ABOUT US

Tough Gear Trading Pty Ltd (TGT) is a proudly Australian, family-run business based in Brisbane, specialising in 4x4, military and mining accessories. With over two decades of industry experience, our founder, Gary Turner, established the business in 2015, building on deep expertise and trusted partnerships with top-tier suppliers worldwide.

Today, TGT focuses on serving international markets, delivering high-quality, reliable products to clients across nearly 30 countries.

We are proudly endorsed by the Australian Defence Force (ADF), Trade and Investment Queensland (TIQ), and Austrade, and are officially approved by Saudi Arabian Military Industries (SAMI). These endorsements reinforce our reputation as a trusted and capable supplier to defence and commercial sectors alike.

Our extensive product range includes recovery gear, suspension systems, camping and leisure equipment, and vehicle security solutions—servicing mining, fleet, defence, and commercial markets.

Driven by a passion for the industry, we are committed to innovation, quality, and exceeding our clients' expectations.

Under the leadership of the Turner family, TGT is powered by a dynamic and collaborative team whose dedication is evident in every aspect of our operations.

WHAT TGT OFFER

DECADES OF EXPERIENCE

TGT has been a trusted name in the auto parts industry for nearly three decades. With a proven track record of delivering high-quality solutions, we've established ourselves as a leading provider of 4x4 accessories, security systems, and specialized components for the military, mining, and fleet sectors. Our extensive experience allows us to anticipate industry trends, adapt to evolving needs, and consistently exceed expectations.

PACKAGED SOLUTIONS

No matter the scale of your project, TGT is committed to providing comprehensive, tailored solutions. Our expert team takes a consultative approach, working closely with you to understand your specific requirements. From initial product selection to seamless delivery, we handle every aspect of the process, ensuring a smooth and efficient experience. Whether you need a single component or a complete system overhaul, we have the expertise and resources to deliver.

QUALITY PRODUCTS

TGT's unwavering commitment to quality is reflected in our partnerships with world-class suppliers. We source only the finest products from renowned brands, ensuring that you receive components that meet the highest industry standards. Our extensive global network allows us to access a diverse range of options, empowering you to choose the perfect solution for your needs.

ROUND THE CLOCK SUPPORT

Your success is our priority. That's why we offer round-the-clock support to assist you whenever you need it. Our dedicated team is available seven days a week to provide prompt assistance, expert advice, and timely solutions. Whether you have a technical query, require troubleshooting guidance, or need to place an urgent order, we're here to help.

COMPANY CREDIBILITY

BUILDING TRUST AND EXPANDING REACH

We are proud of our ongoing partnerships with leading Australian organizations such as AUSTRADE, TIQ, and the ADF. Their endorsement is not just a badge of honor; it's a testament to the quality and reliability of our products and service.

We are also thrilled to announce that we've been officially approved by SAMI. This prestigious designation allows us to supply our products directly to the Saudi Arabian Military.

Benefits of Collaboration

Streamlined Processes: Their expertise helps us navigate complex processes and regulations, often shortening the time it takes to secure contracts. This allows us to focus on what we do best – providing top-tier equipment and exceptional service.

Informed Decisions: Their insights and feedback help potential clients make informed decisions with greater confidence. By working directly with a trusted source like AUSTRADE or TIQ, clients can be assured of our capabilities and commitment to quality.

Building Trust: Their endorsement strengthens our credibility in the eyes of both domestic and international customers. This allows us to build stronger relationships and secure valuable partnerships with dealers worldwide.

To Whom it may Concern

As the Queensland Government's global business agency, Trade and Investment Queensland (TIQ) has a twofold charter to support Queensland businesses develop and expand export opportunities and to attract international companies to invest, locate and partner in Queensland.

Tough Gear Trading is a key client of TIQ, and we have been working with the company for several years to support its growth in international markets.

Developing international partnerships and collaborations is a priority for Tough Gear Trading, and with TIQ's assistance has achieved success in several countries in the Pacific Islands.

Tough Gear Trading contributes significantly to Queensland's manufacturing ecosystem and its 4x4 accessory applications are used in a wide range of industries. TIQ will continue to work with Tough Gear Trading to support the growth of its export footprint and its international reputation.

Please direct any further enquiries to Mr Jason Lowther, Manager, Manufacturing, Consumer and Services by telephone +61 439 761 382 or email: Jason.Lowther@tiq.qld.gov.au.

Yours sincerely

Denise Kreymborg

BULLBARS

TGT Bull Bars – Protection with Purpose

TGT offers a premium range of bull bars designed to protect and enhance your vehicle. Each option delivers distinct benefits, with expert guidance available to help you select the right fit for your needs.

All TGT bull bars are supplied as complete kits for seamless vehicle integration and include spotlight mounting brackets for improved illumination.

Built for both off-road and urban environments, TGT bull bars deliver confidence, durability and style wherever you drive.

Some of our bull bar range includes:

Ergonomic Bumper
Designed to follow the natural lines of the vehicle.

Reinforced Loop
Heavy-duty 50/60 mm diameter loop for added strength.

Triple Loop
Modern triple-loop design with three quick-release aerial tabs and integrated spotlight mounting.

Single Loop
Functional, stylish design featuring a 3-inch centre loop.

FLEET BULL BAR RANGE

The Fleet Bull Bar Range combines protection and performance at a value-driven price point.

All Fleet Bull Bars Feature:

- Low-mount winch provision for recovery winch fitment
- Three CB aerial mounts with quick-fit cut-outs
- Recessed LED indicator lenses to minimise damage
- Phosphate cleaned and matte black powder-coated finish for durability or colour coding

POST TYPE

SINGLE LOOP

TRIPLE LOOP

FLEET

REAR STEP WITH TOWBAR

The Rear Step and Towbar Range is the perfect combination of protection and convenience for your vehicle.

The wide tube loop design can help eliminate rear damage, off-road or in the local carpark.

The step is strong enough to hold your weight to reach the roof or into the tub, without impeding rear approach angles.

REAR CARRIERS

The Rear Step is one of the most flexible and adaptable rear protection options on the Australian market.

Developed and manufactured in Australia for serious off-roaders, the range is designed to improve clearance and departure angles and make recovery simpler.

When paired with optional caddy arms the rear bars can be personalised to carry a range of additional accessories.

OPTIONAL ACCESSORIES AVAILABLE:

- Hi Lift Jack Holder
- Aerial and LED light mounts
- Remote winch cradle
- Twin Rear Wheel carrier
- Single Rear Wheel carrier

ALL REAR STEP AND TOWBARS FEATURE:

- Heavy-duty tow hitch rated to vehicles towing capacity - for ultimate towing functionality
- Aluminium checker plate and matte black powder coated step that won't harbor dirt, grit or mud - for ease of care and durable finish
- 63mm steel tube and steel plate guard with high lift jacking points - protects your vehicles vulnerable panels and aids in recovery.

