

## Spring Cleanup

May 4, 2026

Dear Tahoe Residents,

As the weather warms now is the perfect time to clean up all clutter and/or trash, debris, and unsightly materials from around your home, especially around the back patios and the front of your unit.

Also, please remove snow blowers and snow shovels ASAP. We only allow properly licensed and maintained vehicles, neatly stacked/folded lawn chairs, chained bicycles kept in an orderly fashion, and garbage/recycle containers to be stored in front of the units or in carports. Once again, Charcoal Grills are banned from the property and must be removed!

Please be considerate of your neighbors and Tahoe Village property values. Let's keep Tahoe neat and clutter-free.

The association may begin issuing violations and/or fines starting May 15<sup>th</sup> for units not in compliance.

Please note - if you have areas of your lawn and/or garden which you would prefer the landscaper's do NOT touch, there will be a supply of Red Garden Flags located in a bucket in front of the clubhouse. We ask you please be considerate and only take as many as you need.

Thank you for doing your part.
