COMPANY OVERVIEW

About Us

Primeflow Group is a water purification solutions provider focused on delivering safe, reliable, and cost-effective drinking, and industrial water systems across South Africa.

With more than half a decade technical experience in the water treatment field, we aim to provide reliable, and sustainable solutions that improves water quality, essential services, and everyday operations through quality, integrity, and long-term partnerships.

The vision for Primeflow Group is to be a trusted provider of sustainable solutions that ensures safe water access, efficient services, and healthier communities across South Africa.

WHY US

The benefits we offer make your experience truly special

Reliable & Consistent

We ensure uninterrupted access to clean, and safe water.

No Upfront Capital

Our rental model removes the need for large initial investments.

Maintenance Included

All servicing, filter changes, and call-outs are covered.

Tailored Solutions

System designed specifically for your water usage and environment.

WHAT WE DO

Water Purification System Rental

Cost-effective rental solutions including reverse osmosis and point-of-use systems, with maintenance included.

Installation & Maintenance

Professional installation, filter replacements, system monitoring, and technical support.

Water Purification Consultancy

Water quality assessments, system design, and purification optimization for your facility.

Water Quality Monitoring

Real-time performance tracking & compliance support.

INDUSTRIES WE SERVE

Four key areas where we bring projects to life with care.

Industry & Mines

Durable systems built to handle high-demand industrial water needs.

Schools & Housing

Providing safe, clean drinking water for students and staff every day.

Commercial Sites

Reliable water purification solutions for offices, shops, and facilities.

Residential & Community Projects

Affordable, clean water solutions for homes and local communities.