OUTBACK ACCESSORIES

MILITARY-GRADE 4X4 GEAR

Outback Accessories is one of Australia's leading manufacturers and designers of 4x4 equipment. Specialising in steel products, Outback was established more than two decades ago and quickly earned a reputation for rugged, reliable gear that was more than a match for the rigours of outback travel.

Operating from a dedicated Australian manufacturing facility with a highly-skilled workforce, Outback Accessories utilises the latest production techniques and precision CAD/CAM equipment to deliver innovative, quality products that perform in the harshest environment.

OUTBACK ACCESSORIES

FUEL TANKS

Increase vehicle range with a precision-engineered Outback high-capacity underbody fuel tank

BATTERY TRAYS

Mount an auxiliary battery securely with an Outback battery tray

PROTECTION PLATES

Minimise the risk of damage to the sump or transmission with Outback Bash Plates

WHEEL CARRIERS

Easy access to spare wheels, improved off-road capability, superior strength and durability, plus practical accessory options

SINGLE

- Retains existing bumper
- Easy-action gas strut – opens and locks securely without pins
- Heavy-duty pivots + sealed bearings
- Waterproof LED lights
- Rattle-free, fully adjustable over-centre latch mechanism

TWIN

- Replaces standard bumper, improves clearance and departure angles
- Built-in high-lift jacking points
- Easy-action gas strut – opens and locks securely without pins
- Heavy-duty pivots + sealed bearings
- Recessed waterproof LED lights
- Rattle-free, fully adjustable over-centre latch mechanism
- Non-slip aluminium step plate
- Works with oem and most quality aftermarket tow bars
- Bead blasted, zinc coated and heavy-duty powder-coated to colour requirements
- Jack, jerry can, light and aerial mounts available

WINCHES

Since our establishment in 2015, TGT have been engaged in manufacturing and exporting various winches and 4x4 off-road accessories.

Our TGT winches have gained a strong reputation as superior world-class products. Accordingly, our winches have been used for a variety of purposes - including incline load pulling, vehicle recovery recreation, commercial and military applications.

TGT has a variety of winches available ready to accommodate your specific needs. Our range of winches start at 8000lbs and go up to 20,000lbs. Our current main products includes; armoured vehicle winches, electric winches, modification parts for off -road vehicles and many other outdoor accessories.

FEATURES

Some features of our winches includes:

- Waterproof IP68 Rating
- Series Wound DC Motor
- UV Resistant Matt Black Coating
- Multiple Solenoid Mounting Points
- 3 Stage Planetary Gearset
- Remote Control
- Synthetic Rope or Steel Cable
- Larger Clutch Level
- Aluminium Fair Lead
- Sliding Ring Gear Clutch

Pull Strength Options:

- 8,000lbs
- 9,500lbs
- 10,000lbs
- 12,000lbs
- 15,500lbs
- 17,000lbs
- 20,000lbs

RECOVERY

WINCH SHACKLE MOUNT

- Conventional hook surfaces add higher stresses to recovery strap fibers, resulting in decreased strap ratings.
- Shackles can be quickly removed and stowed away until needed for winching.
- Hooks do not cinch neatly against fairleads and are prone to rattling and loosening.
- Conventional winch hooks are designed for chains – not commonly used recovery straps.
- Billet construction — precision machined from aluminum round bar.

ALUMINUM 4X4 HAWSE FAIRLEAD FOR FRONT BUMPER

- Perfectly match with monster front bumper laser cut and formed from 3/16" thick 6061 aluminum alloy strict factory QC test, high quality guaranteed
- Perfectly matches with most front bumpers

SPEED LIMITER

- Speed limit range : 10km/h to 150km/h
- Speed limit deviation: ± 2 km/h
- Working voltage range: DC6-36VDC
- Low temperature resistance: -40
- High temperature resistance: +85
- Vibration-resistance performance indicators: frequency 20- 50HZ acceleration

ACCESSORIES

HI-JACK FARM JACK

- Ideal for lifting off road vehicles and field equipment.
- Multi-purpose design for lifting, pulling, and spreading.
- Great for pulling posts and poles.
- Can be used as a come along, winch, or hoist.

HI-LIFT JACK OFF ROAD BASE

- Alleviates jack sinkage on soft surfaces serrated teeth along one side helps scrape or level ground for base.
- Drilled hole in center of base for convenient storage on jackbar.
- Rugged construction for strength and durability.
- Compatible with all Hi-Lift jacks.

INFLATABLE JACK 4 TON

- Use the vehicle's own exhaust to inflate the jack body, is capable of lifting vehicle out of ruts or holes.
- Air jack can be also inflated by the air compressor.
- Triple protection layer for both top and bottom.
- Double protection design around the body of jack.
- Will safely lift your vehicle up out of a rut or bog in a short time. Simple to use and high efficient.
- Non return valve in the middle of the hose, easy for safety operating with 5 heavy duty anti slip spikes.
- Comes as a complete kit.
- Simple to use without the risk of damage to your vehicle.

TYRE DEFLATOR

- Tyre deflator gauge
- 0-60 or 0-70psi (custom acceptable)
- 100% brass made deflator valve
- Accurate: ± 1 psi
- Braided rubber hose
- Gauge with rubber protector
- Plastic storage box
- Function: testing pressure, deflating.

TGT AXE HEAD

The ideal for clearing and felling timber in all situations. With strength, quality, price, safety and ease of use in mind, this 905mm length axe has a fibre glass handle for non-conductivity, rust/fire resistance, cost effectiveness, great looks and exceptional strength.

MAKING TRACKS ACROSS THE WORLD SINCE 1985!

From the dusty outback tracks of Australia to the toughest trails across the globe, Tough Dog Suspension has been making tracks for 40 years! What started as a commitment to delivering quality suspension has grown into a trusted name in the 4WD industry, with our gear now trusted in over 55 countries worldwide. Through harsh deserts, rugged mountain passes, and muddy backcountry, our suspension has been tested and proven where it matters most – out in the real world.

Every product is researched, developed, and refined by real enthusiasts at our Sydney headquarters, ensuring you get the toughest, most capable suspension for your adventures.

As we celebrate 40 years of innovation, reliability, and adventure, we want to thank every driver who has put their trust in Tough Dog. You've taken our gear across continents, conquered challenging terrain, and pushed the limits – and we've been right there with you.

