BIOGRAPHY

Detail-oriented and creative Artist with a comprehensive wide background in digital arts, including 2D video production pipelines, 3D production skills such as modeling, rigging, and simulations with a specialization in character animation, and a good experience in nonlinear media including AR and VR production. A multipotentialite with interest and experience in sound design, music composing and videography. Hady was inspired by the power of animated movies and how much thoughts and emotions can be delivered through them. While currently being a master's student in MA 3D animation for films and games at Internationale filmschule Köln in Cologne, Germany, Hady co-founded Nawwar Studio in Egypt and has worked with multiple studios and on various projects in Egypt and Germany.
