ABOUT US

SELSI Solutions Limited is a Pipeline and Process Service Company established in Ghana to provide support to onshore, shallow water and offshore pipeline & process plant contractors and operators.

We provide a full range of pre-commissioning services on pipelines and spools/ jumpers. We also provide Nitrogen purging and leak testing services on process pipework during plant maintenance.

Expertise

Our engineering and operations teams have global experience in PPS, having worked on major projects in Europe, Australia, Middle East, Asia and Africa - including Ghana.

With experience ranging from 12 years to over 25 years in PPS, our teams are equipped to engineer, lead and manage PPS projects and operations.

Tailored & Timely

We understand what it means to deliver timely service to our clients and we have built capacity to meet our client's needs.

Due to our country specific focus, we site equipment in-country. We have also developed capability to source project critical items quickly locally, and internationally if needed.

Reach

We aim at delivering the safest and highest quality services to our clients in Ghana and expanding our services to the wider West African Region.

Our vision is to be the leading Pipeline and Processing Services company in Ghana and beyond.

OUR SERVICES

Pipeline Pre-commissioning

- Pigging (Flooding, Cleaning, Gauging)
- Testing (Hydrostatic strength and Leak)
- De-watering
- Drying
- Nitrogen Purge & Pack

Process

- Nitrogen/Helium leak testing
- Nitrogen Purge & Pack

Project Management & Engineering Consultancy

- PPS Job Specific Procedures
- Test Packs
- PPS Project Management (Planning, Scheduling etc.)

OUR STRATEGY

Vision

To be the leader in providing the safest and highest quality services to the pipeline and process services industry in West Africa.

Mission

To provide unique timely solutions to our clients at the highest standard of quality and safety.

Core Values

- We believe in treating our customers with respect.
- We integrate honesty, integrity and business ethics into all aspects of our business functioning.
- We grow through innovation and solid business practices.

Goals

- To develop a strong base of key customers.
- To increase assets and investments of the company to support the development of our services.
- To build an excellent reputation in the field of Pipeline and Process Services and become a key player in the industry.

GALLERY

TRACK RECORD

NO	PROJECT	CLIENT	WORK SCOPE DETAILS	DATE
1	Ghana gas-CBI 8"x 4 km Gas pipeline	Orsam Ltd.	<p>Engineering and project management. Development of task specific procedures and plans for flooding, cleaning and gauging, pipeline hydrostatic leak and strength testing, dewatering and drying, and Nitrogen purging and packing to 2bar.</p> <p>Procurement of consumable item including all pigs, pig tracking equipment, hydrotest water.</p> <p>Supply of all equipment including high volume lift and flooding pumps, high volume hydrotest pumps, air compressor, desiccant air dryer, calibrated pressure gauges and recorders, flowmeters, temperature probes, dew point meters.</p>	Dec-24
2	Jubilee Riser 10 - Diaphragm pump and accessories rental	TechnipFMC	Supply of 2"diaphragm pump for riser 10 effluent evacuation	May-23
3	Jubilee Riser 10 - Supply of Moonpool hydraulic hoses	TechnipFMC	Supply of hydraulic hoses for moonpool	May-23
4	36" Seawater intake pipeline remediation	IDC Energy (Contractor)/ VRA (Company)	<p>ROV drone inspection of pipeline - check for sand accumulation.</p> <p>Location of offshore PLET Installation of pipe plug to aid water gate replacement and other civil works in onshore chamber (water sump)</p>	Aug 2022- Mar 2023
5	KPONE INDIPENDENT POWER PLANT - Seawater piping replacement with GRP (Fibre glass piping)	PERJ / FKT (Contractor)/ STEAG & CENOPS (Clients)/ CEMPOWER (Company)	Hydrotest of fibre glass pipeline/ piping.	Jul-22
6	Tema LNG project - Pressure Regulating and Metering Station Piping Hydrotest.	Harlequin (Contractor) / TLTC (Company)	Hydrotest of spool of various sizes (1/2", 2", 3", 4", 8", 10", 12", 16", 20". within the plant.	2021-2023
7	Supply of smart pig - Pathfinder	TechnipFMC	Supply of smart pig to plot pipeline internal features.	Aug-Sep 2021
8	Supply of vacuum annulus monitoring equipment	TechnipFMC	Supply of hoses, PRV, regulators, pressure gauge and personnel for flowline annulus testing and monitoring	Jul-21

9	Dewatering, drying and Nitrogen packing support to Enermech	Enermech Ghana	Supply of Dewatering and drying spread and personnel for dewatering 13" (18"OD) flexible flowline/ riser.	May-Oct 2021
10	Rental of high volume lift pump	Technip FMC	Rental of lift pump for flooding flexible pipeline during installation.	Apr-21
11	Tema LNG Project - Pre-commissioning of 18"x 6km gas pipeline.	Harlequin (Contractor) / TLTC (Company)	<p>Engineering and project management. Development of task specific procedures and plans for flooding, cleaning and gauging, pipeline hydrostatic testing, dewatering and drying, and Nitrogen purging and packing to 2bar.</p> <p>Development of risk assessments and implementation of mitigative measures.</p> <p>Procurement of consumable item including all pigs, pig tracking equipment, hydrotest water (1200m3), Liquid Nitrogen.</p> <p>Supply of all equipment including high volume lift and flooding pumps, high volume hydrotest pumps, air compressor, desiccant air dryer, nitrogen vaporisor, calibrated pressure gauges and recorders, flowmeters, temperature probes.</p>	Apr-May 2021
12	MV21 Open Drain Piping	Wayoe Engineering	Hydrotest of various spool, 2", 8", 16",20".	Jul-19