This is more than just a milestone.

It's a reminder that the journey never stops.

Here's to the next 40 years of making tracks together!

FOAM CELL

Tough Dog's award winning Foam Cell shock is our best seller for all round performance. Whether you're a weekend warrior, a long-distance tourer, or even a rock-crawling enthusiast, our Foam Cell shocks will handle your application comfortably.

ADJUSTABLE

If you're looking for some extra control, our adjustable shocks have 4WD covered! From highway driving & towing through to flexing it out on tough tracks, the 9 different stages of adjustment allow you to fine tune the ride characteristics to your preference!

COIL SPRINGS

Made from micro-alloyed spring steel, Tough Dog coil springs are designed with less material while maintaining superior ride quality & load carrying characteristics. Made in Australia, these springs can handle anything you throw at them!

LEAF SPRINGS

Designed in Australia, Tough Dog leaf springs offer a spring pack for just about any application you might require. A truly progressive-rate leaf spring, Tough Dog has a spring pack for just about any application you might require.

RALPH

If you drive a fully laden offroad tourer, or push your 4WD to it's limits - these are the shocks for you! RALPH Shocks feature a massive 50mm bore and 22mm piston rod, all housed in a 70mm casing. These big dogs carry so much oil, they will run cool over even the toughest of terrain.

TD-R PRO SERIES

Heat build-up leads to shock fade - a surefire way to lose control when it matters most. TD-R Pro Series is built to handle the pressure with superior cooling, precision response, and unmatched durability. TD-R Pro Series is the result of years of building, refining, and rigorous testing.

STEERING DAMPERS

Improve your 4WD's handling characteristics, eliminate shimmy and shake, and reduce driver fatigue with one of our popular steering dampers! With four styles of damper to choose from, take control of your ride with a Tough Dog Steering Damper.

AIR ASSIST

Air Assist airbags are specifically designed to provide additional support for the rear springs, levelling out and controlling the rear ride height of your vehicle. You can even adjust the pressures of the air bags remotely with our Wireless Air Assist upgrade options!

TD-R

PRO SERIES

HIGH PERFORMANCE REMOTE RESERVOIR SHOCK ABSORBERS

DESIGNED FOR HIGH PERFORMANCE

Ready to take control of any road, any track, and any challenge? Introducing Tough Dog's all-new TD-R Pro Series remote reservoir shock absorbers – precision-built shocks for serious off-road performance.

TD-R Pro Series fights heat at the source – dissipating it fast to keep performance at its peak. The gas-charged remote canister prevents aeration, while specially formulated oil keeps everything flowing – even when conditions turn brutal!

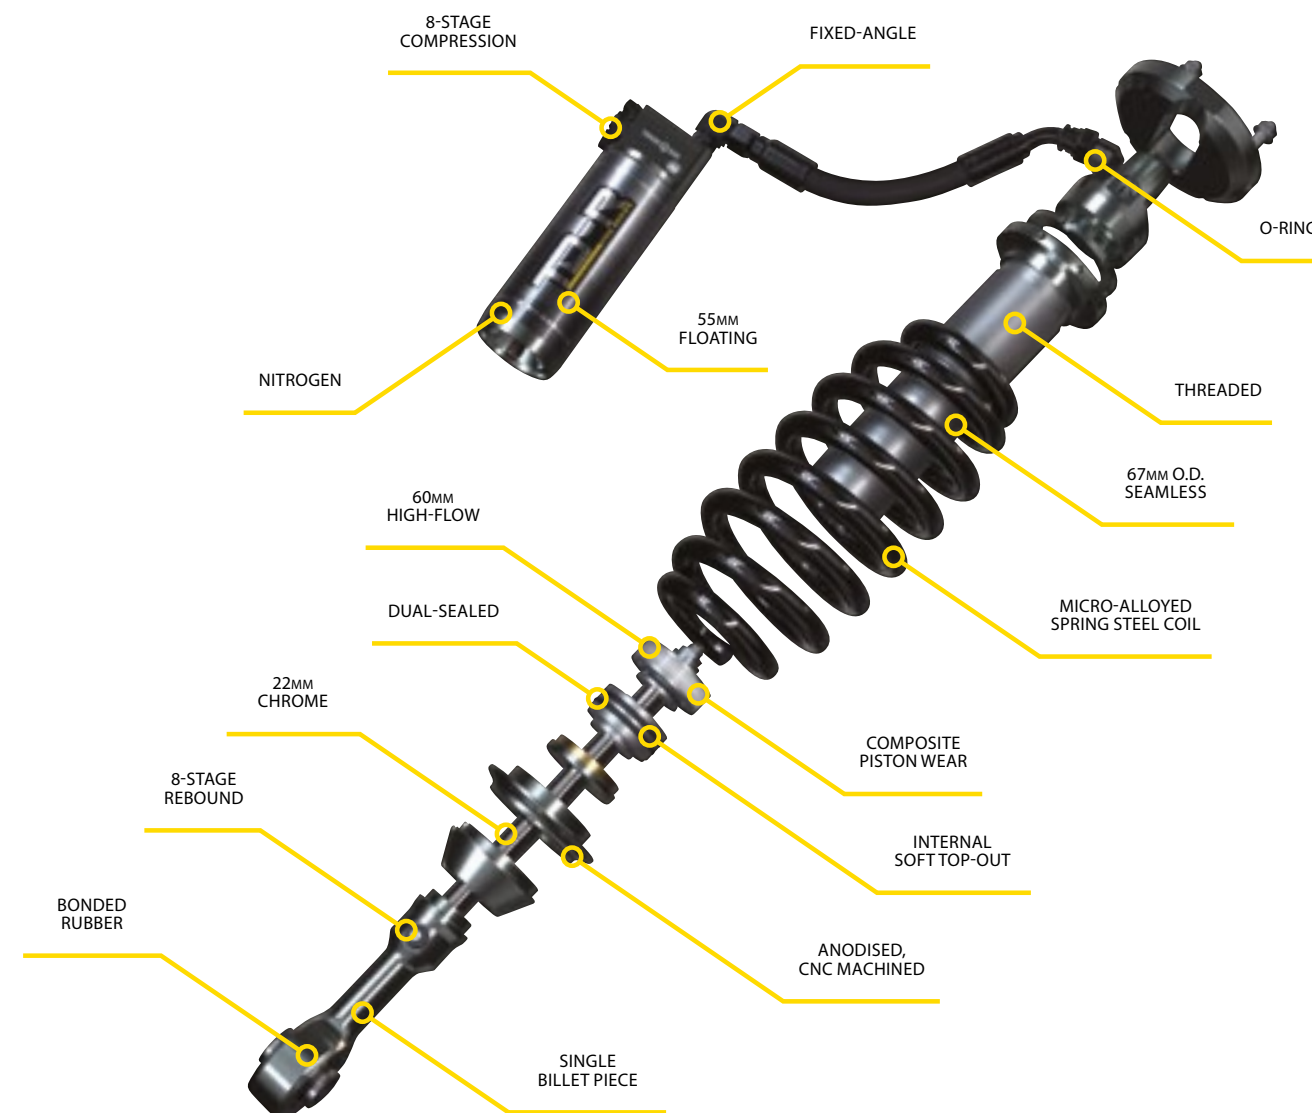

With a 60mm high-flow race piston, 67mm diameter steel body, CNC-machined components, and a 22mm chrome piston rod protected by a 360° rugged stone shield, this is serious hardware built to take serious punishment. And with an inverted design to reduce unsprung weight, you get faster suspension response and a smoother, more controlled ride – on and off the road.

