Secretary, Today's Kalam
Foundation

- Full Timers – 5
- Active Volunteers – 30+
- Event Based Volunteers – 1000+
- Voluntary Doctors - 20
- Corporate Partners - 5

KALAM CENTERS

Hyderabad, a major IT hub, also faces significant challenges with child labor, particularly in its slum areas. Children, some as young as 5, are employed in various sectors, including jewelry-making, construction, and domestic work. A 2011 UNICEF report highlighted that approximately 96,892 children aged 5–14 were engaged in labor within the Greater Hyderabad Municipal Corporation limits, marking a 9.2% incidence rate.

To address this, our organization, supported by five employees and over 50 volunteers, identifies out-of-school children in slum areas. Undergraduate and postgraduate mentors establish Kalam Centres in local halls, each empowering 30 children. Currently, we operate 15 such centers, benefiting over 450 children daily. These centers offer daily two-hour sessions focusing on literacy, numeracy, health, hygiene, nutrition, and career counseling. Additional activities include self-defense training, sports, vocational skills, and extracurriculars. We ensure children stay informed on current affairs, technological advancements, and maintain daily attendance records. This initiative aims to provide educational opportunities and combat issues like child labor and early marriage in the community.

KALAM CLINIC

Kalam Hospital is a service-oriented institution, and the main aim is to treat patients at minimum cost. On average, 25 to 30 patients utilize the hospital's services each day. The services provided by our hospital include treatment for fever, cold, cough, viral fevers, typhoid, skin-related cases, gynecological cases including monthly check-ups for pregnant women, and pediatric care. Additionally, we provide medicines and lab tests at discounted rates. Furthermore, between April 2024 and March 2025, over 1,000 patients benefited from the Free Kalam Clinic at Attapur, receiving essential healthcare services at no cost.

kalam clinic, our health initiative successfully distributed essential medications to community members in the underserved regions of Hyderabad. The distribution included antibiotics, pain relievers, and vitamins. Community members actively participated in the process, ensuring that medications reached those in need. This initiative resulted in a noticeable improvement in health outcomes, with a 30% reduction in reported illnesses among participants.

SKILL DEVELOPMENT

Kalam Foundation has empowered women from urban slums in the Old City of Hyderabad by providing skill development training in bangle making and embroidery. From April 2024 to March 2025, around 90 women from Shaheen Nagar and Bahadurpura participated in this program, gaining valuable skills to become financially independent. By learning these crafts, the women are now able to earn a livelihood, support their families, and live a more dignified life. This initiative has significantly improved their quality of life.

PINK RUN MARATHON

Kalam Foundation participated in the Pink Run event organized by MEIL Company in September to raise awareness about breast cancer. With 800 students taking part, the event aimed to promote early detection and prevention of breast cancer. The foundation's involvement helped spread awareness and encouraged community engagement in health initiatives.

CELEBRATION OF NATIONAL FESTIVALS

The Kalam Foundation celebrates national festivals like Independence Day and Republic Day with women beneficiaries in Old City, Hyderabad. These events foster community engagement, empower women through cultural programs, workshops, and discussions, and highlight their vital role in shaping the nation, promoting unity and national pride among participants.

SCHOOL KITS DISTRIBUTION

The Kalam Foundation distributed school kits to 300 children at its tuition centers in Old City, Hyderabad. This initiative aimed to support the educational needs of underprivileged students, providing them with essential tools like stationery, books, and bags. It empowers the children to pursue their studies with greater confidence and enthusiasm.

RATION KITS DISTRIBUTION

The Kalam Foundation distributed ration kits, including groceries and household essentials, to over 200 victims of the Musi Beautification Project in Hyderabad who lost their homes. This initiative provided much-needed support to the affected families, helping them meet their basic needs during a challenging time and promoting community welfare.

