## ISSCO and Industrial Brands

### A Partnership of Leadership

Industrial Sales and Service Co. (ISSCo) stands as a beacon of comprehensive industrial solutions in Odisha, aiming to be the largest industrial hub in the region. With a vision that stretches across the expanse of multiple industries, ISSCo is committed to the growth and development of Odisha by providing top-tier industrial products and services. ISSCo proudly distributes a diverse range of products from renowned brands including Bosch Power Tools Division, Taparia Hand Tools, J. K. Fenner V Belt, Ador Welding Ltd, SKF Industrial Parts Supplier, Karcher Cleaning System Ltd, Graco Airless Spray, ARB Bearings Ltd, Panasonic Smart Factory Solutions Ltd, Mitsubishi Power Transmission Ltd, Pidilite MRO Division, Mangalam Welding, and Superon Welding.

Embodying the motto "One Vision - One Commitment - One Drive," ISSCo is dedicated to delivering excellence and fulfilling the needs of various sectors through a single, unified approach. By harnessing the strengths of multiple brands, ISSCo ensures a seamless and efficient service experience, positioning itself as the cornerstone of industrial advancement in Odisha.

# Meeting Every Mission Critical Need

**When excellence is a habit and precision is a pre requisite, the resulting solution are nothing short of transformational.**

Our in-depth industry knowledge enables us to deliver tailored solutions for a wide range of industries including power, cement, mining, construction, ports and logistics, pulp and paper, steel, oil and gas refinery, automotive, engineering, mining and many more. With state-of-the-art infrastructure, a competent workforce and expansive reach, we take pride in providing insightful solutions while adhering to strict deadlines.

Industrial Sales and Service Co is an Authorised Distributor for Taparia Tools in Odisha, offering the complete range of high-quality hand tools trusted across industries. Taparia Tools began manufacturing in India in 1969 in technical collaboration with a reputed Swedish company, adopting advanced technology and rigorous quality control from the very start. With state-of-the-art manufacturing facilities in Nashik and Goa, Taparia produces tools that meet or exceed U.S. Federal, Indian, British, and German standards. Over the decades, Taparia has earned awards for export excellence and established a strong presence both in India and overseas.

### Taparia Product Range

- Adjustable Wrenches (chrome plated, phosphate finish, soft grip)
- Screwdrivers: Flat tip, Electrician, Phillips, Torx, Sets, Line Testers, Two-in-One
- Pliers: Combination, Side Cutting, Long Nose, Circlip, Water Pump, Pincers, Vice Grip
- Tool Sets & Kits
- Ball Pein, Cross Pein & Claw Hammers
- Forged C-Clamps/Chisels (incl. pneumatic)
- Double-ended, Ring & Combination Spanners
- Punches (various types)
- Pipe Wrenches – Stillson & Swedish pattern
- Truck Wheel Wrenches
- Sockets & Accessories ( $\frac{1}{4}$ ",  $\frac{3}{8}$ ",  $\frac{1}{2}$ ",  $\frac{3}{4}$ ", 1" drive)

## Introducing our Odisha No 1 Distributor - **ISSCO**

Industrial Sales and Service Co. is the largest authorized industrial distributor of Ador Welding in Odisha, boasting unparalleled expertise in the welding domain and a comprehensive understanding of the Ador ecosystem. Their vast inventory ensures that all products from Ador are available at all times, providing seamless access to quality welding solutions for their clients. Further solidifying its market dominance, the company achieved an impressive \$60 million in sales last year alone. With a consistent year-on-year growth rate of 30%, Industrial Sales and Service Co. continues to expand its reach and enhance its robust product offerings, ensuring that it remains at the forefront of the industrial welding sector in the region.

## FOCUS ON INDUSTRIAL BEARING SOLUTIONS

SKF (Svenska Kullagerfabriken), founded in 1907 in Sweden, is a global technology leader in bearings, seals, lubrication systems, and industrial solutions. With operations in over 130 countries and more than 17,000 distributor locations worldwide, SKF has built its reputation on quality, innovation, and reliability.

SKF is not just a bearing manufacturer - it is a solution provider that supports industries in reducing friction, improving energy efficiency, extending machinery life, and lowering maintenance costs.