TD-R Pro Series lets you dial in your ride with 8-stage rebound and 8-stage compression adjustment. Whether you're loaded with gear or facing changing terrain, you can fine-tune your setup on the fly for ultimate control.

This isn't some off-the-shelf, generic shock absorber, TD-R Pro Series is the result of years of building, refining, and rigorous testing across Australia's toughest terrain to create shock that's not just built tough, it's engineered to thrive where others fail.

Fully rebuildable and backed by a 3-year, 100,000km warranty – TD-R Pro Series is available now for a wide range of your favourite 4WDs.

TD-R Pro Series by Tough Dog – race-bred performance that's ready to take you further!

WATCH
ALL THE
ACTION!

GET BACK ON TRACK!

Tough Dog Kinetic Recovery Kits are designed to offer a safer and more effective recovery from whatever situation you find yourself stuck in!

Made from 100% double braided nylon, kinetic ropes offer up to 50% more rope elongation than standard 'snatch strap,' resulting in a smoother recovery with less strain placed on your vehicle.

When recovering a stuck vehicle, you must use the rope rated for the lightest vehicle in the recovery. To choose the correctly rated rope, the rule is 2-3x the weight of the lighter vehicle being recovered.

The 8.5T Kinetic Rope is suited for most dual-cab utes, and mid-size 4WDs like the Toyota Prado & Mitsubishi Pajero. If you're driving a full-size 4WD like a 300 Series LandCruiser, Nissan Patrol, or 79 Series, you'll need to use the higher-rated 13T Kinetic Rope.

Get your trip back on track with Tough Dog!

KINETIC ROPE RECOVERY KITS

Specially designed for a smoother recovery on the beach, in the mud, or any sticky situation you find yourself offroad, Tough Dog Kinetic Recovery ropes are made from 100% double-braided nylon, and come in 2 ratings; 8,500kg or 13,000kg capacity. The rope's 30% elongation creates ample energy for a strong and smooth recovery,

with 50% more rope elongation compared to traditional snatch straps.

Tough Dog Recovery Kits include:

- ✿ 8.5T or 13T Kinetic Recovery Rope
- ✿ 2x Soft Shackles
- ✿ Recovery Damper
- ✿ Pair of Recovery Gloves
- ✿ Heavy Duty Carry Bag

SOFT SHACKLES

Lighter, stronger, and safer than traditional steel bow shackles, Tough Dog Soft Shackles are made from genuine Spectra® fibre & fitted with a braided sleeve for added protection. With a Minimum Breaking Strain (MBS) of 21,000kg, a Tough Dog Soft Shackle is the ultimate connector for all your recovery needs.

RECOVERY HITCH

Tough Dog Alloy Recovery Hitches will give you the confidence to safely get out of any sticky situation! Machined from T6 6061 aluminium and finished in black anodising, they're available in 2 different lengths; 170mm or 240mm, are less than half the weight of the equivalent steel hitch, and have a working load limit (WLL) of 4,750kg.

Build your own Tailor Made On Board Air Control & Supply System to suit your specific individual requirements whether it's Airbag Inflation Only, Tyre & Airbag Inflation or Auto Levelling.

We have a wide range of On Board Air Solutions from Paddle Switches, Electric Switches, Wireless Controllers, Auto Levelling, Dual Digital Airbag Pressure Gauges, Wireless Airbag Pressure Gauges, Air Compressors, Levelling Valves, Fittings, Tubing, Compressor Repair Kits, Air Tanks, Valve Blocks + More.

FORMULA 4x4

BUILT FOR REAL-WORLD 4WD LIFE

Formula 4x4 is engineered for people who use their 4WDs the way they were meant to be used - touring long distances, towing heavy loads, and exploring rough terrain. The range delivers ride comfort, stability and reliability, backed by Australian design and testing.

Formula 4x4 covers all major suspension needs, from everyday driving to serious off-road touring. Every kit is tuned to suit the specific vehicle, load and driving style, giving drivers confidence whether they're climbing mountain tracks, crossing corrugated roads, or simply commuting with a fully packed vehicle.

What sets the brand apart is its focus on practical performance. Components are built to handle heat, weight, speed and unpredictable terrain. The result is better body control, better comfort, and a more predictable driving experience.

It's a suspension range made for real users: families towing caravans, tradespeople carrying gear, weekend campers and long-haul tourers.

GVM UPGRADES MORE PAYLOAD, MORE FREEDOM

GVM (Gross Vehicle Mass) upgrades are an essential part of the Formula 4x4 offering. They increase the legal carrying capacity of a vehicle, giving owners freedom to pack more gear, tow heavier loads, and fit more accessories - all while staying safe and compliant.

A Formula 4x4 GVM upgrade is designed for drivers who travel with constant weight. This might include bull bars, winches, camping setups, fridges, dual batteries, recovery gear or toolboxes. When the vehicle carries more than the factory rating allows, braking, steering and handling can suffer. A certified GVM upgrade restores stability and improves safety.

The upgrade package includes specially matched springs, shocks and components that support heavier loads without sacrificing comfort. Every kit comes with the engineering approval required to keep the vehicle legal on the road.

BIG BORE & F4R BUILT FOR TOUGH CONDITIONS

BIG BORE

Big Bore shocks are designed for heavy vehicles, long-distance touring and rugged terrain. The larger shock body increases oil capacity, helping the shock run cooler and more consistently. This reduces fade on corrugations and improves stability when carrying heavy loads. Drivers feel more control, more comfort and less bounce - especially on rough roads.

