

## Examples Referenced Throughout the Series

The examples referenced throughout **Unseparate Stories** were selected to illustrate recurring patterns surrounding perception, institutional continuity, participation, access, communication, conditioning, credibility, human worth, and the normalization of imbalance. Some examples are historical. Others are cultural, political, social, or symbolic. Together, they reflect how systems, behaviors, narratives, and responses often repeat across different periods, environments, and institutions despite appearing disconnected on the surface.

These references are not presented as identical circumstances, but as reflective points of examination intended to encourage broader observation, critical thought, and deeper consideration of how continuity, reinforcement, interpretation, and participation shape collective human experience.

### Historical & Political Examples

- Hurricane Katrina
- Tuskegee Syphilis Study
- McCarthyism
- Jim Crow Laws
- Redlining & Housing Segregation
- Japanese Internment Camps
- The Civil Rights Movement
- The Holocaust
- Apartheid in South Africa
- COINTELPRO
