About Presenter

Prakash Malmarugan

Manager – Budgeting Planning and Analytics
NexInfo Solutions, Inc.

I am deeply enthusiastic about harnessing cutting-edge technologies to address business challenges, drive tangible outcomes, and establish a thriving enterprise by optimizing processes.

Core Area

Data Analytics
Data Warehouse
Enterprise Performance Management
Project Management Practitioner

Experience & Expertise

- Over 12 years of experience in Oracle Hyperion, EPM Cloud, and Analytics
- Expertise in delivering comprehensive solutions to streamline financial planning, reporting, and analysis processes
- Strong technical proficiency and deep understanding of the Oracle EPM suite
- Ability to effectively optimize performance management systems
- Drive data-driven decision-making and unlock actionable insights
- Committed to helping organizations achieve their financial goals
- Empowering teams with advanced analytics capabilities

Oracle Enterprise Performance Management (EPM) Cloud Offering

- ✓ Financial Consolidation & Close
- ✓ Account Reconciliation
- ✓ Narrative Reporting
- ✓ Planning, Budgeting and Forecasting
- ✓ Profitability & Cost Management
- ✓ Enterprise Data Management
- ✓ Tax Reporting

Trilogy - Oracle Cloud EPM Journey

Digital Transformation Case Study

About TRILOGY

Trilogy is leading healthcare service provider. Company offers independent and assisted living, memory care, and rehabilitation services. With presence across 120+ locations across USA.

Replaced

Navision

Cloud Modules Implemented

Oracle Cloud ERP, EPM, Accounting Hub Implementation

Deployment Location: North America

Industry: Healthcare

Top Customer Challenges

Multiple legacy application with few applications on verge of End of life

20+ Legal Entities & 120+ Locations(Sites) with business users spread across Sites.

Reporting Requirements for multiple external stake holders (Investors, HUD etc.)

Budget & Actuals tracking for both Financial & Statistical data leading to 100+ reports monthly, quarterly and annually. With substantial manual intervention.

Disparate systems, leading to cumbersome process for reconciliation. Leading to delay in sharing revenue numbers to Management

Change in COA mapping, leading to substantial effort for GL balance conversion & reconciliation.

Top Benefits Achieved

Provided prioritization of orders, segregation of inventory and shipments to meet Customer service level agreements and channel agreement.

Detailed project tracking on time bound telecommunications projects that helped improve delivery of cable, digital data and spectrum

Coordinated process for minimizing installation times for telecommunication equipment and software