F4R ADJUSTABLE

For those who want maximum performance and tuning ability, the **F4R adjustable** series sits at the top of the range. These shocks allow drivers to fine-tune the feel of their suspension. Firm it up for towing. Soften it for long highway stretches. Adjust it for rough tracks or extra weight. The system adapts as the vehicle changes, making it ideal for touring setups.

ADJUSTABLE SERIES & AUSTRALIAN- TESTED CONFIDENCE

The Formula 4x4 **adjustable series** gives drivers control over how their vehicle feels on the road and off it. With adjustable settings, owners can tailor the ride to suit their load, terrain and driving style. This versatility is especially valuable for people who use their 4WD for multiple purposes - commuting during the week, towing on the weekends, and hitting tracks during holidays.

This tuning ability means the suspension can evolve with the vehicle. Add accessories, change your touring setup, or increase your payload - the adjustable series can be set to match. It turns one 4WD into a multi-purpose machine.

All Formula 4x4 products are designed and tested in Australia. That means they're built to handle extreme heat, long corrugated roads, heavy loads and outback conditions. Australian testing matters because it reflects how real drivers actually use their vehicles.

FORMULA 4x4

SuperPro

AUSTRALIAN ENGINEERING, GLOBAL PERFORMANCE

SuperPro is designed and engineered in **Brisbane, Australia** – tested in harsh conditions so it performs everywhere.

What does that mean for you? It means parts built to handle heat, dust, rough roads and heavy usage – giving better stability, control and durability for your vehicle.

Whether you're commuting, towing or hitting remote terrain, SuperPro gives you suspension peace of mind.

With one of the largest product ranges (*over 7,000 specialised parts*) and a lifetime warranty, SuperPro is a credible upgrade for drivers who expect more from their suspension.

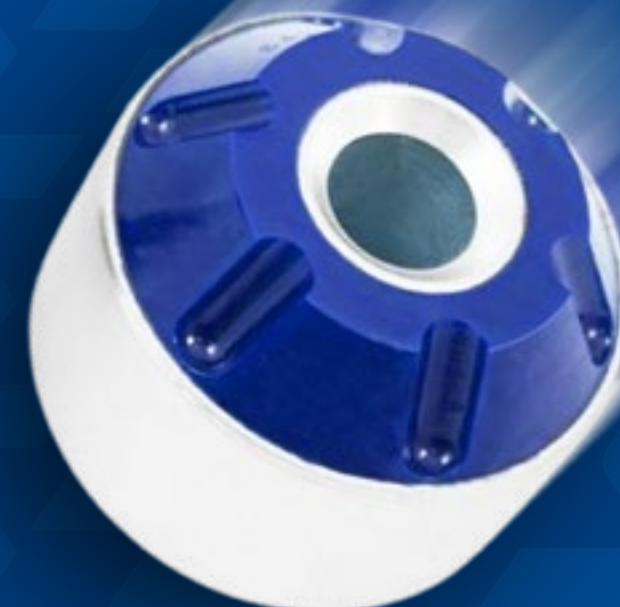

SP BUSHINGS: DURABLE FOUNDATION FOR YOUR SUSPENSION

The SP (*SuperPro*) **bushing** range replaces weaker factory rubber bushings with high-performance polyurethane versions.

This upgrade boosts longevity, alignment consistency and drive feel.

KEY BENEFITS

- ✓ Longer life under load and heat (*polyurethane resists oil, UV, deformation*)
- ✓ Improved tyre contact and stability under cornering or heavy load
- ✓ Fitment across both 4WD and passenger vehicles – a wide application range
- ✓ Backed by Australian design, testing and material innovation.

UCAS, SWAY BARS & RADIUS ARMS: CONTROL WHEN IT MATTERS

SuperPro's broader suspension range moves beyond bushings to include **Upper Control Arms (UCAs)**, **sway bars** and **radius arms** – offering comprehensive control upgrades.

UCAs

(Repair-Kit, Fixed & Adjustable)

These allow alignment correction and geometry restoration, especially after lifts or heavy use.

SWAY BARS

Improve handling, reduce body roll and increase driver confidence on road or track.

SuperPro offers heavy-duty and adjustable kits.

RADIUS ARMS

Support steering and suspension stability in higher-demand 4WD or performance situations.

WHY CHOOSE SUPERPRO: TRUST, TESTING & LIFETIME WARRANTY

SuperPro's core differentiators for the everyday driver: **durability**, **engineering pedigree** and **lifetime support**.

- ✓ All products designed, engineered and tested in Australia to suit tough conditions.
- ✓ Backed by a **Lifetime Warranty** across bushings, sway bars and arms.
- ✓ Range breadth: thousands of fitments across performance cars and 4WDs – you pick your vehicle, SuperPro has a solution.

**BUILT HERE.
TESTED HERE.
BACKED FOR LIFE.**

POWERDRIVE

Heavy Duty & Performance Clutch Kits are developed and tested in house for optimal clamp load and torque capacity.

THE NEW STANDARD IN QUALITY

- Proudly Australian owned
- Clutch Kits
- Concentric Slave Cylinders
- Performance and Heavy Duty
- Dual Mass and Single Mass Flywheels
- Clutch Aligning Tools (Hydraulics) All

POWERDRIVE clutch kits come complete with three-piece Clutch assembly (cover, disc & release bearing/csc) Clutch & flywheel kits include the flywheel & flywheel to crank bolts*

As a bonus all kits now include the pilot bearing or bush* & installation grease

*where available/applicable

DYNAMIC DRIVELINE SOLUTIONS

CLUTCH KITS

The company supplies an extensive range of organic and ceramic clutch kits to suit the Australian market, including OEM kits for everyday driving, together with specialised performance and sports clutches for enthusiasts.

PERFORMANCE AND CUSTOM CLUTCH KITS

From a heavy-duty single plate clutch to a unique triple plate custom unit, CBA is constantly expanding its range of performance, heavy duty and complete custom-designed clutch kits. Our upgraded clutch kits are designed to handle extreme conditions with a minimum of noise, vibration or harshness while maintaining the best possible pedal feel, engagement and durability.

DUAL MASS FLYWHEELS

Clutch and Brake Australia (CBA) maintains a broad range of dual mass flywheels and clutch kits to suit. Dual mass flywheels are highly tuned elements that must be carefully matched to the engine torque curve and vehicle load conditions, talk to our qualified technicians for advice on the correct system for your vehicle.

SOLID FLYWHEEL CONVERSIONS

Clutch and Brake Australia (CBA) stocks a range of solid flywheel conversions that replace existing dual mass systems, reducing the risk of overheating and enabling the installation of heavy-duty clutch options.

