

# Where Livestock Counts

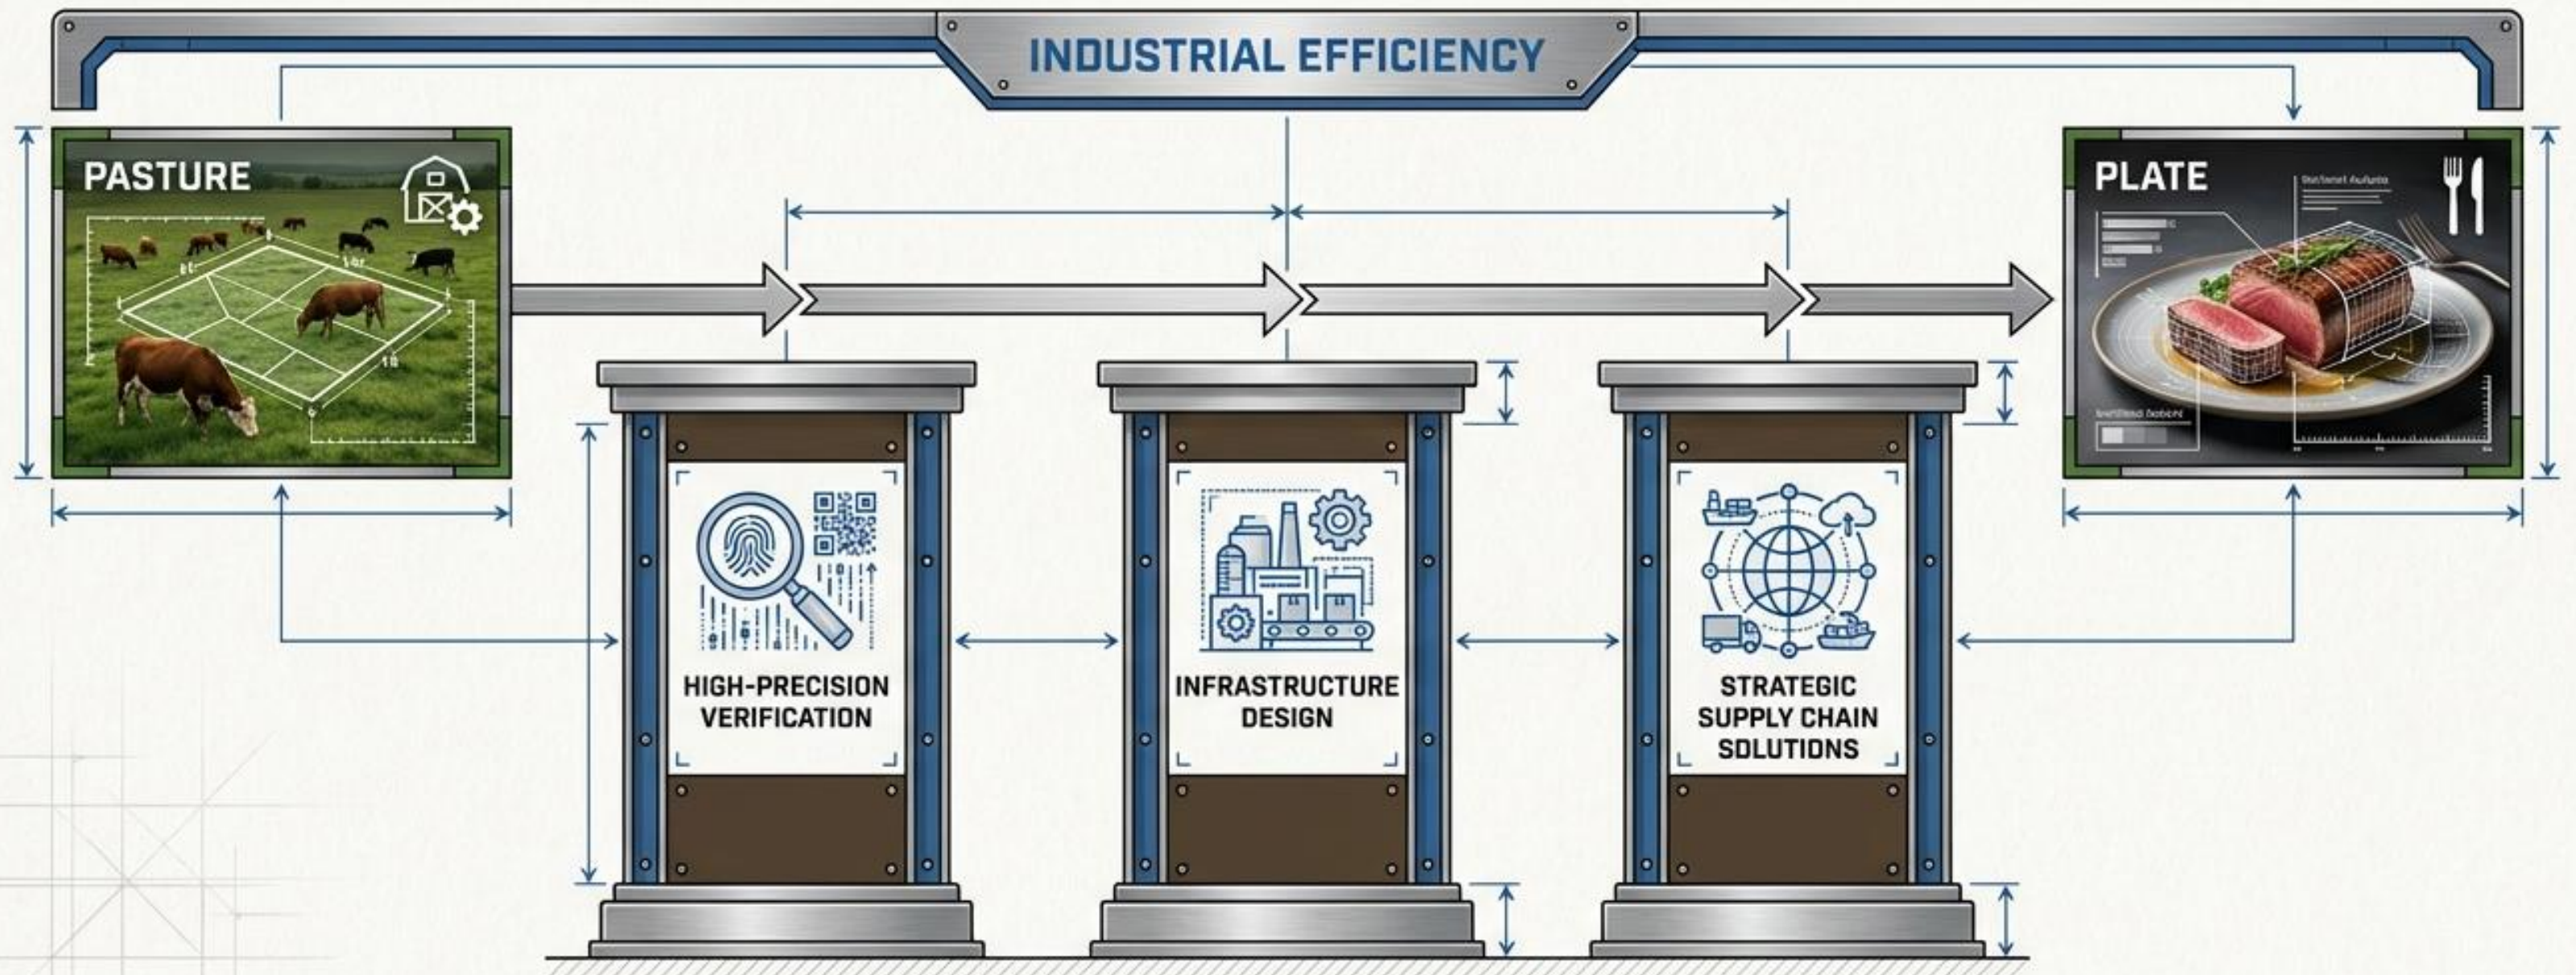

Bridging Biological Assets  
and Industrial Efficiency

# Engineering Predictability Across the Livestock Lifecycle

**AGRISTOCK** is the premier B2B technical consultancy bridging the gap between biological assets and industrial efficiency.

