SOCIAL VALUE PARTNER IMPACT REPORT

COMPANY NAME

Tech-Takeback
FOUNDATION

Reusing Tech. Rebuilding Lives.

INTRODUCTION

Thank you

Thank you for generously supporting Tech-Takeback Foundation.

Every laptop you donated has found a new life with someone who might otherwise have remained digitally excluded. And your enhanced funding has also enabled us to provide Internet access and digital skills training where needed, ensuring that your donated laptops are well-used and genuinely life-changing.

Your donation goes far beyond providing technology. It helps reduce waste, bridge the digital divide and contributes to a fairer, more inclusive, and sustainable society.

Thank you for being part of this mission. This impact report has been created using recognised frameworks, and data collected from the individual(s) you've supported. The essential role your donations have played in making this work possible means that the impacts reported can be directly attributed to your organisation.

Laptops donated: 100

Laptops reused: 100

Enhanced funding: £20,000

ENVIRONMENTAL IMPACT: LAPTOP REUSE

Through reuse, your donation has saved...

6,200kg CO₂e

Scope 3 emissions

Equivalent to the carbon
absorbed by 300 trees in a year!

8,800 m³eq H₂O

Equivalent to 3.5 Olympic
swimming pools

**5,400 Kg
Chemicals**

Equivalent to the weight of sixty
adult humans!

**84,000 MJ per
year
Fossil Resources**

**30,000 kg of
mined materials**

Equivalent to the weight of ten
Asian Elephants

SOCIAL VALUE

Sohana's* Story:

When Sohana and her family arrived in the UK as refugees, they moved into an empty flat with little more than the clothes they carried. For Sohana, keeping up with the university course she'd just begun was a huge challenge. She was writing assignments on her phone or squeezing work into library opening hours.

Thanks to your support, we provided Sohana with a laptop to help her keep up with her course, stay connected to the loved ones she'd left behind, and begin online counselling to help her process what she'd been through; both the violence she'd witnessed and the upheaval of starting again in a new country. We also provided a desktop PC for the rest of her family to use.

Fast forward six months and Sohana is enjoying life at university. She uses the laptop for weekly online therapy and feels her mental health is steadily improving. She's found local and online groups for young refugees and has made new friends who understand her experiences.

The benefits are being felt across the family, too. Her siblings use the desktop for schoolwork, and her parents have been able to stay in touch with relatives in their home country. Her dad's also been doing some online training.

The laptop and PC have made a practical, immediate difference to Sohana and her whole family; thank you!

Other devices:

In addition to Sohana's laptop, 99 more laptops were donated to digitally excluded families and individuals facing situations such as homelessness, long-term unemployment, poor mental health or long-term physical health conditions. The devices have helped them access education, training, employment, health and financial services, and stay connected in the digital world.

**Name, image and some details have been changed to protect the individual's identity*
