

River Protein Harvesting

Turning invasive Asian carp into sustainable protein.

Problem

Invasive carp dominate Midwest waterways, harming ecosystems and local economies.

Solution

We harvest, process, and convert invasive fish into premium pet and animal nutrition ingredients.

Market Opportunity

Pet food market > \$120B globally. Strong demand for sustainable proteins.

Business Model

B2B ingredient sales, co-branded partnerships, grants and donations supporting conservation impact.

Impact

Ecosystem restoration, local jobs, reduced waste, circular protein economy.

Funding Ask

Seeking strategic partners, grants, and private investment to scale processing capacity.

River Protein Harvesting

- Upcycling invasive Asian carp into premium pet & aquaculture protein
- Solving ecological damage + protein supply chain risk
- Seeking strategic + impact investment

Problem

- Invasive carp damaging Mississippi River ecosystems
- Billions in ecological & infrastructure damage risk
- Pet food & aquaculture industries face protein volatility

Solution

- Harvest invasive carp at scale
- Convert into high-value protein ingredients
- Supply pet food, aquaculture, and agriculture markets

Market Opportunity

- \$50B+ global pet food market
- Rapidly growing sustainable protein demand
- Strong Midwest logistics advantage

Business Model

- Harvest + processing + ingredient sales
- B2B contracts with major pet food brands
- Public-private partnerships & grants

Traction & Partnerships

- Federal & state grant pipeline
- Corporate partnership outreach
- Mississippi River policy support

5-Year Financial Snapshot

Year	Revenue	EBITDA	Facilities
1	\$1.2M	-\$250K	Pilot
2	\$4.5M	\$500K	1 Plant
3	\$12M	\$3.2M	2 Plants
4	\$28M	\$9.5M	3 Plants
5	\$55M	\$22M	5 Plants

Use of Funds

- Pilot processing facility
- Harvest fleet + logistics
- Regulatory & certifications
- Sales + partnerships

Roadmap

- 2026: Pilot + validation
- 2027: First commercial plant
- 2028–2030: Multi-state expansion

Team

- Founder/CEO – Operations & infrastructure
- Advisors – Fisheries, supply chain, pet food
- Seeking CFO + Head of Sales

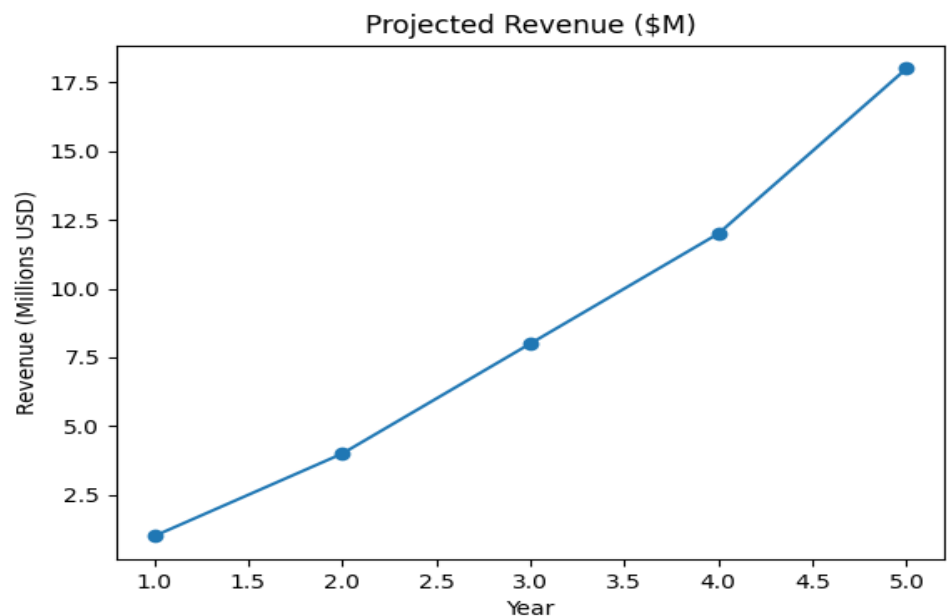

Investment Ask

- Seeking \$2.5M seed round
- Extends runway 24 months
- Unlocks grants + strategic partnerships