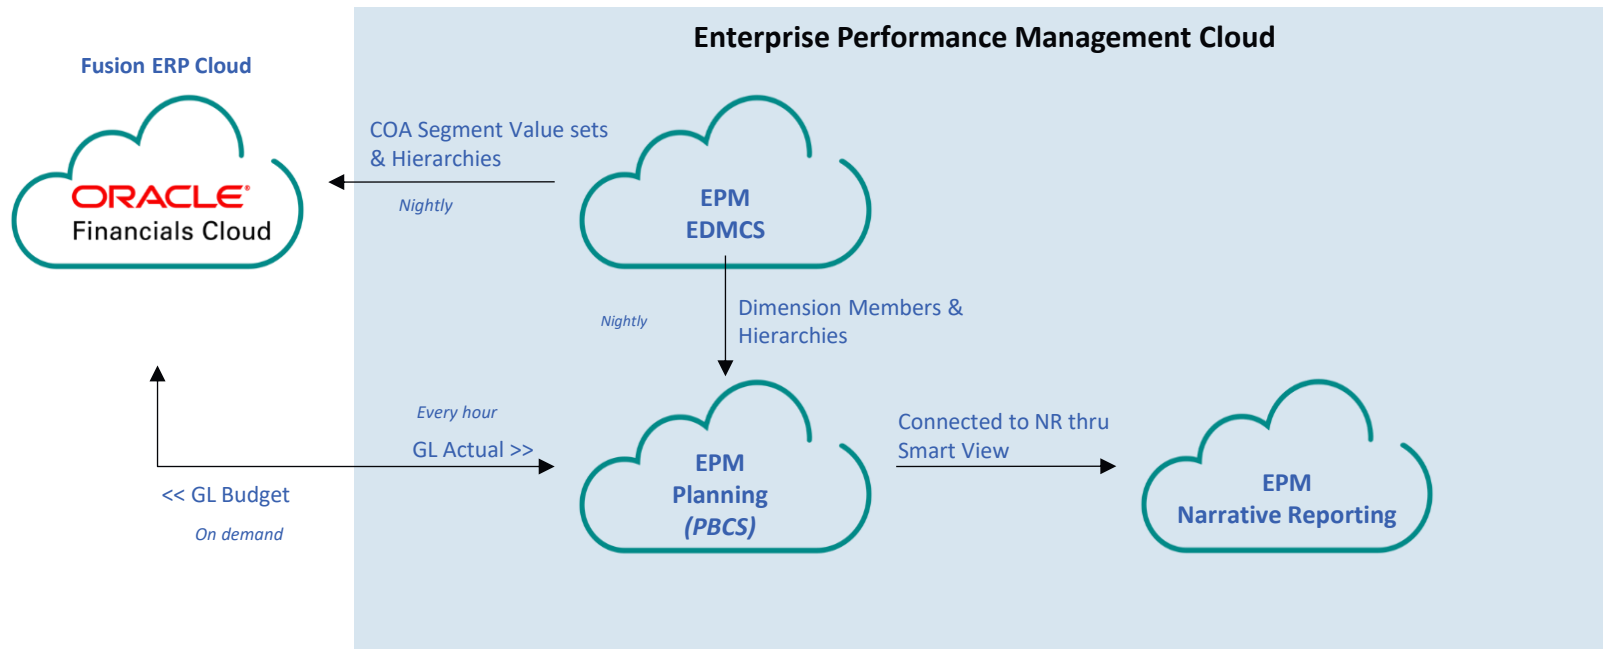

Top Solutions Implemented

Developing 40+ integrations & 70+ custom reports using OTBI and SmartView/FR Studio (EPM & ERP)

Developing solution for Statistical Reporting & calculating Census Adjusted Budget for Budgetary Control

Designing Multiple account hierarchy for effective reporting & ad-hoc analysis.

Trilogy - Overall Cloud Architecture

FINANCIAL INFORMATION

Following are some financial highlights.

*Reference to "billings" in this report means billed revenue, which differs from the term "revenue" used in the formal financial statements and SEC 20-F filing. Differences between "billings" and "revenue" result from changes in unearned revenue and non-fee billings on contracts.

Actual Sales have exceeded Forecast both in FY15 and now in January FY16. We started distributing the computer equipment lines through two new popular online stores in December FY15, which we believe has helped reach customers in the border to

Report Packages vs Reports

Report Packages

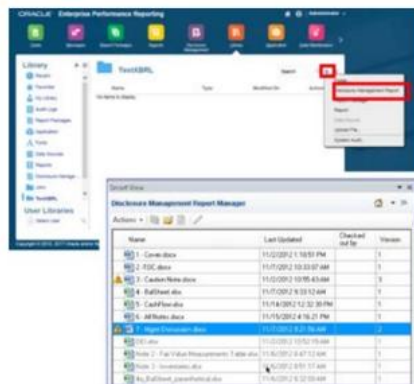

- Narrative Reporting (NR)
- Workflow and collaboration
- Integrated with SmartView
- SmartView developer Interface
- Doclets, sections, embedded content and variables