### Why Choose SKF with ISSCO?

- Guaranteed genuine SKF products
- Wide range of bearings in ready stock
- Expert guidance in selecting the right bearing for your application
- Strong after-sales support and service
- Competitive pricing for bulk and project requirements

### SKF Bearing Types Available

- Deep Groove Ball Bearings
- Angular Contact Ball Bearings
- Self-Aligning Ball Bearings
- Cylindrical Roller Bearings
- Spherical Roller Bearings
- Tapered Roller Bearings
- Thrust Bearings
- Needle Roller Bearings

## PROFESSIONAL FOR COMMERCIAL AND INDUSTRIAL USERS

- High pressure washer
- Hot and cold pressure washer
- Commercial vacuum cleaner
- Industrial vacuum cleaner
- Single disc machine Scrubber drier
- Steam cleaner
- Manual and ride on sweeper
- Carpet and upholstery cleaner
- Hand scrubber

### Karcher Technology

- EASY!Force Technology : Reduces operator fatigue by eliminating the need for continuous pressure on the trigger, making high-pressure cleaning more comfortable and less strenuous.
- eco!efficiency Mode : Significantly cuts energy and water usage, reducing operational costs and environmental impact.
- Innovative Filtration Systems : Advanced filter technology in vacuum cleaners ensures consistent suction power and longer operation times.
- Quick Connect System : Allows for fast and easy attachment changes, enhancing productivity and convenience.
- Fast Service : Issco serves all pincodes of odisha with experienced trained personnel and all time spares availability

## QUALITY PRODUCTS FOR PROFESSIONALS

Graco is a global leader in spraying and fluid handling solutions, offering reliable and efficient equipment for industrial and construction needs. Its airless spray systems ensure smooth, uniform coatings with speed and reduced wastage. Protective and polyurea coating systems provide durability against corrosion, abrasion, and chemicals. Graco also leads in waterproofing and fireproofing solutions, delivering consistent, long-lasting protection for buildings and infrastructure. With advanced spray foam equipment, it enables energy-efficient insulation, while its line marking systems offer precision and durability for roads, airports, and sports grounds. Graco ensures performance, reliability, and superior results across industries.

## ISSCO & ARB

### A Partnership of Leadership

Founded in 1990 in Delhi, ARB Bearings has evolved from a private company to a public limited entity with a global presence across five continents and over 350 dealers. Known for its innovation, ARB continually adopts advanced technologies, expanding its product range to include Taper Roller, Spherical, Cylindrical, Ball, UCP (Pillow Block), and Self Aligning Ball Bearings, as well as launching Pro Clutch brand Clutch Plates and automated production lines. With a robust export network, ARB serves North and South America, Europe, Africa, Asia, and the Middle East, doubling its production capacity by 2004 to 12 million bearings annually. ARB's commitment to quality and customer satisfaction is reflected in its rigorous product testing, international standard compliance, and the provision of customized bearing solutions. The highly skilled R&D team ensures excellence at every production stage, solidifying ARB's reputation as a leader in the bearing industry.

## LEADING DISTRIBUTOR ISSCO MANGALAM 6013 WELDING ELECTRODE ODISHA 25 TONS SOLD MONTHLY

Mangalam Welding Electrodes, renowned for their superior quality and reliability, are a cornerstone in the welding industry, particularly the 6013 grade, which is the largest selling 6013 electrode in the Indian market. As the biggest distributor of Mangalam Welding Electrodes in Odisha, we are proud to facilitate the sale of 10 tons of 6013 electrodes monthly. These electrodes are favored for their excellent welding performance, easy slag removal, and smooth arc characteristics, making them ideal for a variety of welding applications. Our extensive distribution network ensures that customers receive consistent and timely supplies, reinforcing our position as the leading provider of Mangalam Welding Electrodes in the region.

### Mangalam Welding Rods Overview

- Mangalam 6013 Welding Rods
- Mangalam 7018 Welding Rods
- Mangalam Hardfacing Welding Rods

**MIG Wire** - Mangalam MIG Wire is a premium Double Deoxidized Copper Coated Carbon Steel MIG Filler Wire designed for MIG/MAG welding. Known for its superior feedability and smooth arc performance, this wire ensures high-quality welds with minimal spatter. It is ideal for welding mild and low alloy steels, offering excellent mechanical properties and a clean finish. The copper coating enhances corrosion resistance and electrical conductivity, making it a reliable choice for both industrial and automotive applications. As a top-selling product, Mangalam MIG Wire is trusted for its consistent performance and efficiency in various welding environments.

**Mangalam Accessories** - The newly launched Mangalam Cutting Wheel and Grinding Wheel Flap Disc are designed to deliver exceptional performance and durability. These tools are crafted with high-quality abrasives, ensuring fast and precise cutting and grinding across a range of materials, including metals and alloys. The cutting wheel offers superior cutting speed and longevity, while the flap disc provides a smooth finish with excellent material removal rates. Ideal for both industrial and DIY applications, these products enhance efficiency and productivity. Mangalam's latest offerings are set to become indispensable tools for professionals seeking reliable and efficient cutting and grinding solutions.

WELDING  
ACCESSORIES

Superon Stainless Steel Welding Electrodes 308L and 309L are premium-quality electrodes designed for welding various grades of stainless steel, including 304 and 316. These electrodes offer exceptional performance, providing excellent weldability, superior resistance to corrosion, and high strength in the welded joints. The 308L electrodes are specifically formulated for welding austenitic stainless steels with low carbon content, while the 309L electrodes are ideal for welding dissimilar metals and overlaying applications. With their stable arc characteristics and minimal spatter, Superon Stainless Steel Welding Electrodes 308L and 309L ensure smooth and precise welding operations, making them the preferred choice for demanding applications in industries such as fabrication, construction, and automotive.