PILOT BEARINGS

Worn or failed pilot bearings can result in gearbox misalignment leading to clutch failure, so it makes sense to replace the bearing when installing a new clutch. CBA stocks the full range of pilot bearings to suit all vehicles

CLUTCH ALIGNING TOOLS

These are used to line up the clutch disc with the input shaft before installing the gearbox. CBA has a range of sizes to suit domestic and imported models.

POWERING THE AFTERMARKET WITH A FULL RANGE OF BRAKE
PADS, ROTORS, DRUMS AND HYDRAULIC COMPONENTS

BRAKE ROTORS AND DRUMS

The new POWERSTOP Rotors and Drums are developed from OE samples and made of a specialised high carbon material for added strength and sound dampening qualities.

Our Rotors come with a lateral runout of 0.1mm or less and are mill balanced for a thickness variation of less than 0.01mm POWERSTOP Rotors and Drums are inspected throughout the manufacturing process for consistency and quality to meet or exceed OE specifications.

FEATURES

- Anti-Corrosion coating to rotor hat and venting surface.
- Non-Direction ground rotor finish for faster bed-in.
- Cast from G3000 qualified material for strength and hardness to meet or exceed OE specifications.

BRAKE PADS

Available in a range of application specific friction formulations.

POWERSTOP Brake Pads offer long lasting, quiet and clean operation without sacrificing braking performance. Each compound is specifically matched to its application and engineered to be a cost-effective solution, without compromising on quality and safety of the vehicle and its occupants.

TITANIUM INFUSED OUR LATEST FORMULATION

Chosen specifically for Australian 4WD applications, this Premium Formulation has Titanium infused throughout the friction material. This provides consistent braking performance over a much wider temperature range with strong Anti-Fade properties and increased 'bite'.

KEVLAR INFUSED CERAMIC DISC PADS

Utilising an advanced Hybrid Kevlar Ceramic Formulation, Kevlar Infused general purpose pads provide Ultra Quiet operation with Low Dust and no black residue. Kevlar is long lasting while being soft on rotors, extending service life.

STREET COMPOSITE BRAKE DISC PADS

Higher Friction Coefficient for drivers wanting even more 'bite' from their brakes. These Pads use the same Anti-Noise shim technology as the rest of the POWERSTOP range and are ideal for both heavy vehicles and 4WD's.

STREET COMPOSITE BRAKE DISC PADS

TITANIUM INFUSED CERAMIC BRAKE DISC PADS

KEVLAR INFUSED CERAMIC BRAKE DISC PADS

Tough gear trading is the authorized international distributor for brake bonders premier brake shoe. With 30 years experience, Brakebonders is the most trusted name in brake shoes. Do the job right the first time. Trust Brakebonders brake shoes.

WHY BRAKEBONDERS:

- Australian owned & produced
- over 6 million shoes sold since 1985
- largest brake shoe manufacturer in australia
- 100% of range radius ground for perfect fit the first time
- most up to date range with the newest applications available

BRAKE SHOES

BRAKEBONDERS BRAKE SHOES

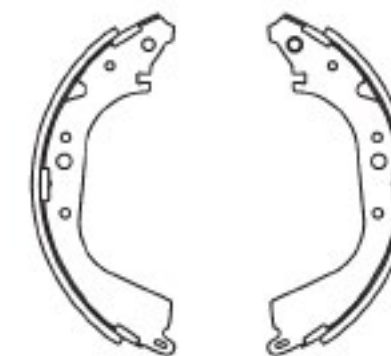

BRAKEBONDERS BRAKE SHOES

Perfect for daily driving, towing and off-road use, the BRAKEBONDERS range of brake shoes feature a premium friction material with a minimum friction rating of FF. This provides increased pedal bite when cold and a wider operating temperature range. Radius ground for perfect fit and shorter bedding in times, BRAKEBONDERS shoes offer low dust and quiet operation while providing better braking performance.

THE BRAKEBONDERS DIFFERENCE:

- Contain no asbestos
- 100% of the range is radius ground for perfect fit the first time
- Anti-Corrosion Coating
- Most up to date range with the newest applications available
- Australian owned & produced
- Over 6 million shoes sold since 1985
- Largest brake shoe manufacturer in australia

With more than 30 years experience, BRAKEBONDERS is the most trusted name in brake shoes. Do the job right the first time. Trust BRAKEBONDERS Brake Shoes.

PROJECTA INTELLIGENT POWER

5
YEAR
WARRANTY

Projecta's IDC range pioneered dual battery charging. Now the IDCX range revolutionises DC to DC charging with unparalleled build quality making it virtually unstoppable, even in engine bays, and the ability to connect with Projecta's Intelli-IQ smart ecosystem. We also offer heavy-duty battery trays and everything required for a professional installation. Enhance your system with an Intelli-Charge 7 Stage Battery Charger and Intelli-Wave pure sine wave Inverter – connected of course with Projecta Smart Relays.

INTELLI-CHARGE DC-DC CHARGERS AND INTELLI-IQ
Charge from solar and alternator inputs simultaneously, with market-leading temperature compensation for any climate. Control and monitor remotely via smartphone or Intelli-IQ interface, with easy setup and firmware upgrades for future-proof performance. Experience the ultimate in power management for your adventures with IDC50XIQ.

INTELLI-CHARGE Battery Chargers
No matter the size or type, leave it to Intelli-Charge. Offering world class 5 or 7 stage technology and multi-chemistry charging, fully automatic Intelli-Charge maximises battery performance and life. Range covers 12V, 1 – 50A and 24V 8A

INTELLI-WAVE inverters
The ultimate solution for 240V power supply whilst off the grid, Intelli-Wave inverters produce ultra clean power capable of powering the most sensitive appliances. Range covers 12V, 600 – 3000W and 24V 2000 & 3000W

INTELLI-IQ Smart Relays
The ideal solution to scaling a DC system to control up to 4 low current devices. Once connected the user has total control.

CUSTOMISE YOUR ULTIMAs

Choose between Silver or Black bezels, choose the colour trim to best suit your vehicle and then add the lens protector to complete your look – Clear, Black Tint (2 different graphics are available) or Selective Yellow for poor conditions.

ULTIMA CONNECT CONTROLLER (Part No. 74408)

Allows total control over a vehicle's Ultima system. Adjust the beam intensity to suit all driving conditions, no more road sign flare on the side of the highway and no more unnecessary distance when traversing 4WD tracks at slow speeds.

User the BOOST function to provide 15% more power for 30 seconds. This is ideal for situations where the driver requires more output.

For true beam control the Spot and Hybrid driving lights can be controlled independently. One Connect+ Controller can be paired with both Ultima Driving Lights and Ultima Light Bars.