Reports

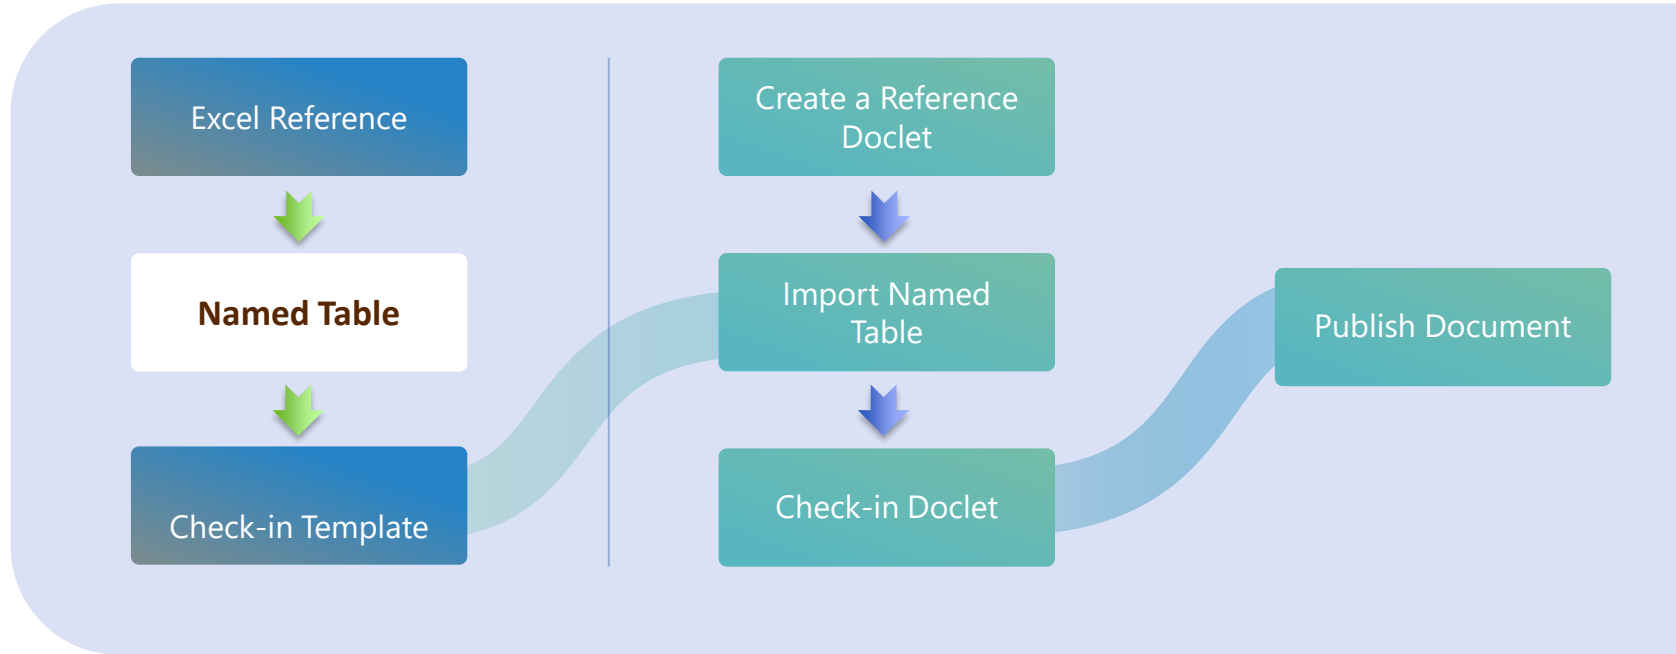

- Management Reporting (MR)
- No workflow nor collaboration
- Integrated with SmartView
- Web Interface
- Uses Grids, charts, text and images

Disclosure Management - Feature

- Provides XBRL tagging, validation, instance generation, and EDGAR in a MS Office environment
- Support for XBRL taxonomy development and management
- Formula validation support for: SEC, IFRS and XBRL
- Tax Reporting Cloud CbC Report XML file output. Allows Management Reporting to retrieve the CbC Report data from the TRCS application and transform it into a CbC Report XML file
- Included in EPM Enterprise Edition

Embedding Content

Text Content

- MS Word features (tables, charts, etc..) can be embedded for better optimal text content