We ensure every stage of the lifecycle is transparent, compliant, and profitable.

# The Cost of Operating on Best Guesses

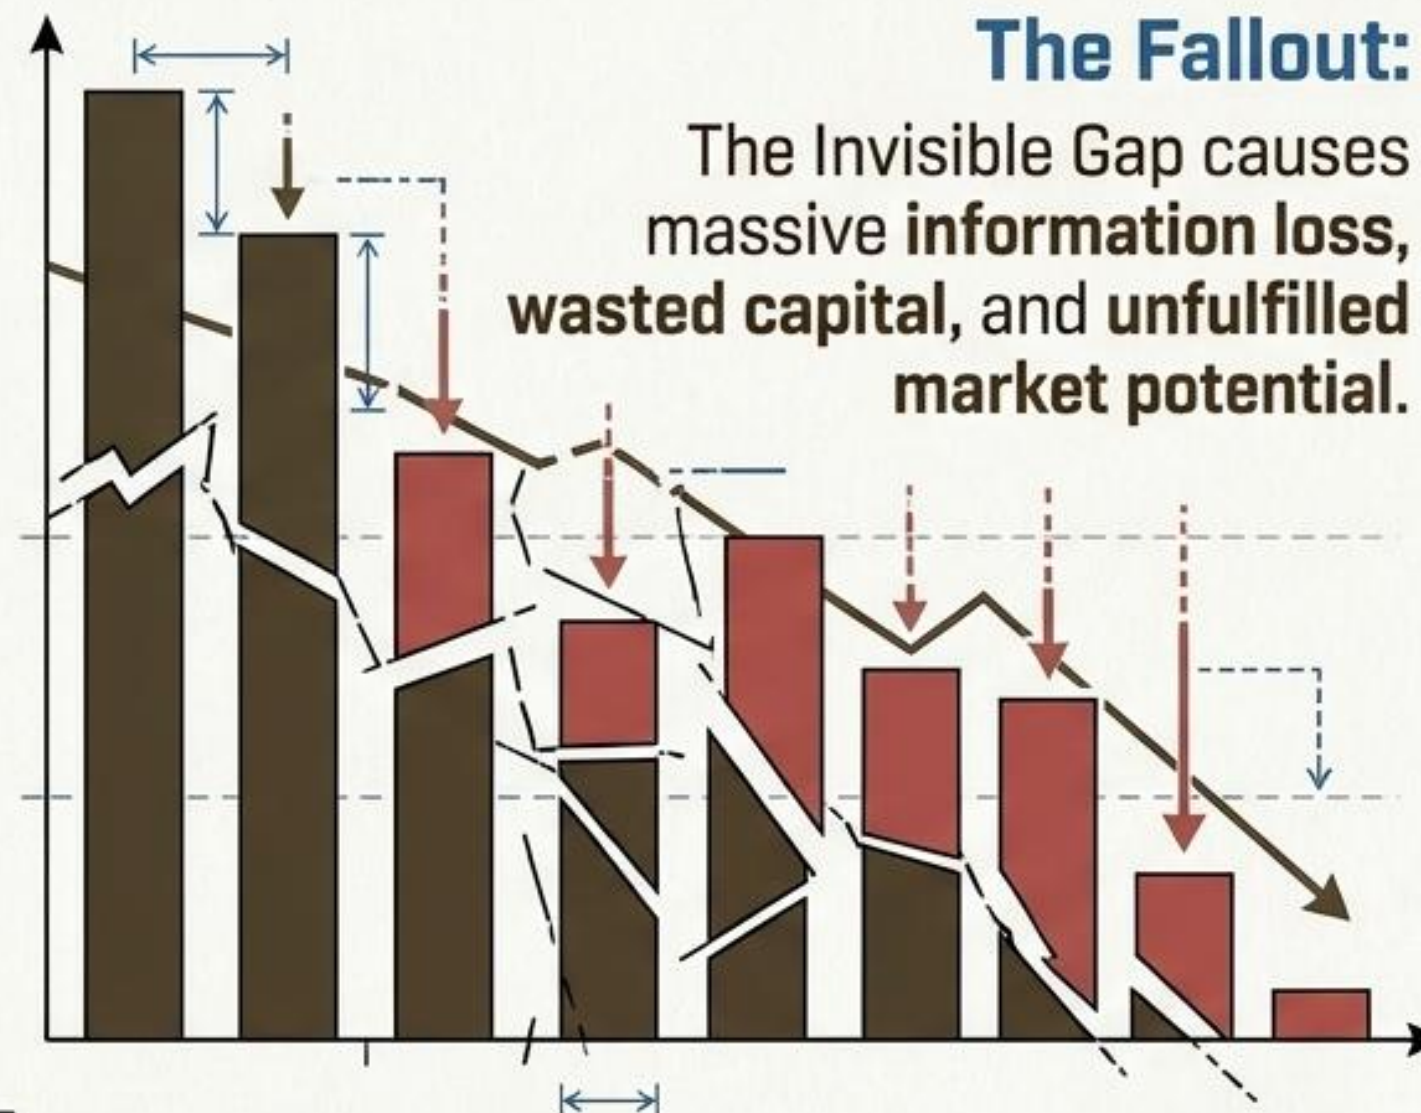

## The Diagnosis:

For decades, the industry has operated on handshakes and eyeballing, leaving it **wealthy in assets but poor in data.**

