

Streetline Performance & Accessories, Inc.
PRODUCT AVAILABILITY POLICY
Last Updated: March 2026

Product Availability

Streetline Performance & Accessories Inc. strives to maintain accurate inventory information and product availability on our website.

However, due to the large number of products offered and reliance on manufacturer inventory systems, some items may occasionally become temporarily out of stock or unavailable.

Product availability is not guaranteed until the order has been processed and confirmed.

Streetline Performance & Accessories Inc. reserves the right to limit quantities, substitute equivalent products when applicable, or cancel orders if products are no longer available.

Manufacturer Drop-Shipping

In order to provide customers with the fastest possible delivery, Streetline Performance & Accessories Inc. may arrange for certain products to be shipped directly from the manufacturer or authorized distributor.

This process is commonly referred to as drop-shipping.

When drop-shipping is used:

- **The product will ship directly from the manufacturer or supplier warehouse**
- **Delivery times may vary depending on the supplier's processing schedule**
- **There is no additional shipping charge to the customer solely because an item is drop-shipped**

Customers will still receive shipping confirmation and tracking information when available.

Imported or Special Order Products

Certain products sold by Streetline Performance & Accessories Inc. may be imported items or specialty products that are stocked in limited quantities.

If these products are temporarily unavailable, they may be fulfilled through the next manufacturer or distributor shipment cycle.

Delivery timelines for imported or specialty products may vary depending on:

- **Supplier manufacturing schedules**
- **Import shipping timelines**
- **Customs processing**
- **Distributor inventory availability**

Streetline Performance & Accessories Inc. cannot guarantee exact delivery dates for these items.

Discontinued Products

From time to time, manufacturers may discontinue products without prior notice.

If a product ordered by a customer becomes discontinued or permanently unavailable before shipment:

- **The order may be cancelled**
- **The customer will be notified**
- **A refund will be issued for the unavailable item**

Streetline Performance & Accessories Inc. reserves the right to cancel orders for discontinued or unavailable products at its sole discretion.

Supplier & Manufacturer Responsibility

Streetline Performance & Accessories Inc. works with numerous manufacturers and distributors to fulfill orders.

As a result, Streetline Performance & Accessories Inc. is not responsible for delays caused by manufacturers, distributors, shipping carriers, or supply chain disruptions.

However, we will make reasonable efforts to communicate delays and assist customers whenever possible.
