4D3N Danum Valley Field Centre Wildlife

Hidden deep in the untouched jungles of Sabah, the Danum Valley Field Centre (DVFC) is one of the most remarkable places to experience the wild side of Borneo. Surrounded by 438 square kilometres of protected lowland rainforest, this is a sanctuary where time seems to stand still and nature takes centre stage.

Here, towering dipterocarp trees form a lush green canopy, rivers flow clear and cool, and wildlife roams freely. It's one of the best places in the world to spot orangutans, gibbons, pygmy elephants, hornbills, flying squirrels, and even the elusive clouded leopard.

Staying at the Field Centre

Unlike a typical lodge, Danum Valley Field Centre is both a research base and a visitor's retreat. Guests can choose from basic dormitories, resthouses, or private chalets, surrounded by the sounds of the rainforest. Staying here gives you a rare chance to share the same grounds as scientists and conservationists studying the secrets of this ancient forest.

Activities & Highlights

Jungle Treks - Explore trails that wind through pristine rainforest, from gentle walks to adventurous hikes.

Night Safaris & Walks - Venture out after dark to spot slow lorises, civets, deer, and other nocturnal creatures.