## The Fallout:

The Invisible Gap causes massive **information loss, wasted capital, and unfulfilled market potential.**

**The Solution Catalyst:** AGRISTOCK steps into these critical gaps with data, design, and discipline.

# From Handshake Agreements to Verifiable Data

## The Traditional Industry

**Eyeballing Herds**

## The AGRISTOCK Standard

**Tech-Driven  
Physical Inventory  
Counting**

**Disconnected  
Farm & Bank Data**

**Verified  
Third-Party  
Balance Sheets**

**Reactive Building**

**Architectural Flow  
& Minimized  
Animal Stress**

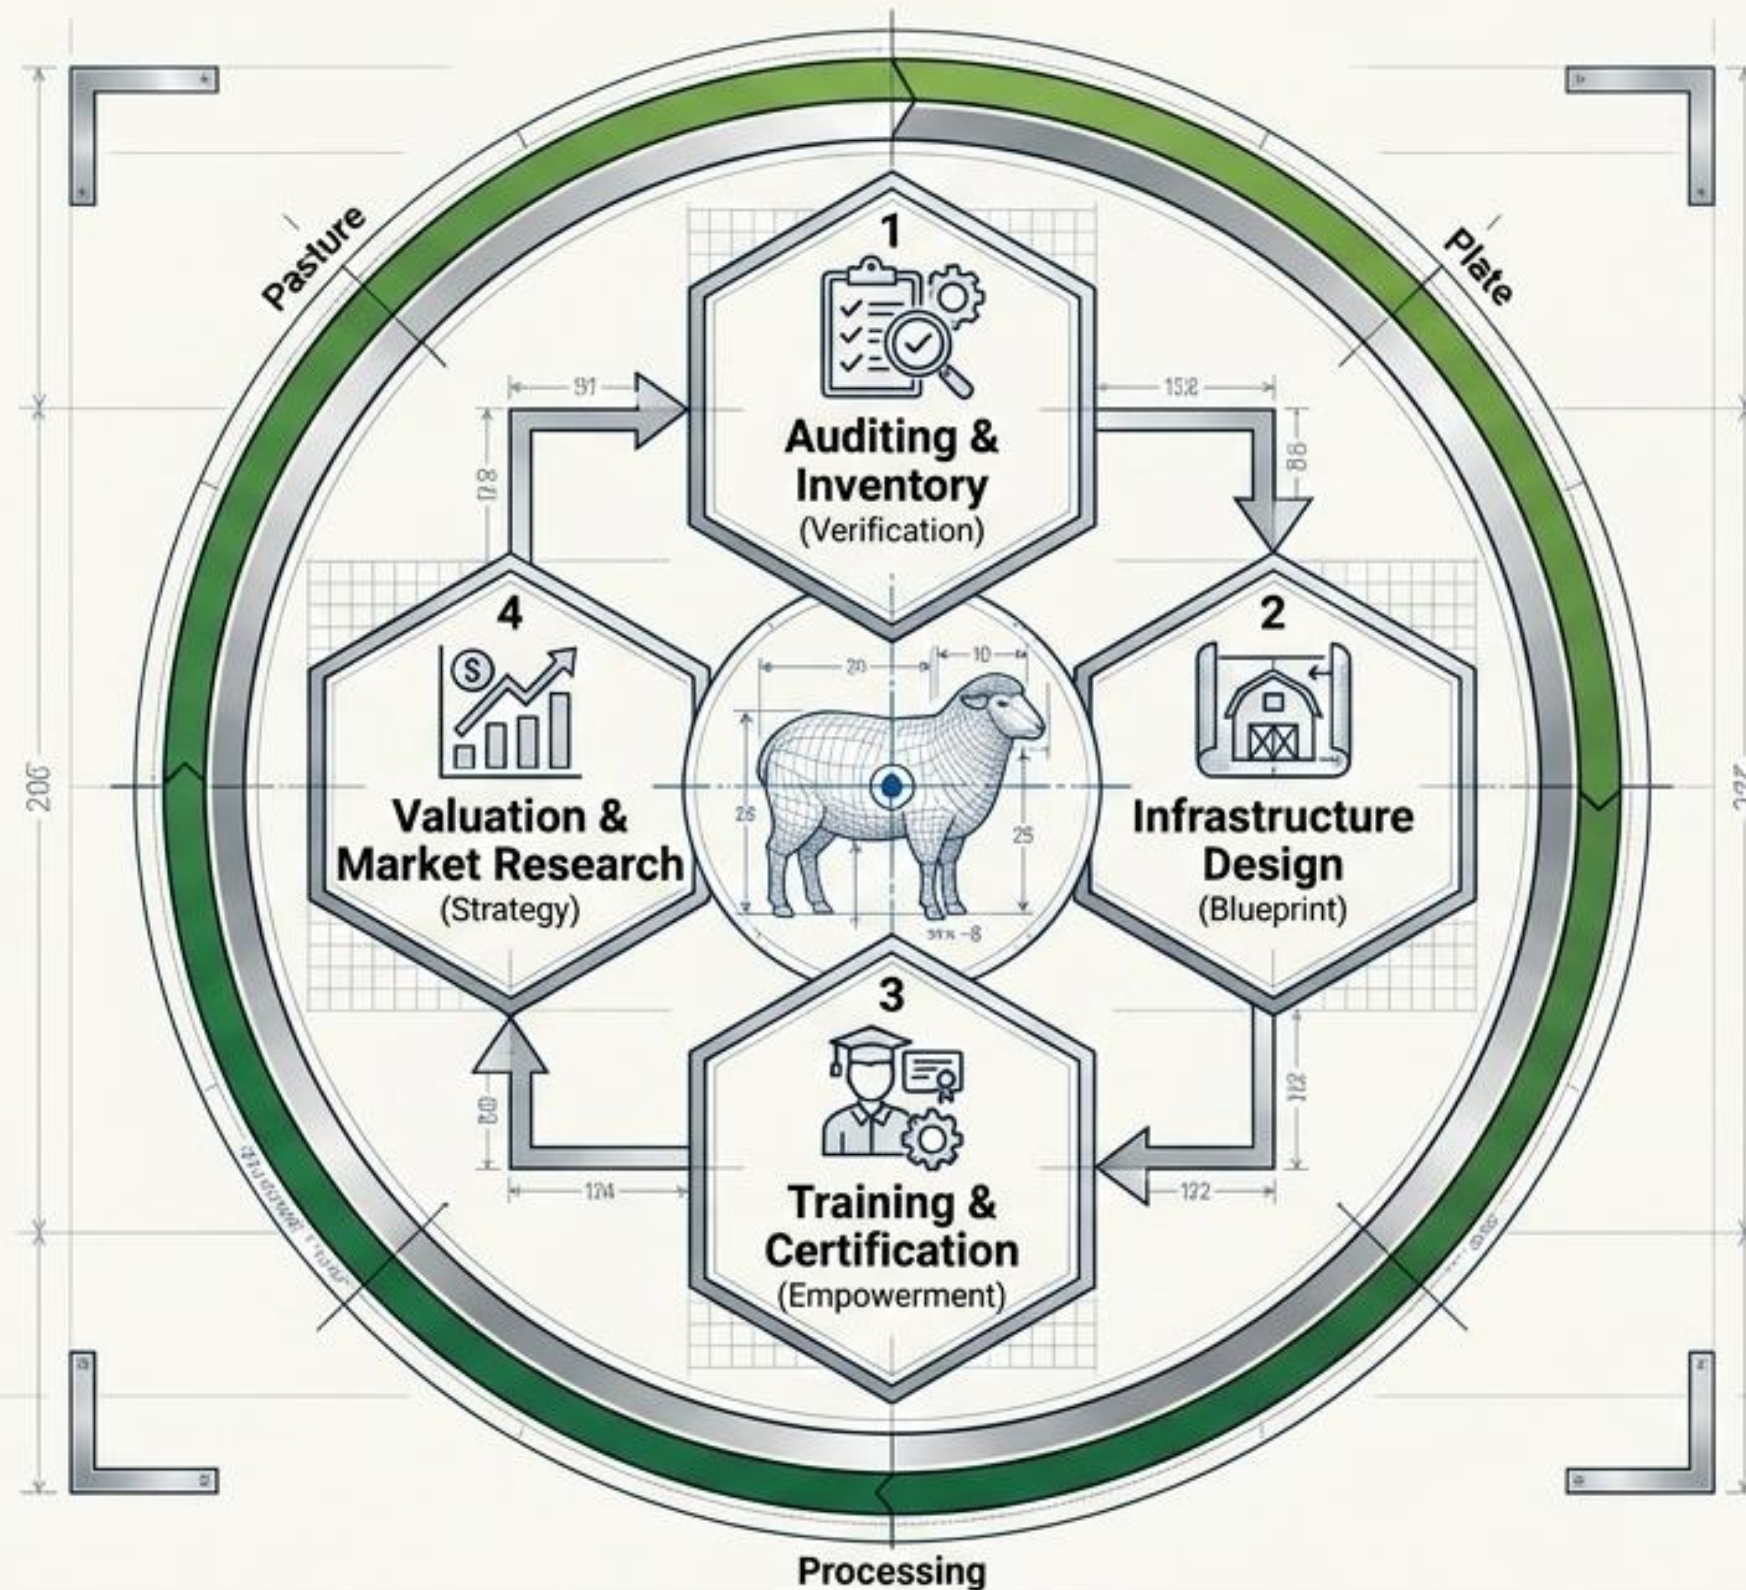

**Undefined  
Skill Levels**

**KHDA  
Accredited  
Certification**

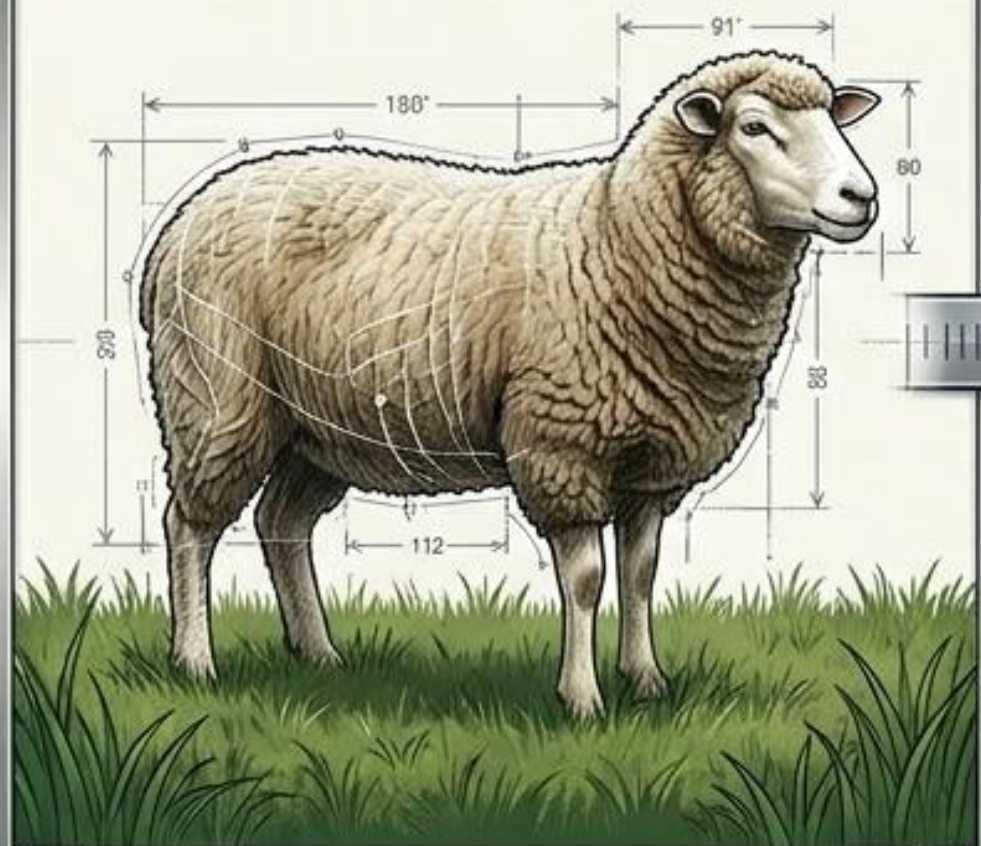

# A Continuous Loop of Value Creation

# Giving Livestock a Voice on the Balance Sheet

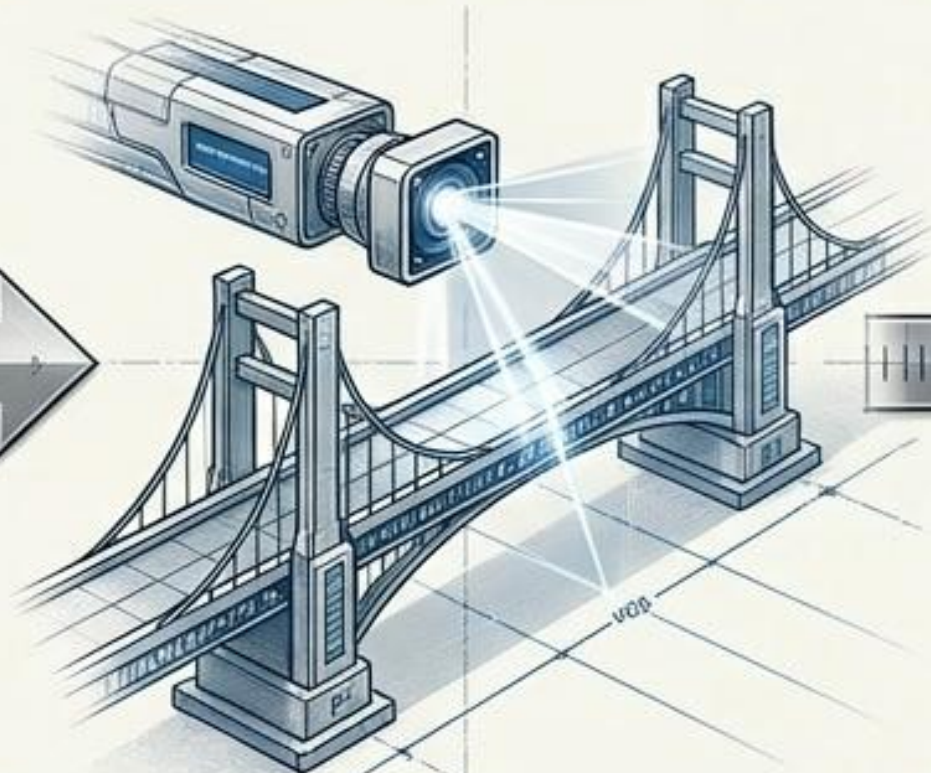

## The Truth on the Ground

## The Truth on the Ground

'Eyeballing' a herd is bad business.

## The Process

## The Process

Technology-driven inventory counting by a definitive third-party authority.

