Profile

Frontend Developer with 5 years of experience specializing in React. Also experienced in hybrid mobile application development using React Native and designing intuitive user interfaces with Figma.

Core Skills

HTML, CSS, Material UI, Tailwind CSS, Bootstrap 5
JavaScript, TypeScript, React, Next.js, Jest, React Native, Tanstack
REST, GraphQL, NodeJS, Express

Experience

JAN 2023 to OCT 2024

Software Engineer
MGH Group, Dhaka, Bangladesh, www.mghgroup.com
- Led the front-end development of an eye hospital management system (patient appointments, prescriptions, diagnostics) using Next.js, TypeScript, and React Query, ensuring on-time delivery through efficient Jira-based project management.
- Facilitated seamless collaboration with UI/UX and backend teams, ensuring alignment and timely issue resolution for multiple projects.
- Mentored junior developers, improving technical skills and career growth, resulting in a 40% boost in team satisfaction and retention.

JAN 2022 to DEC 2022

Assistant Software Engineer
MGH Group, Dhaka, Bangladesh, www.mghgroup.com
- Built a courier platform serving 100+ business clients, using React, enabling efficient delivery creation, management, and tracking.
- Implemented a test suite for React components using Jest, improving code quality and reliability by 30%.

JAN 2021 to DEC 2021

Associate Software Engineer
MGH Group, Dhaka, Bangladesh, www.mghgroup.com
- Directed React Native front-end development for a music streaming app, utilizing Web Sockets for live updates.
- Built a robust content management system for the music streaming app using React, streamlining content updates and management.

OCT 2019 to DEC 2020

Trainee Software Engineer
MGH Group, Dhaka, Bangladesh, www.mghgroup.com
- Orchestrated the development of a Radio Jockey audition portal using React, efficiently managing over 2,000 applications.
- Developed the radio's landing page with vanilla JavaScript, optimizing performance and implementing SEO best practices for increased visibility.

Education

JAN 2015 to APR 2019

BSC in Computer Science and Engineering
North South University, Dhaka, Bangladesh
Scored 1.9 in German grading system

Projects

RecipeDrip

Developed a recipe finder web application using Next.js 15, TypeScript, and Tailwind CSS, featuring backend integration with a free API and Firebase authentication.
