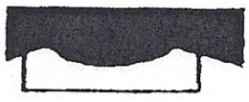
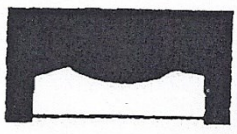
KNIFE TYPE ____1/4" FLAT BACK ____1/4" CORRUGATED BACK ____5/16" CORRUGATED BACK

1. We need a full scale 1 to 1 drawing of the molding or a 4 inch long sample.
2. Due to distortions produced by fax machines, we cannot guarantee a perfect match on prints sent by fax. If you do use a fax, please include overall dimensions, height and width.
3. A print of the knife will be sent to you for approval. Once you approve the drawing and the knife is made no refunds will be given.

T.C.K. (Top Cut Knife) cuts top of board.

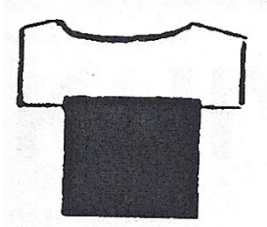


T.K. (Top Knife) cuts top and side of board.



B.K. (Bottom Cut Knife) cuts the bottom of the board.

Back Cut. Makes the back clearance cut on a board.



S.K.H. (Side Knife) As the molding is pictured it cuts the side of the molding.

2 C.K.H. Req. (2 Custom Knife Holders Required) Requires two custom knife holders.
Cannot be balanced in two single knife holders.
