Community Work Day A Success

Grants Mountain POA held its' first Community Work Day on Saturday, April 4. (Unfortunately, our originally scheduled date of March 28 was rained out.) We had 22 people volunteer their time on Saturday to help with several maintenance tasks around the mountain. Work activities included picking up roadside trash, trimming brush around the fences and the water tank, repairing and painting fences, final painting on the water tank, sweeping rocks and gravel off the asphalt roadbed, seeding grass in areas next to the road (where fill dirt was placed to protect the roadbed foundation), cleaning and clearing ditches and culverts, and landscaping near the front entrance and around the water tank.

After 4 long hours of hard work, everyone met at the Amsbary's house for a picnic lunch and fellowship with their neighbors.