## BANKING BALANCE SHEET

Banking, January 1, 2022

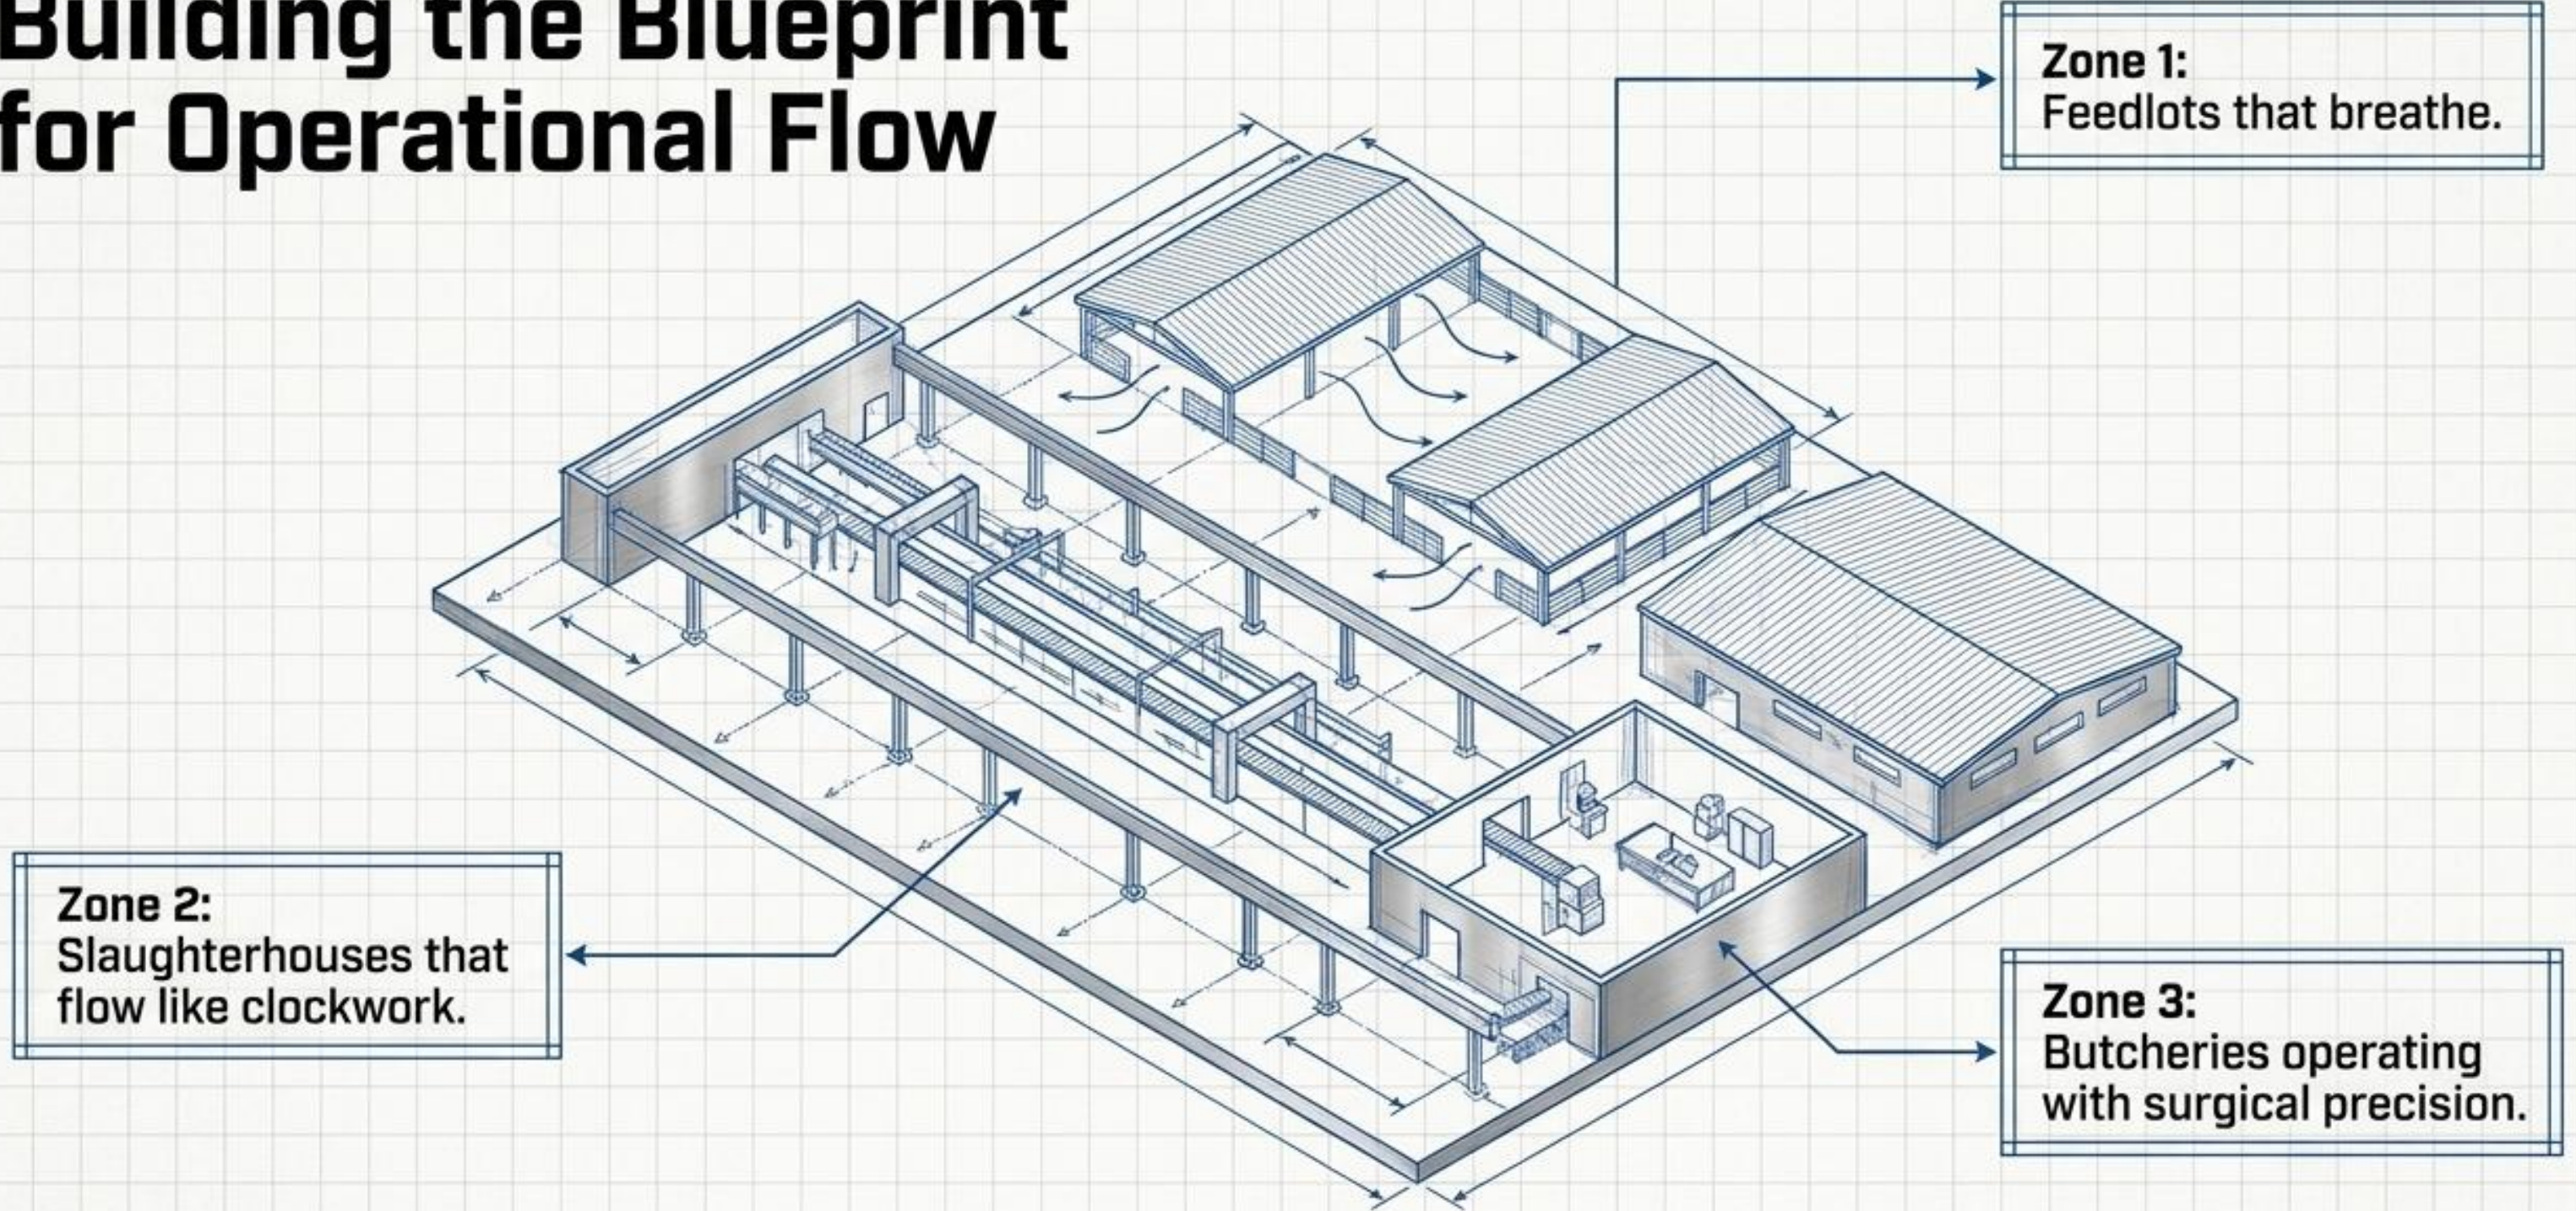

| Section:                       | Amount    | Total              |
|--------------------------------|-----------|--------------------|
| <b>ASSETS</b>                  |           |                    |
| Assets Assets                  | 5,900,000 | -                  |
| Livestock Inventory (Verified) | 2,050,000 | \$1,620,000        |
| Financial Inventory            | 150,000   | -                  |
|                                |           | -                  |
|                                |           | -                  |
| <b>TOTAL ASSETS</b>            |           | <b>\$3,490,000</b> |
| <b>LIABILITIES</b>             |           |                    |
| Liabilities                    |           | 3,200,000          |
| Liabilities Animal mortality   |           | 350,000            |
| Borne scaling liabilities      |           | 150,000            |
|                                |           | -                  |
|                                |           | 8,250,000          |
| <b>TOTAL LIABILITIES</b>       |           |                    |
| <b>EQUITY</b>                  |           |                    |
| Livestock Inventory            |           |                    |
| Livestock & Equities           |           |                    |
| Enriched Balance Sheet         |           |                    |
| <b>TOTAL ASSETS</b>            |           |                    |

## The Outcome

Bridging physical farm reality and financial reporting. Banks, investors, and farmers finally speak the exact same language.