The Narva emergency lighting range goes further to keep you safe. Our powerful and innovative beacons and strobes provide maximum visibility on the worksite and the road. With amber options for mining, construction and commercial industries, and red and blue lights for emergency services, Narva has a warning light for every vehicle and application.

VEHICLE SPECIFIC

Provent Catch Can Kits Brand Name Pre-Filter Kits 4WD Filter Servicing Kits

Western Filters has created a range of Vehicle Specific Provent Kits for various Toyota models including Hilux, Fortuner, Prado, Land Cruiser 200 and 70 Series.

Modern diesel systems recycle crankcase fumes, often containing oil droplets, back to the air intake. This blow-by can clog air intakes, intercoolers, and turbo chargers, reducing vehicle performance.

Donaldson is an industry leader in heavy-duty filtration, replacement filters meet the same quality standards as OEMs and provide premium quality, durability and the highest level of protection for your 4WD. Available in 3, 4 and 11 microns.

The Kits from Western Filters come with everything you need to install a Provent and a Pre-Filter like a Pro. Kits include a Provent Catch Can, Pre-Filter (Donaldson, FM, Racor or PreLine), Bracket, Hoses and Fittings. Drainage Kits available on Provent Kits for easy removal of waste.

There are a range of Dual Bracket Kits which come with a Bracket which will seat both a Provent and a Pre-Filter. Please enquire for more information.

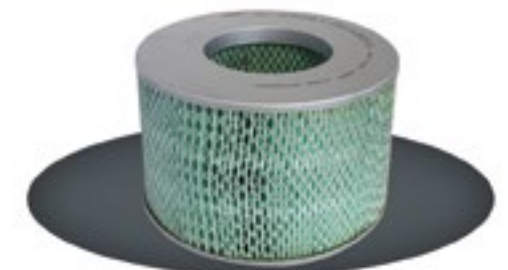

The range of Western Filters 4WD Service Kits come with the best filters from the market leaders such as Wesfil Cooper, Donaldson, Sakura, Fleetguard, Parker Racor, HiFi. We also have our own WF 4WD Kits comprised of quality filters from those brands.

UTE RACKING

Our new flat pack ute racking is both economical and light. While it is similar in use to what's out there in the market place the difference is it has more robust design, hem folding for strength and safety and comes with quality fittings and instructions.

They are suitable for Fischer plastic bins available also from RV. The kit has three shelves and two end panels and comes with a universal fitting kit.

The new Ute Racking from RV provides an affordable user friendly option for tradesman that need upright organised storage for their many parts and trade tooling. The Rack is orientated so it is accessible from the side window of the canopy but can also be accessed from the rear, particularly the bottom shelf.

There are many extras that can be used with the Ute Racking to make the job easier such as water containers, hand cleaner units, cable rollers etc.

The Rack is designed to sit on the RV EcoLite drawer systems for most popular Dual Cabs Utes and comes with a universal fitting kit to secure to the drawers, leaving the side of the drawers open for storage and access for other items. They can also be floor mounted.

Below is a typical example of a drawer-rack combo fitted in a dual cab ute with canopy.

UTE RACKING
Assembly required.
P/N: EL-RA1663-00
RACK SIZE OD: W1060 x H630mm x D350
KIT HAS 3 SHELVES - SIZES (ID)
Top shelf ID: W1020 x D230mm (1x narrow top shelf)
2nd & 3rd ID: W1020 x D300mm (2x full width shelves)
Universal fitting kit included.

DOOR KIT
Assembly required.
P/N: EL-DR1220-01
DOOR SIZE: W1020 x H200mm
Kit includes: 2x Hinges and 2x Locks

Right: Ute Racking shown mounted to 1400 twin drawers. Where applicable Van Racking may be floor mounted with modifications to the length of the racking legs. Please check the measurements for your application.

UTE DRAWERS/ VAN MODULES

DRAW SYSTEM

Rugged all-steel construction to keep your business neat and organised.

We have been making drawer systems for 25 years and supplying the industry for just as long.

Using construction methods only seen in the Aeronautical industry to date, we have designed a smart, light and tough, full steel roller bearing twin drawer storage system that's also light on the hip pocket, a winner all round!

FEATURES INCLUDE:

- Full 18mm thick floor with UV friendly carpet
- Carpet lined cross braced drawers
- Fully carpeted drawer fronts as standard
- Sealed roller bearing action
- 12 months warranty
- Keyed alike locks
- ADR compliant and rated to carry 150kgs of cargo in and on the system

Below: Ford PX Ranger fitted with 1400 twin drawers.

TWIN DRAWER - WITH WING KIT (UTES ONLY)

SPECIFICATIONS:
WEIGHT: 90kg approx.
(EL1400 twin drawer & wings)
SIZE: L900/1000/1400 x W1020 x H275mm
ADR LOAD RATING: 150kg across the system.

TWIN DRAWER MODULES - NO WING KIT (VANS OR UTES)

SPECIFICATIONS:
WEIGHT: 85kg approx. (EL1400 twin module)
SIZE: L900/1000/1400 x W1020 x H275mm
ADR LOAD RATING: 150kg across the system.

TGT HISTORY

- 2015:** TGT was born! We launched in 7 countries and appointed dealers in the Gulf Region.
- 2016:** Secured contracts with the UN and Saudi Arabia Military to support auto parts for specialised 4x4 vehicles.
- 2017:** Launched TGT Military with an expansion of light-armoured vehicle applications.
- 2018:** Expanded our range and became the international license holder for many strong Australian brands.
- 2019:** Launched TGT in Sub-Sahara Africa and expanded our global team with members in South Africa.
- 2020:** Introduced TGT camping products to Australia and began participating in local 4x4 Shows. Secured warehouse facilities within Australia.
- 2021:** Launched a brand-new webpage and updated catalogues. Secured MOD contract in numerous countries
- 2022:** Established new partnerships through Carsales and Goodyear/Dunlop stores. Expanded the corporate offers of the TGT Rooftop Tent into Australia with significant peak deals concluded. Expanded TGT in Europe.
- 2023:** Secured a significant partnerships for TGT in the Middle East and in Central Africa. Upgraded the TGT profile, through social media platforms and marketing content. Launched a new military catalogue and welcomed new suppliers. Launched mining applications.
- 2024:** Concluded exciting plans with various 4x4 and defence shows planned globally. Extended TGT's reach even further with multiple business trips. Continued participating in numerous defence shows with the Australian Defence team and launched our Tough Gear Trading Military Webpage. Launched the TGT mining sector and catalogues. TGT achieved approval from SAMI, further solidifying our reputation in the industry!
- 2025:** Launched a partnership with Papua New Guinea. Expanded the military defence sector offering.
Finalised contracts in Saudi Arabia with further expansion network.

