SELECTED CLIENT ENGAGEMENTS & IMPACT

KMX Technologies – Industrial Technology | Startup

- Built the company's full accounting and finance infrastructure from inception as fractional CFO/Controller
- Designed and delivered monthly executive reporting packages reviewed with the CEO

- Advised leadership on accounting treatment for complex startup and operational transactions
-

Defiance Fuel – CPG / Beverage | Private Equity–Backed

- Implemented accounting infrastructure, inventory systems, and cost accounting processes
 - Built an investor-grade financial projection model used by private equity sponsors to determine funding timing and capital requirements
 - Delivered accurate product-level margin analysis to support pricing and profitability decisions
-

Organic by Nature – Manufacturing & Retail

- Stepped in as fractional CFO/Controller to stabilize operations and resolve significant accounting issues
 - Identified over **\$500K** of balance sheet distortions that misrepresented profitability
 - Uncovered margin issues by product line and cost center, enabling corrective operational decisions
 - Worked directly with auditors and lenders to ensure GAAP compliance, audit completion, and covenant reporting
-

Zip Lab Testing – Laboratory Services

- Developed a detailed three-year financial projection model required by the company's lender
 - Model was used successfully to secure external financing
-

ATS Corporation – Engineering & Automation | PE-Backed

- Served as fractional Controller overseeing all accounting operations and month-end close
 - Delivered monthly financial reporting packages to executive leadership and private equity investors
 - Supported leadership by explaining financial performance and answering investor-level questions
-

Aatmos – Hospitality & Investments

- Built a 12-month cash flow forecast to evaluate the sustainability of future operations
 - Identified upcoming liquidity shortfall, guiding leadership to proactively raise additional capital
-

Insultec – Manufacturing

- Served as fractional Controller, repairing inventory and COGS accounting through physical counts and corrected journal entries
 - Identified excessive overtime costs; supported production schedule changes that materially reduced labor expense
 - Analyzed long-term raw material inflation and supported a **5% price increase**, improving margins and profitability
 - Delivered accurate financial reporting that reflected true operating performance
-

Stella Construction – Construction & Development

- Cleaned up disorganized accounting records and delivered reliable financial statements
 - Provided leadership with clarity on performance, liquidity, and asset allocation to support strategic decisions
-

Alder – Membership / Services

- Built accounting infrastructure from the ground up, including chart of accounts, AR processes, and close procedures
 - Developed a cash flow forecasting tool that identified future liquidity constraints
 - Enabled leadership to raise capital proactively to cover temporary cash shortfalls
-

Siris USA – Government Contracting & Construction

- Served as fractional CFO/Controller for a fast-growing contractor
 - Designed monthly executive reporting and cash flow forecasting models
 - Enabled proactive funding decisions and improved vendor negotiations
-

PROFESSIONAL BACKGROUND

La Jolla Group – Accounting Manager

Led accounting operations for an international apparel company, including month-end close, budgeting, financial reporting, and team management.

Moss Adams – Senior Auditor

Planned and supervised financial statement audits, managed engagement budgets, and led audit teams across multiple industries.

United States Marine Corps – Corporal

Led small teams in high-pressure environments, enforced standards and discipline, trained junior Marines, and executed mission-critical objectives while serving as a bridge between enlisted personnel and senior leadership.