# Building the Blueprint for Operational Flow

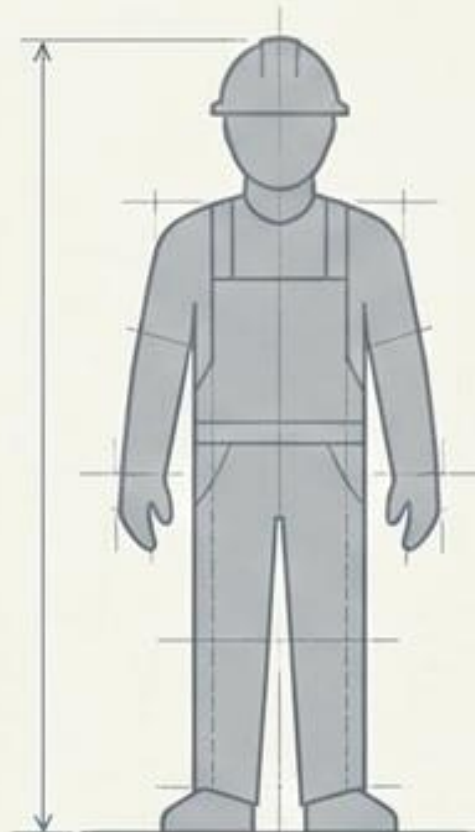

Stop waste before the first brick is laid. Minimize animal stress to maximize the bottom line.

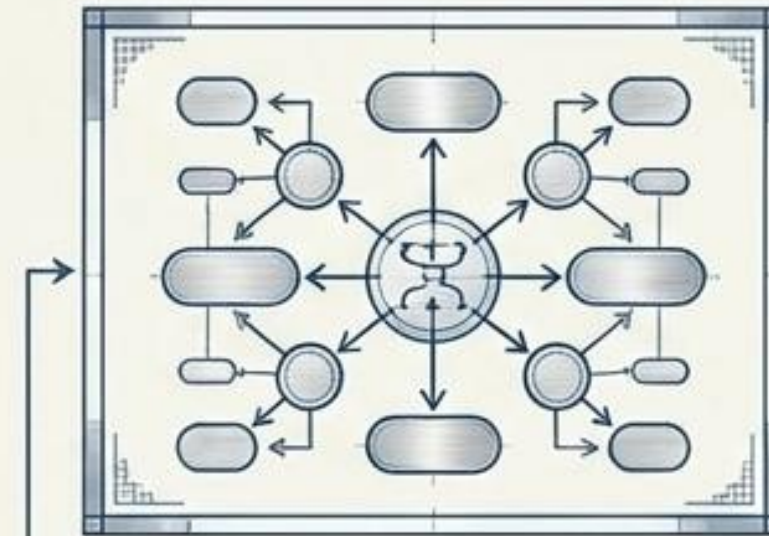

# Value is Realized at the Knife's Edge

## Programmes

The most expensive gap in the industry is a lack of skill.