PROJECTS

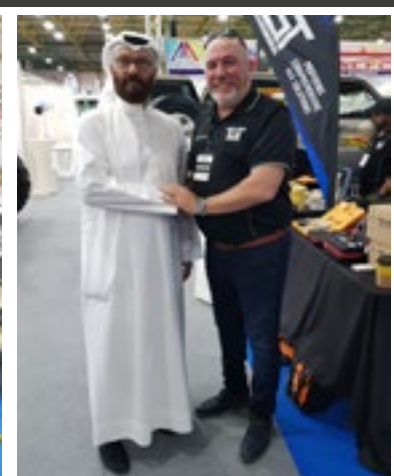

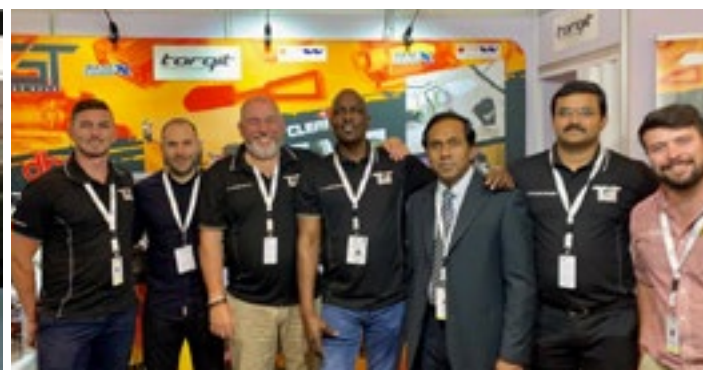

Tough Gear Trading is a trusted project management partner, specializing in the automotive and military sectors.

We have successfully completed projects for clients all over the world, from replacing the fleet of rooftop tents for leisure and camping providers such as Jucy rentals in Australia to supplying automotive solutions to the international military.

We take on projects of all sizes, and we are committed to working closely with our clients to ensure their needs are met.

Our project management team is experienced and professional, and we use the latest tools and techniques to ensure that your project is completed on time and within budget. We are confident that we can handle any project that you throw our way. Contact us today to discuss your needs.

PROMO GEAR

Elevate your brand's presence with TGT's high-quality promotional gear. From branded apparel and accessories that empower your team, to eye-catching items designed to capture attention at industry events, we ensure you make a lasting impression.

Discover our diverse selection, including t-shirts, caps, bags, and marquees and more — everything you need for your next big occasion. Plus, we offer custom branding to proudly feature your logo on any item!

EXHIBITIONS & SHOWS

Tough Gear Trading is proud to participate in many shows in Australia and around the world, from military to 4x4 expos.

We often work in conjunction with our supplier partners or global distributors to ensure our presence and successful participation at these shows.

We carefully plan and target all our exhibitions to ensure that we are reaching the right audiences.

LOGISTICS

INTERNATIONAL SUPPLY CHAIN LOGISTICS MANAGEMENT

Tough Gear Trading provide their import and export clients with innovative and cost effective end to end freight solutions, with the use of 21st century information technology.

Tough Gear Trading understands the evolving supply chain needs of your business, our Suppliers and our Customers, particularly with regards to:

- Preparation of all the required export commercial documentation
- Obtaining eligible Certificates of Origin from the Australian Government Authorities
- Warehousing and consolidation of multiple orders from various Australian Suppliers to reduce Freight costs for our customers
- Air and LCL / FCL sea freight management with their international Carrier partners
- Tough Gear Trading has a high level of compliance with all the relevant Australian and Overseas Government Regulations

TESTIMONIALS

“Clutch and Brake Australia (CBA) proudly acknowledges its partnership with Tough Gear Trading (TGT) as a pivotal aspect of our business success. Our collaboration with TGT has significantly enhanced our ability to reach new markets and meet demands efficiently and effectively. TGT's commitment to adaptability, coupled with their professionalism in product delivery, has been instrumental in the successful completion of numerous projects. One of the standout features of our partnership with TGT is their flexibility in providing bespoke products and tailored solutions. TGT has consistently embraced our design inputs, resulting in the introduction of new solutions and improved products to our customers at competitive prices. TGT's long-term market presence, coupled with their track record of successful projects, underscores their reliability as a partner. Their streamlined organizational structure and effective business model further enhance the efficiency of our collaboration. Customer satisfaction is at the heart of everything we do, and our collaboration with TGT exemplifies this principle. We are confident that future collaborations with TGT will continue to yield fruitful results for CBA, TGT and our customers..”

- CLUTCH AND BRAKE AUSTRALIA

“Partnering with Tough Gear Trading has been a game-changer for Airbag Man in the international market. Their expertise in providing solutions in commercial and military automotive applications compliments our vast array of air suspension products, creating a dynamic synergy that addresses diverse customer needs. From the outset, Airbag Man's commitment to quality and innovation has aligned seamlessly with Tough Gear Trading's ethos of reliability and durability. Together, we've been able to penetrate new markets and expand our reach, offering comprehensive solutions that enhance safety, performance, and comfort for our customers worldwide. The collaboration between Airbag Man and Tough Gear Trading goes beyond mere product integration; it's a true partnership built on trust, mutual respect, and a shared vision for excellence. With their exceptional support and resources, we've navigated complex international landscapes with ease, establishing a formidable presence and earning the trust of clients and distributors alike. As we continue to grow and evolve, we look forward to further strengthening our alliance and setting new benchmarks in the global market.”

- AIRBAG MAN

“Since 2015, Tough Dog Suspension has been collaborating with Tough Gear Trading. The partnership originated when TGT's founder, Gary Turner, began working with John Agostino, the founder of Tough Dog. This friendship dates back some 15 years, highlighting the strong bond between the two companies.

Gary Turner and his partners, including Hennie Fourie, boast extensive military backgrounds, bringing a wealth of knowledge, experience, and connections in the armoured vehicles and security sectors. With Hennie's experience in working with companies that construct armoured vehicles, he understands what it takes to produce a reliable product using top-quality and dependable brands.

Tough Dog acknowledges the expertise that TGT contributes to their export markets, especially in the military and armoured vehicle segments.

Furthermore, both Gary and Hennie have over 28 years of experience in the 4x4 industry, making them well-versed in international markets.

With a common vision for the future, both companies have capitalized on their collective experience and expertise to establish thriving partnerships on multiple projects.

Our excitement for the future is amplified as we anticipate the continued expansion of our international presence, hand in hand with TGT..”