10	4 Overview of Seinfeld		
	Seinfeld is an American sitcom that originally ran for nine seasons on NBC, from 1989 to 1998. It was created by Larry David and Jerry Seinfeld, the latter starring as a fictionalized version of himself. Set predominantly in an apartment building in Manhattan's Upper West Side in New York City (although taped entirely in Los Angeles), the show features a handful of Jerry's friends and acquaintances, particularly best friend George Costanza (Jason Alexander), former girlfriend Elaine Benes (Julia Louis-Dreyfus), and neighbor across the hall Cosmo Kramer (Michael Richards). It is often described as being "a show about nothing", as many of its episodes are about the minutiae of daily life.		
11			
12			
13	5 Jerry Seinfeld		
	Jerry Seinfeld – Jerry is a "minor celeb" stand-up comedian who's often depicted as "the voice of reason" amidst the general insanity generated by the people in his world. The in-show character is a slight germaphobe and neat freak, as well as an avid Superman, New York Mets and breakfast cereal fan. Jerry's apartment is the center of a world visited by his eccentric friends and a focus of the show. Plot lines often involve Jerry's social interactions and romantic relationships. He typically finds minor, pedantic reasons to break up with women, including a habit of eating peas one at a time, oversized "man hands" and an irritating laugh. Other plot lines involve his longtime enemy Newman and his overbearing relatives, whom he meets periodically.		
14			
15			
16	6 Elaine Benes		
	Elaine Benes (Julia Louis-Dreyfus) – Elaine is Jerry's ex-girlfriend and later friend. She's attractive and assertive, while also being playful, selfish and occasionally self-righteous. She sometimes has a tendency to be too honest with people (usually by losing her temper), which often gets her into trouble. She usually gets caught up in her boyfriends' quirks, eccentric employers' unusual behaviors and idiosyncrasies, and the maladjustment of total strangers. She tends to make poor choices in men she chooses to date and is often overly reactionary. First she works at Pendant Publishing with Mr. Lippman, is later hired as a personal assistant for Mr. Pitt, and later works for the J. Peterman catalogue as a glorified assistant. One of		

Seinfeld in that it was about nothing and Seinfeld played himself. The fictional Jerry was launched in the Season 4 finale, but unlike Seinfeld, it wasn't picked up as a series. Jerry is one of many examples of metafiction in the show. There are no fewer than twenty-two fictional movies featured, like Rochelle, Rochelle.

Jerry Seinfeld – Jerry is a "minor celeb" stand-up comedian who's often depicted as "the voice of reason" amidst the general insanity generated by the people in his world. The in-show character is a slight germaphobe and neat freak, as well as an avid Superman, New York Mets and breakfast cereal fan. Jerry's apartment is the center of a world visited by his eccentric friends and a focus of the show. Plot lines often involve Jerry's social interactions and romantic relationships. He typically finds minor, pedantic reasons to break up with women, including a habit of eating peas one at a time, oversized "man hands" and an irritating laugh. Other plot lines involve his longtime enemy Newman and his overbearing relatives, whom he meets periodically.

6 Elaine Benes

Elaine Benes (Julia Louis-Dreyfus) – Elaine is Jerry's ex-girlfriend and later friend. She's attractive and assertive, while also being playful, selfish and occasionally self-righteous. She sometimes has a tendency to be too honest with people (usually by losing her temper), which often gets her into trouble. She usually gets caught up in her boyfriends' quirks, eccentric employers' unusual behaviors and idiosyncrasies, and the maladjustment of total strangers. She tends to make poor choices in men she chooses to date and is often overly reactionary. First she works at Pendant Publishing with Mr. Lippman, is later hired as a personal assistant for Mr. Pitt, and later works for the J. Peterman catalogue as a glorified assistant. One of Elaine's trademark moves is her forceful shove while exclaiming "Get Out!" when she receives good, objectionable or surprising news. Another is her memorable "Little Kicks" dance move, which is

YoY Analysis

Variables in NR

- **Rollover** text: month, quarter, year, date, reporting period etc.
- Smart View **POV** members
- **Directional** text: increase, decrease, above, below etc.

Example:

- Compare two values in an Excel reference doclet then use an Excel formula to compute the directional text
- Embed directional text in narrative to streamline manual maintenance.

Earnings from Investments in Subs				
	-	-	-	-
Net Income	\$ 20,935	\$ 24,312	\$ 68,392	\$ 17,852

Notes:

- Gross revenues for the third quarter were \$488,820, which increased \$4,156 or 1% from the prior year.
- Net Income decreased \$-3,377 in the third quarter from prior year.

Directional Text

Notes Repository

- Notes allows end users to comment directly within a report
- Note templates are set up by the administrator first and then users can enter comments in the resultant report
- Notes are separate objects from reports and report grids
- Notes are tied to a specific POVs
- Notes can be recycled between reports
