

PREVALENT PATIENT ENGAGEMENT SOLUTIONS

Engage. Empower. Retain.
Better Experience. Better Outcomes.

Prevalent Patient Engagement Solutions help healthcare organizations build meaningful patient relationships, improve communication, and deliver personalized care at every touchpoint.

ENHANCE EXPERIENCE
Deliver personalized and seamless patient experiences.

IMPROVE COMMUNICATION
Engage patients across multiple channels effectively.

BETTER OUTCOMES
Empower patients to an active role in their health.

SECURE & COMPLIANT
Ensure data security and meet healthcare compliance standards.

DATA-DRIVEN INSIGHTS
Leverage analytics to improve engagement and operations.

POWERFUL MODULES

01

Patient Registration & Profile Management

Maintain comprehensive patient profiles and demographics.

02

Appointment Scheduling

Book, reschedule and manage appointments with ease.

03

Reminders & Notifications

Send automated SMS, email and push reminders for appointments, medications and more.

04

Secure Messaging

Enable two-way secure communication between patients and care teams.

05

Lab Results & Reports

Allow patients to view and download lab results and medical reports.

06

Billing & Payments

View bills, make secure payments and track transaction history.

07

Health Education

Provide personalized health content, tips and resources to patients.

08

Surveys & Feedback

Collect feedback and conduct surveys to improve patient satisfaction.

09

Care Plans & Follow-ups

Create personalized care plans and track follow-ups for better outcomes.

10

Medication Management

Send medication reminders and refill alerts to improve adherence.

11

Patient Mobile App

Empower patients with self-service access on the go.

12

Family Access

Allow authorized family members to access and manage patient information.

13

Privacy & Consent

Manage patient consents and ensure compliance with privacy regulations.

14

Reports & Analytics

Track engagement metrics and generate actionable reports.

15

Integration Ready

Seamlessly integrate with EHR, EMR and third-party systems.

16

Campaign Management

Run targeted campaigns and messages to engage patients effectively.
