Abstract

Senior Field Service Specialist with more than 15 years of international experience in turbomachinery, rotating equipment, and industrial service operations. Extensive hands-on expertise in centrifugal compressors, steam turbines, mechanical diagnostics, rotor alignment, commissioning, and major overhauls.

Proven track record in leading site activities, supervising subcontractors, coordinating outage execution, and ensuring compliance with German and international HSE standards. Recognized for technical precision, reliability under high-responsibility conditions, and strong customer interface capabilities across EMEA, LATAM, and APAC regions.

Personal data

Born on *Temuco, Chile.*

Nationality *german, chilean.*

Academic education

2008 – 2011 **Industrial Execution Technician**, *University of Los Lagos.*

1988 – 1990 **Mechanical Engineering**, *University of La Frontera.*
4 semesters.

Professional career - Germany

2018 - 2026 **HTO Field Service Technician**, *Howden Turbo GmbH, Frankenthal.*

- Inspection, maintenance, overhaul, and repair of turbomachinery and compressors.
- On-site technical support for international projects.
- Supervision of site activities in compliance with HSE and SCC standards.
- New installations, Commissioning, troubleshooting, and performance testing.
- Preparation of technical reports and service documentation.

Professional career - International

2017 – 2018 **Field Service Engineer**, *Breuer Turbo Compressors, Chile.*

- Area Manager.
- Independent Consultant.

- 2011 – 2017 **Field Service Engineer**, *Siemens Chile S.A. – Energy Sector*, Chile.
 - Major maintenance and overhaul of steam turbines and turbocompressors.
 - Technical supervision of multidisciplinary teams.
 - Execution of maintenance activities under international safety standards.
 - Technical reporting and commissioning support.
- 2010 – 2011 **Career transition**, - *Business English at Wall Street Institute, Temuco*.