Handlers

Animal-Behaviour Expert

Certified Artisan

- Maximized yield
- Maintained safety standards
- Delivery of premium products

# Strategic Intelligence for Global Market Entry

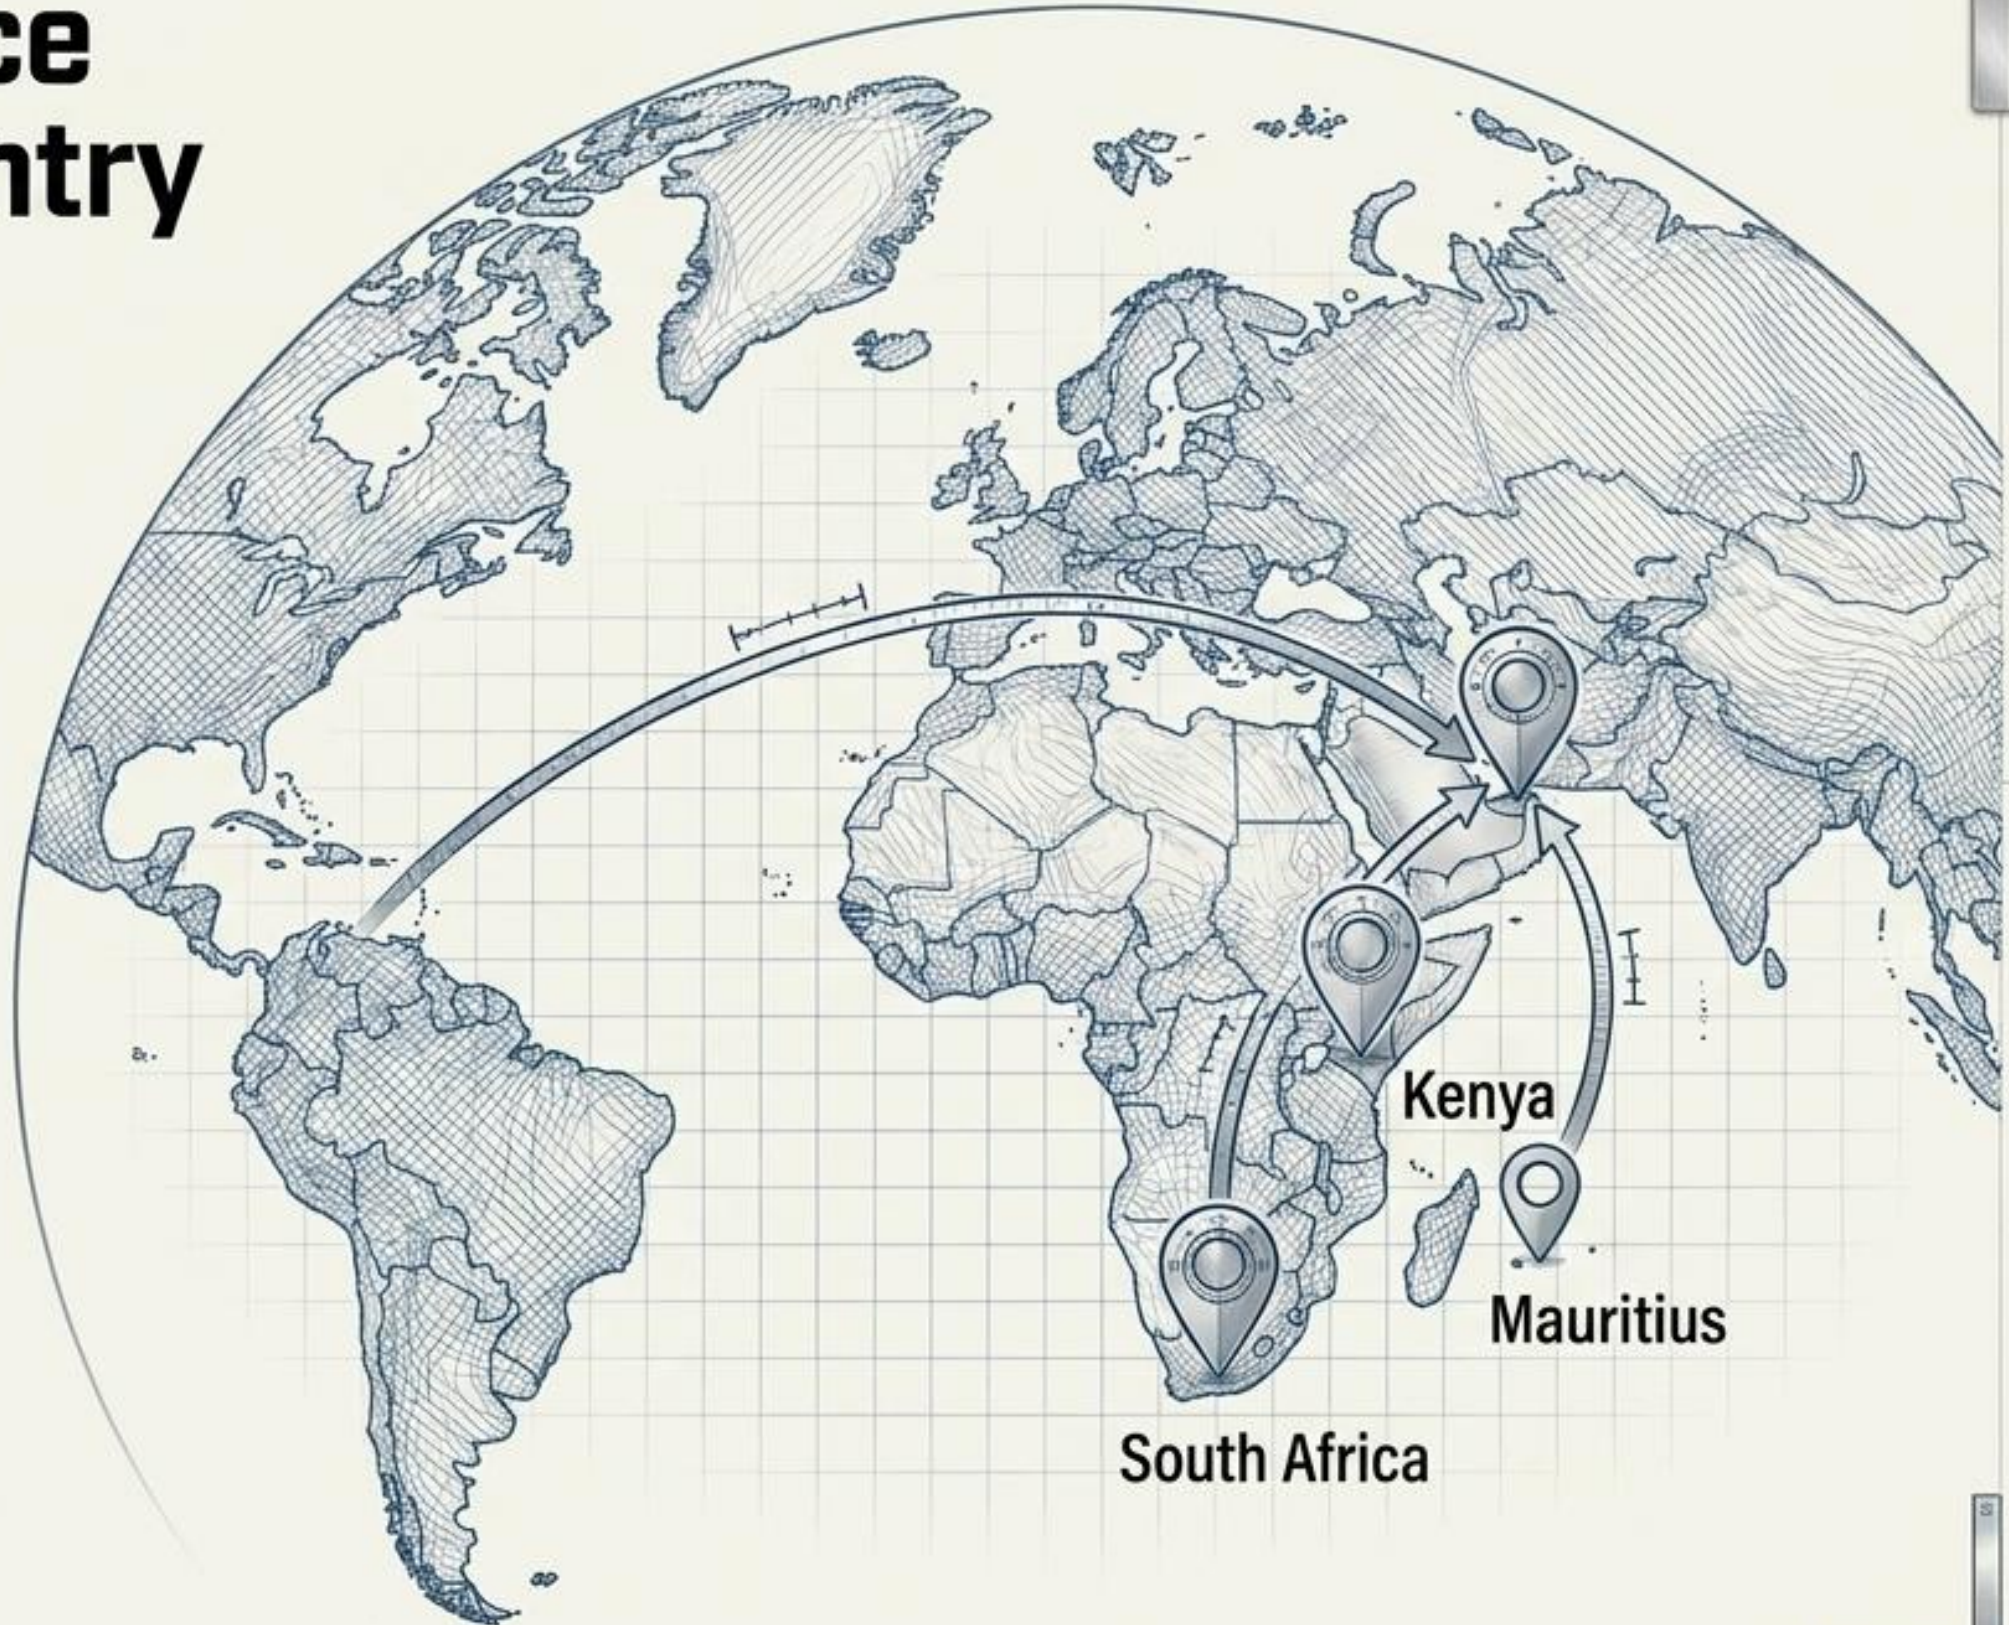

**Comprehensive  
Livestock Valuation**

**Deep-dive Business  
Analysis & Feasibility  
Studies**

**Global Market Research  
to guide financial  
planning and  
cross-border entries**

# Thirty-Five Years of Institutional Authority

The intellectual and operational backbone of AGRISTOCK. Our founder has built international supply chains from the ground up and scaled commercial meat operations.

This 35-year history provides the definitive authority behind every AGRISTOCK verification certificate and recommendation.

# Deploying Precision in Biological Assets