Panasonic offers a comprehensive range of advanced welding solutions, including welding robots and welding machine models, catering to diverse industrial needs. The Panasonic Welding Robots are renowned for their precision, efficiency, and reliability in automated welding processes. With cutting-edge technology and innovative features, these robots ensure high-quality welds with consistent accuracy and speed, enhancing productivity and reducing labor costs. Among the notable welding machine models are the YD 400AT3DJR, YD 400AT3DJT, YD 400RX1, and YD 400 KR11. These models are engineered to deliver superior performance in various welding applications, offering versatility, ease of operation, and unmatched welding quality. Additionally, Panasonic's Plasma Welding PS 60 system stands out for its exceptional precision and control, enabling precise and efficient welding of thin and delicate materials. With Panasonic's welding solutions, industries benefit from enhanced productivity, improved weld quality, and reduced operational costs, reaffirming Panasonic's reputation as a leader in welding technology.

## World-class Welding Quality at Your Doorstep

- Panasonic Smart Factory Solutions India has set-up its state-of-the-art manufacturing facility in Jhajjar, Haryana, India. So our globally proven range of welding equipment including MMAW, MIG/MAG, TIG, Plasma Cutting, Welding Accessories, and Welding Robots are now available at your doorstep.
- Assured commitment to long-term product support in terms of Sales, Services and Spares.

## "MITSUBOSHI Classical V-Belts: Superior Performance and Reliability for Industrial Power Transmission"

MITSUBOSHI Power Transmission's Classical V-Belts are renowned for their superior performance and reliability in a wide range of industrial applications. Designed with high-quality materials, these V-belts offer exceptional durability, flexibility, and resistance to heat, oil, and abrasion, making them ideal for heavy-duty machinery and equipment in industries such as agriculture, automotive, mining, and manufacturing. The unique selling proposition (USP) of MITSUBOSHI Classical V-Belts lies in their advanced design and construction, which ensures optimal power transmission efficiency, reduced slippage, and longer service life, resulting in enhanced operational efficiency and reduced maintenance costs. Their precision-engineered profiles provide excellent grip and stability, making them a trusted choice for critical power transmission applications worldwide.

### Types of Belts

- Classical V-Belts
- Raw Edge V-Belts
- Cogged V-Belts
- Banded V-Belts
- Variable Speed V-Belts
- Timing Belts
- Double V-Belts
- Automotive V-Belts

These V-belts are engineered to deliver reliable and efficient power transmission across a broad spectrum of industrial and automotive applications, ensuring optimal performance and longevity.

# An Inventory to Meet Every Need

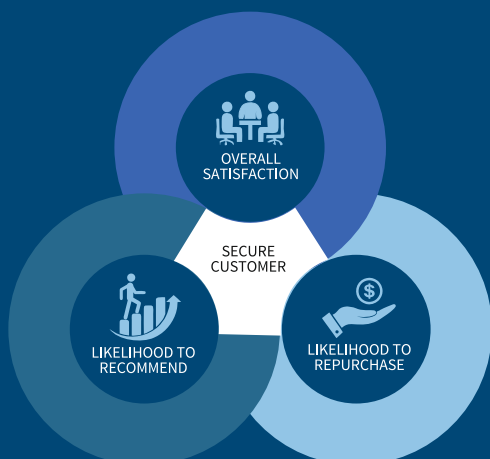

At ISSCo, we recognize the importance of readiness and efficiency in serving our customers. To ensure that we can meet every demand promptly, we maintain bulk stocking points at all our branches across Odisha. This strategic approach allows us to keep a comprehensive inventory of essential industrial products, including power tools, welding electrodes, bearings, V-belts, and more, readily available. This robust stocking system is designed to support the needs of large-scale industries and various other clients, ensuring that we can deliver the right products at the right time. Our commitment to maintaining a well-supplied inventory is a cornerstone of our strategy to serve our customers better and uphold our promise of "One Vision - One Commitment - One Solution."

By implementing this extensive inventory strategy, ISSCo significantly enhances its operational efficiency and customer service. Our well-stocked branches across Odisha are not just storage points but crucial hubs that empower us to respond swiftly to urgent requests and maintain the flow of supplies without interruption. This readiness is especially vital in an industrial landscape where time and reliability are of the essence.

Moreover, our approach to inventory management is deeply integrated with our understanding of the specific needs of the industries we serve. Whether it's a sudden requirement for high-performance power tools or a bulk order of durable welding supplies, ISSCo is equipped to handle these demands efficiently. Our inventory practices are aligned with our vision to be the largest industrial hub in Odisha, ensuring that we are more than just suppliers—we are strategic partners in the growth and success of every industry we serve. Through this proactive and customer-centric approach, ISSCo is setting new standards in the realm of industrial service and supply.
