

How Is IDSeal Different?

IDSEAL VS. OTHER COMPETITORS

Your data is sealed. Most identity-protection solutions monitor your credit, but leave your identity largely exposed. Cybercriminals can still commit fraud under this model. IDSeal developed comprehensive protection - a 24/7 security perimeter around your credit, finances and life.

How Are Kids Protected?

IDEAL OFFERS PROTECTION FOR CHILDREN, TOO!

Children are easy targets for identity thieves because they never check their credit. As part of your Platinum Plus or Family Plus subscription plan, we check for fraudulent names, aliases and addresses associated with your minor child's SSN. You can even add their social media accounts to monitor for further protection!
