FAST FACTS

- ✓ Retroreflective reference points for immediate application on medium-sized or large components
- ✓ Magnet on each point base
- ✓ 300 dots are mounted on a black mesh - 1.50 x 2.00 m (larger dimensions on request)
- ✓ Perfect for application on all vanishing AESUB scanning sprays & liquids
- ✓ Removing the points is not necessary
- ✓ Reusable

Sticking and removing dots has never been so easy thanks to the AESUB target net with its magnetic targets! Unfold and position the AESUB target net in less than 20 seconds. Scan in the usual manner and use standard post-processing routines to easily remove single elements and points of the AESUB target net in the post processing. Remove the net in just seconds!

## AESUBdots FRAME

### FAST FACTS

- ✓ Two different diameters: 200 / 300 mm, Sizes up to 600 mm are available
- ✓ 100 mm extension beams to create larger frames according to workpiece size
- ✓ Octagonal shape to optimize the reference marker visibility

The new target frame from AESUB sets objects into position for optical measurement in just a few steps. A modular set allows to assemble target frames with a diameter of 200 mm or 300 mm. The frame is additively manufactured with plug and screw connections directly integrated to it. It can be,

therefore, assembled without additional tools. As the frame is printed in black, no chemical finishing by colouring or anodizing is needed. All elements are compactly packed into one case, making the entire set ideal for mobile use.

### AVAILABLE SETS

#### AESUB target frame starter set 200:

1x diameter frames (200 mm) + accessories

#### AESUB target frame starter set 300:

1x diameter frames (300 mm) + accessories

#### AESUB frame complete set:

1x diameter frames (200 mm) + accessories

1x diameter frames (300 mm) + accessories
