Smart. Sustainable. Ready for the future.

*Introducing the QUAZZAR CARGO Z1 — a next-generation electric cargo vehicle engineered for the future of urban logistics. Compact, powerful, and 100% electric, the Z1 redefines last-mile delivery with unmatched efficiency and sustainability. Equipped with a high-performance 3000W motor and advanced lithium battery options (72V 70Ah / 60V-100Ah / 72V-100Ah), it offers a reliable range of up to 70 km and a top speed of 45 km/h, ensuring smooth, quiet, and emission-free operations throughout the city. A full charge in 8-10 hours keeps your business moving day after day. Its intelligently designed body (2800 x 920 x 1650 mm) includes a spacious cargo box (1300 x 1000 x 1200 mm) capable of handling loads up to 520 kg, while maintaining agility in tight urban environments. With features like hydraulic disc brakes, rear-view camera, hand brake system, and radio, the Z1 delivers on safety, convenience, and comfort. Built for business, the QUAZZAR CARGO Z1 is also highly scalable — 4 units fit in a 20GP container, and 8 in a 40HQ — making it an ideal choice for fleet operations looking to adopt clean and cost-effective mobility solutions. Whether for logistics, retail, service fleets, or urban deliveries, the CARGO Z1 is more than a vehicle — it's a commitment to progress.*
