

BONITAS

Genuine Electronic Parts

We Aggarwal Electronics, are professionally managed importers and suppliers of networking accessories, networking products and telecommunication accessories. Supported by our mutually beneficial and abiding relationship with various well established manufacturers and vendors, we specialize in supplying computer connectors and networking products. The entire range of products offered by us include connectors and terminals, switches, push buttons, cords& cables, crimping tools, networking products, PCB jacks and sockets, PCB connectors and rocker switches and plugs. Established in the year 1996, at New Delhi; we are a team of highly qualified and experienced personnel who work day and night to deliver the consignments with in the scheduled time period. The efforts of entire team has been a driving force to us and has earned us a recognition in the industry sector. Focussed towards delivering quality products, we also make sure that our products are procured from reputed manufacturers in China, Taiwan, Korea, Hong Kong and other foreign countries and thus are highly efficient and durable. Further, our reputed founder Mr. Padam Aggarwal with his experience of 40 years in this industry ensure that personal attention is given to each client. He encourages the entire team to look into details and specifications provided by the client and thus deliver the products as per their requirements. In addition, our strict adherence to deliver quality helps us in offering our clients a competitive edge. Our consistent efforts and high business as well as social ethics has earned us a long list of prestigious clients across the country. Being committed to our customers, we share an abiding relationship with all our clients.