EVENTS

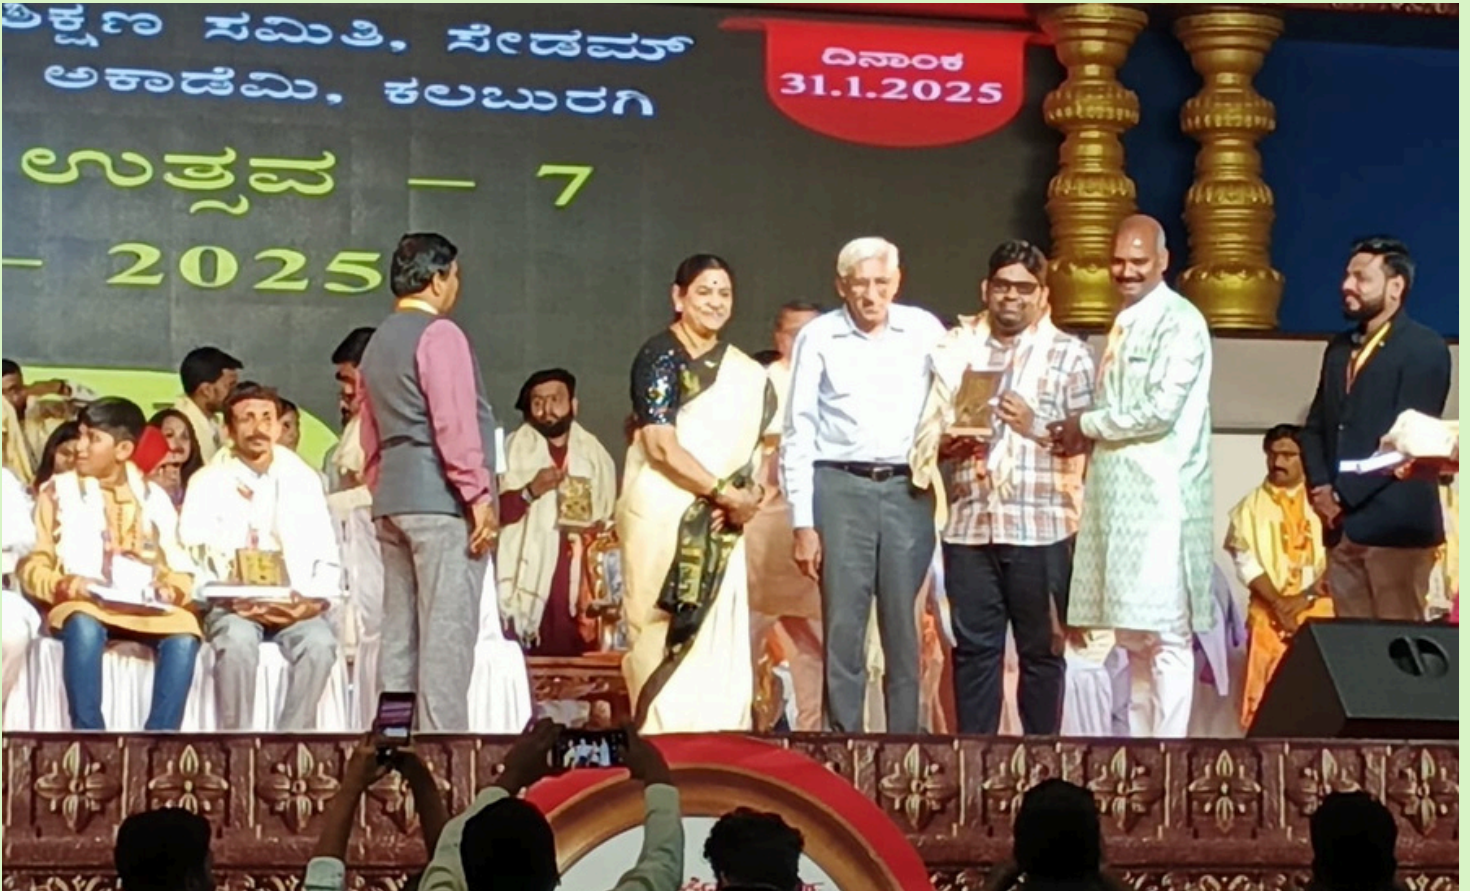

Kalam Foundation associates attended the HSSR Fair at Nampally and the Bharatiya Sanskriti Utsav at Sedam, Gulbarga, where they set up stalls showcasing bangle-making activities. The stalls highlighted traditional craftsmanship, promoting local artisans and providing visitors with a hands-on experience of the art, while celebrating cultural heritage.
